Faculty of Science

TITLE SHEET

Wael Mahmoud Ahmed Darwish

Master of Science

Department of Chemistry

Faculty of Science

Ain Shams University.

Graduation Year : 1991

Awarding Year : 1997

APPROVAL SHEET

Title of M.Sc. Thesis

**STUDIES ON THE PREPARATION AND
CHARACTERIZATION
OF SOME AMINE POLYMERS FOR INDUSTRIAL
APPLICATIONS**

Name of the Candidate

Wael Mahmoud Ahmed Darwish

Submitted to the
Faculty of Science, Ain Shams University

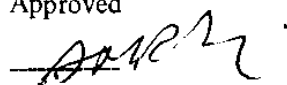

Supervision Committee

Prof. Dr. A.M. Rabie
Faculty of Science,
Ain Shams University.

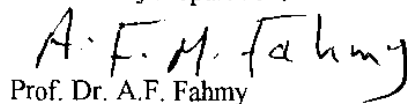

Prof. Dr. M.A. Abd El-Ghaffar
National Research Centre,
Dokki, Cairo, Egypt.

Prof. Dr. F.M. Helaly
National Research Centre,
Dokki, Cairo, Egypt.

Approved

Head of Chemistry Department

Prof. Dr. A.F. Fahmy

ACKNOWLEDGMENT

I wish to express my deepest thanks and gratitude to Prof. Dr. A.M.Rabie , Department of Chemistry , Faculty of Science , Ain shams University, for his great effort, supervision and for his valuable discussions.

I'm very grateful to Prof. Dr. M.A. Abd El - Ghaffar, Prof. of chemistry of polymers and pigments, Department of Polymers, National Research Centre, for suggesting the topics of this work , his valuable guidance, continuous effort and help to have this work done.

I also wish to thank Prof. Dr. F. M. Helaly, Department of Polymers and Pigments, National Research Centre, for her great effort, supervision and her valuable discussions in rubber applications.

The author would like to thank Dr. Elham A. Youssef, Researcher at the Department of Polymers for her cooperation and contribution in the paint applications.

The author wishes to thank Prof. Dr. M.A. Ahmed Prof. of physics , Department of Physics , Cairo University , for his useful help and kind contribution in the electrical properties measurements and his useful discussion .

My thanks are extended to my colleagues at the Department of Polymers and Pigments , National Research Centre, for their cooperation and their help in various ways.

***TO
MY PARENTS***

CONTENTS

| | Page |
|-----------------|------|
| Aim of the work | i |
| List of Figures | |
| List of Tables | |
| Abstract ----- | |
| Summary ----- | I |

Chapter I INTRODUCTION

| | |
|--|--------|
| (1.1) Discovery of poly aromatic amines ----- | 1 |
| (1.2) Chemical synthesis of poly aromatic amines ----- | 2 |
| (1.3) Electrochemical synthesis of poly aromatic amines | 13 |
| (1.4) Electrical conductivity : | |
| (1.4.1) Conductivity in organic polymers ----- | 20 |
| (1.4.2) Conductivity in polyaromatic amines ----- | 23 |
| (1.5) Poly aromatic amines as corrosion inhibitors ----- | 28 |
| (1.6) An introduction to rubber - chemistry ----- | |
| (1.6.1) Rubber ingredients ----- | 34 |
| (1.6.2) Rheological behavior of vulcanizates ----- | 40 |
| (1.6.3) Processing of vulcanizates ----- | 41 |
| (1.6.4) Aging of rubber vulcanizates ----- | 42 |
| (1.6.5) Types of antioxidants ----- | 46 |

VI

| | |
|--|----|
| (1.6.6) Polyanilines as antioxidants ----- | 49 |
|--|----|

Chapter II EXPERIMENTAL

| | |
|---|----|
| The scope of the present investigations ----- | 51 |
| (2.1) Materials used ----- | 52 |
| (2.2) Methods of preparation | |
| (2.2.1) Effect of type and concentration of the initiator--- | 53 |
| (2.2.2) Preparation of free polymers ----- | 54 |
| (2.2.3) Preparation of polymers - HCl salts ----- | 55 |
| (2.3) Instrumental analysis ----- | 56 |
| <u>(2.4) Applications as Corrosion Inhibitors :</u> | |
| (2.4.1) Materials ----- | 57 |
| (2.4.2) Preparation of the coating Formulations ----- | 58 |
| (2.4.3) Physical and Mechanical Tests of painted Films: | |
| (2.4.3.1) Preparation of glass panels ----- | 58 |
| (2.4.3.2) Preparation of steel panels ----- | 59 |
| (2.4.3.3) Determination of Viscosity by Ford cup ----- | 59 |
| (2.4.3.4) Determination of the dry paint film thickness--- | 59 |
| (2.4.3.5) Hardness by pendulum hardness tester ----- | 60 |
| (2.4.3.6) Measuring adhesion by tape test ----- | 60 |
| (2.4.3.7) Ductility by cupping test machine ----- | 60 |
| (2.4.3.8) Resistance of organic coatings to the effect of rapid deformation (Impact resistance) ----- | 61 |
| (2.4.4) Corrosion Tests | |
| (2.4.4.1) Weight loss measurment ----- | 61 |
| (2.4.4.2) Laboratory corrosion test ----- | 62 |
