## List of Tables

<i>Table No.</i>	<i>Details</i>	<i>Page No.</i>
1	MSAFP levels that make the risk of having a Down syndromes fetus in women younger than 35years equivalent to the risk in a women aged 35	38
2	Age and Sex Distribution of 500 Down Syndrome Cases.	49
3	Age and Sex Distribution of 500 Down Syndrome Cases.	51
4	Age and Sex Distribution of 148 Down Syndrome Cases Not Associated With Other Congenital Anomalies and Maternal Age $\geq 30$ Years,	51
5	Age and Sex Distribution of 148 Down Syndrome Cases, Not Associated With Other Congenital Anomalies and the Maternal Age $\geq 30$ Years	52
6	Age and Sex Distribution of 130 Down Syndrome Cases Not Associated With Ohter Congenital Anomalies and The Maternal Age $< 30$ Years.	53
7	Age distribution of 130 Down Syndrome Cases Not Associated With Other Congenital Anomalies and the Maternal Age $< 30$ Years,	54
8	Age and Sex Distribution of Down Syndrome 142 Cases Associated with Other Congenital Anomalies and the Maternal Age $\geq 30$ years	55

9	Age Distribution of 142 Down Syndrome Cases Associated With Other Congenital Genomic Anomalies and The Maternal Age $\geq$ 30 Years	56
10	Age and Sex Distribution of 80 Down Syndrome Cases Associated With Other Congenital Anomalies and the Maternal Age < 30 Years.	57
11	Age Distribution of 80 Down Syndrome Cases Associated With Other Congenital Anomalies and Maternal Age < 30 Years.	58
12	The Relation Between The Paternal Age and The Incidence Percent, Sex of 500 Down syndrome Cases.	58
13	The Relation Between the Paternal Age and The Incidence Percent of 500 Down Syndrome Cases	60
14	The Relation Between the Paternal Age and Sex of 500 Down Syndrome Cases	60
15	The Relation Between the Maternal Age and The Incidence Percent, Sex of 500 Down Syndrome Cases.	61
16	The Relation Between The Maternal Age and The Incidence Percent of 500 Down Syndrome Cases	63
17	The Relation Between The Maternal Age and The Sex of 500 Down Syndrome Cases	63

18	152 Different Teratogenic Factors to Which The Mother of The Down Syndrome Cases Exposed to it During Antenatal Period: (Infections, Pharmaceutical, Radiation, Psychic Trauma, Haemorrhage).	64
19	20 Families (4%) Among 500 Families of Down Syndrome Patients Show More Than One Member Affected With Down Syndrome and Classified According to Their Degree of Relationship to The Index.	99
20	History of Abortions, Early Infants Deaths and Still Births Among 500 Families of Down Syndrome Patients.	68
21	Birth order:	69
22	The Parental Birth Origin of 500 Down Syndrome Cases	70
23	222 Down Syndrome Patients Presenting With 271 Other Congenital Anomalies and Genetic Diseases According to Systems Affected.	71
24	142 Down Syndrome Patients Presenting with Other Congenital Anomalies and Genetic Diseases with Maternal Age $\geq 30$ Years.	74
25	142 Down Syndrome Patient Associated With 170 Other Congenital Anomalies and Genetic Diseases With Maternal Age $> 30$ Years.	76
26	80 Down Syndrome Patients With Other Congenital Anomalies and Genetic Diseases With Maternal Age $< 30$ Years.	79

44	Consanguinity Profile of 4 Down Syndrome Patients Associated Skin Anomalies With Maternal Age < 30 years.	99
45	Consanguinity Profile of 4 Down Syndrome patients presenting with skin Anomalies With Maternal Age < 30 Years.	100
46	Consanguinity Profile of (-) Down Syndrome Patients Presenting With Skin anomalies + Other Systems With Maternal Age < 30 Years.	100
47	Consanguinity Profile of 7 Down Syndrome Cases Presenting With Skin Anomalies With maternal Age > 30 Years.	101
48	Consanguinity Profile of 5 Down Syndrome Patients Associated With Skin Anomalies + Others Systems With Maternal Age >30 Years.	101
49	Consanguinity Profile of 24 Down Syndrome Patients Associated With Visceral Anomalies (GIT, Urogenital, Respiratory) With Maternal Age $\geq$ 30 Years.	102
50	Consanguinity Profile of 24 Down Syndrome Patients Associated With Visceral Anomalies (GIT, Urogenital, Respiratory) With Maternal age < 30 Years.	102
51	Consanguinity Profile of 11 Down Syndrome Patients Associated With Visceral Anomalies (GIT, Urogenital, Respiratory) With maternal age <30 years.	103
