Acknowledgment

A word of thanks giving to God, the source of all the knowledge, by his abundant aid this work has come to fruition.

I wish to express my deepest gratitude to **Prof. Dr. Ahmed Osman**, Professor of Immunology, Faculty of Science, Cairo University, for the generous help, supervision, encouragement and support. His guidance and kind help are highly appreciated; his golden advices and endless help could be felt in every part of this work.

I wish express my deepest gratitude to **Prof. Dr. Nahed Abd El-Wahab**, Professor of Clinical Pathology, National Cancer Institute, Cairo University, to whom I'm deeply indebted for having given me the chance to undertake the subject of this thesis, and whose guidance, supervision, simulating and suggestions were the backbone in performing this work.

I'm also thankful to **Dr. Jehan Abd El -Baset**, Associate professor of Clinical Pathology, National Cancer Institute, Cairo University, for her supervision.

I'm deeply indebted to **Dr.Kamelia Saleh**, Faculty of Medicine, Cairo University for her sincerely, devotionally and meticulously supplying me the samples of the patients.

I am also more than grateful to my family especially my father and my mother for their supporting and also my sisters Maha, Manar and Mai, especially my sister Manar student in faculty of engineering for her assistance in the statistical work.
