ACKNOWLEDGEMENT

I wish to express my deepest gratitude and appreciation to Prof. Dr. Mustafa Kamel Ismail, Professor of Neuropsychiatry, Faculty of Medicine, Ain Shams University, for choosing this interesting topic, his support, fatherly advice, giving me the broad outlines of this work and supplying me with most up-to-date literature not available elsewhere.

I would also like to express my sincere thanks and deep gratitude to Prof. Dr. Mohamed Hamed Ghanem, Professor of Neuropsychiatry, Faculty of Medicine, Ain Shams University, for his honest help, constant advice and for his meticulous revision of this work, without which it would not have been achieved.

I am deeply indebted to Dr. Mahmoud Hemida EL Rakany, Assistant Professor of Neuropsychiatry, Faculty of Medicine, Ain Shams University, for his encouragement, advice and valuable guidance.

My deepest appreciation goes to Dr. Safaya Effat, Assistant Professor of Neuropsychiatry, Faculty of Medicine, Ain Shams University, for helping me and her generous supply of references which enabled me to complete this work.

I would like to seize the opportunity to express my gratitude to Dr. Susan EL Kheli, Consultant of Clinical Psychology, Faculty of Medicine, Ain Shams University, Mrs. Awwaf and Miss Sherin Khalil for their efforts in supplying and administering the neuropsychological tests, without their help, this work not have been accomplished.

I am deeply indebted and owe special gratitude to all my senior staff and colleagues at the Neuropsychiatry Department, Faculty of Medicine, Ain Shams University for their support, advice and guidance throughout the performance of this work. Last but not least, my love and appreciation goes to my family for their continuous support and help to complete this work.

Ghada Refaat

LIST OF CONTENTS

	Page
Introduction and Aim of the Work	1
Chapter (1) : Cognitive functions and their assessment in schizophrenia	6
Chapter (2) : Cognitive dysfunctions in schizophrenia	41
Chapter (3) : Neurobiology of Cognitive dysfunctions in schizophrenia	74
Chapter (4) : Correlates of neurocognitive dysfunction in schizophrenia	102
Chapter (5) : Influence of medication and intervention on cognitive dysfunction	115
Presentation of cases	129
Discussion and conclusions	142
Recommendations	150
Summary	151
References	155
Arabic Summary	---

LIST OF FIGURES

	Page
<i>Fig. (1):</i> The working memory load	11
<i>Fig. (2):</i> Idealized average evoked potential pattern	30
<i>Fig. (3):</i> Childhood attentional dysfunction	71
<i>Fig. (4):</i> Receptor binding properties of conventional neuroleptics ...	117
<i>Fig. (5):</i> Receptor binding properties for novel antipsychotics	121

LIST OF TABLES

	Page
<i>Table (1):</i> Results of psychometric tests	139
<i>Table (2):</i> Clinical comparison between the cases	140
<i>Table (3):</i> Relation between schizophrenia subtypes, positive and negative symptoms and type of cognitive deficit	140

LIST OF APPREVIATION

5HT	5-hydroxy tryptamine (serotonin)
BVRT	Benton Visual Retention Test
CCK	cholecystokinin
CPT	Continuous Performance Test
CSF	Cerebrospinal fluid
CT scan	Computed tomography scan
CVLT	California Verbal Learning Test
DA	dopamine
DLPFC	dorsolateral prefrontal cortex
EEG	Electroencephalography
EPS	extra-pyramidal symptoms
ERP	Event-related potential
fMRI	functional magnetic resonance imaging
GABA	Gamma-amino-butyric acid
HVA	Homovanilic acid
IQ	Intellectual Quotient
LI	latent inhibition
LTM	Long-Term Memory
MAP	microtubule associated protein
MHPG	Methoxy-hydroxy-phenyl glycol
MMN	Mismatch negativity
MRI	Magnetic resonance imaging
MRS	Magnetic resonance spectroscopy
NA	Noradrenalin
NAA	N-acetyl aspartate
NART	National Adult Reading Test
NMDA	N-methyl D-aspartate
PET	Positron emission tomography
PFC	Prefrontal cortex
PPI	Pre-pulse inhibition
RAVLT	Rey Auditory Verbal Learning Test
rCBF	regional cerebral blood flow
Rh	Rhesus factor
ROCF	Rey-Osterrieth Complex Figure Test
SPD	Schizotypal Personality Disorder
SPECT	Single photon emission computed tomography
STG	superior temporal gyrus
VBR	Ventricular brain ratio
VIP	vasoactive intestinal peptide

WAIS	Wechsler Adult Intelligence Scale
WCST	Wisconsin Card Sorting Test
WMS-R	Wechsler Memory scale Revised
WRAT	Wide Range Achievement Test

Introduction and Aim of the Work
