ACKNOWLEDGEMENT

First and Foremost thanks to **ALLAH**, the most merciful.

I wish to express my deep appreciation and sincere gratitude to **Prof. Dr. Omayma EILamee** Prof. of Internal Medicine, Ain Shams University, Head of internal medicine department, head of ultrasonography unit, for her close supervision, valuable instructions, continuous help, patience and guidance. She has generously devoted much of her time and effort for planning and supervision of this study. It was a great honor for me to work under her supervision.

My deepest gratitude to **Prof. Dr Samir Abdelhamed Gait** Prof. of Internal Medicine University, who generously supervised my work in a supportive and educational way. He has generously devoted much of his time and effort for planning and supervision of this study. It was a great honor for me to work under his supervision.

I wish to express my supreme gratitude to **Prof. Dr. Shadya Hussein Mabrok Prof.** of Pathology, Ain Shams University for his encouragement and revision of the work.

I would like to express my deep gratitude to **Prof. Dr. Samya Amer Swelem** Prof of Internal Medicine, Ain Shams University for his continuous support.

My deepest gratitude to **Dr Nanees Ahmed Adel Abdelmageed**, lecturer of Internal Medicine, Ain Shams University, who generously supervised my work in a supportive and educational way.

I would like to express my deep gratitude to **Prof. Dr. Fayek Mohamed Sadek Ghaly** for his continuous help and support.

I would like to express my deep gratitude to **Prof. Dr. Sherine Hassan Atef** Prof of Clinical Pathology, Ain Shams University for his continuous support.

I would like also to thank all my professors, my colleagues and my family for their great help, and before all my great gratitude to the one who I love, respect and admire most in this world, my father , **Prof. Dr. Ashraf Ahmed Hamed.**
