MITRAL REGURGITATION INDEX : AN ECHOCARDIOGRAPHIC GUIDE

Thesis

Submitted in Partial fulfillment of the master degree
In cardiology

By

Neamat Mahmoud Abd Alla
M.B., B. ch.

Supervised by

Prof. Dr. Ali Ahmed Ibrahim El Abd
Professor of Cardiology
Faculty of medicine
Ain Shams University

Dr. Ahmed Abd El- Rahman Sharaf El- din
Assistant Professor of Cardiology
Faculty of medicine
Ain Shams University

Dr. Sameh Saleh Sabet
Lecturer of Cardiology
Faculty of medicine
Ain Shams University

Faculty of medicine
Ain Shams University
2000 –2001

Acknowledgement

It is a great thing to feel success and have the period of achieving all what is always aspired. Nevertheless, one must not forget all those who usually help and push him into the most righteous way that inevitably ends with fulfillment and perfection.

When the instant comes to appreciate all those kind-hearted people, & soon mention **Prof. DR. Ali Ahmed El Abd,** Professor of Cardiology, Ain shams University, the person who gave me the honor by reading every word written in this thesis. He really helped me by his precious opinions and contributive comments that served much in the construction of this work.

Thanks are also due to **Dr. Ahmed Abd El Rahman**, Assistant Professor of Cardiology, Ain Shams University who has been supporting, encouraging me.

My sincere thanks for **Dr. Sameh Sabet,** Lecturer of Cardiology who has been the real brother who always supports,reads every word written in this thesis, also he really helped me in my work by his expert in doing echocardiography.

Also, thanks for **Dr. Ghada El Shaied, Dr. Ayman Gouda** Lecturers of Cardiology who helped me in my work by their experts in doing Echocardiography, also my thanks for **Dr. Walla Abd El Rheim** for her helping me by her thesis, a lot of thanks for all my patients, nurses in ASUSH, for helping me throughout the practical part of this work.

To

My Father , My Mother

My Sisters, Brother

To all those who love,

help,

Encourage me

Neamat

List of Contents

	Page
Introduction and Aim of The Work	1
Review of Literature	4
❋ Pathology and causes of MR	4
❋ Assessment of MR through cardiac catheterization	13
❋ Assessment of MR by transthoracic echocardiography	24
❋ Proximal isovelocity surface area	43
Subjects and Methods	58
Results	66
❋ Case Presentations	76
❋ Data Collection Sheet	82
Discussion	83
Study Limitation and Conclusion	92
Summary	94
References	102
Arabic Summary	

List of Tables

		Page
Table (1)	Normal pressure and vascular resistance	14
Table (2)	Showing the different PV velocity parameters	30
Table (3)	Clinical, Doppler and echocardiographic variables (mean±SD) among three grades of MR	68
Table (4)	Sensitivity, specificity, predictive values of CW Doppler in detecting the severity of MR	69
Table (5)	Summarized sensitivity, specificity, predictive, values of PISA radius in detecting the severity of MR.	70
Table (6)	Sensitivity, specificity, predictive values of jet penetration in detecting the severity of MR.	71
Table (7)	Sensitivity, specificity, predictive valuesof systolic PAP in detection the severity of MR	72
Table (8)	the relation between the severity of MR by MR index and the severity of MR assessed by expert's reader	74
Table (9)	Summarized sensitivity, specificity, predictive valuesof MR index in detection severity of MR.	74
Table (10)	MR index (mean ± SD) in normal and low EF% subgroups.	75
Table (11)	Clinical, Doppler and echocardiographic variables. (Mean± SD) Among three grades of MR according to Thomas et al., (1999).	89
Table (12)	The MR index (mean ± SD) of normal and low (EF) subgroup according to Thomas et al (1999).	90
Table (13)	The MR index (Mean ± SD) of normal and low (EF) subgroup according to our study	90
