**Biological Activities Of Some
Medicinal Plants
Containing Phenolic Compounds**

Thesis

Presented By

**Pharmacist: Ghada Ismail El-Shahat Ali Attia
Tanta University**

For The

Fulfillment Of The Master Degree

In

Pharmaceutical Sciences

" Pharmacognosy "

Under the Supervision of

Prof. Dr.

Ibrahim M. El-Shamy

*Prof. of Pharmacognosy and
Dean of Faculty of Pharmacy
Tanta University*

Prof. Dr.

Ibrahim I. Mahmoud

*Prof. and Head of pharmacognosy
Dept. and Dean of Faculty
of Pharmacy
Helwan University*

Prof. Dr.

Mohamed A. Nasrah

*Prof. of Pharmacology and Late
Dean of Faculty of Pharmacy
Tanta University*

Dr.

Fatma I. Sonbol

*Ass. Prof. Of Microbiology
Dept. Faculty of Pharmacy
Tanta University*

**Pharmacognosy Department
Faculty of Pharmacy
Tanta University
2002**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

" إِنَّمَا أَمْرُهُ إِذَا أَرَادَ شَيْئًا أَنْ يَقُولَ لَهُ كُنْ فَيَكُونُ
فَسَبَّحَانَ الْمَلِكِ يَمِينَهُ مَلَكُوتِ كُلِّ شَيْءٍ وَإِلَيْهِ تُرْجَعُونَ "

(Committee In Charge)

Date 20/ 1 / 2002

ACKNOWLEDGMENT

I would like to express my deepest gratitude and thanks to ALLAH, most Gracious and most Merciful, by the grace of whom, this work was made possible.

I am deeply indebted and grateful to Prof. Dr. Ibrahim M. El-Shami, Prof. of Pharmacognosy and Dean of Faculty of Pharmacy, Tanta University, for his kind supervision, valuable scientific guidance and continuous encouragement throughout this work.

It is my great pleasure to express my deep everlasting gratitude to Prof. Dr. Ibrahim I. Mahmoud Prof. of Pharmacognosy and Head of Pharmacognosy Department and Dean of Faculty of Pharmacy, Faculty of Pharmacy, Helwan University, for his kind supervision, indispensable advice and valuable efforts throughout this work .

Please Allow me to express my sincere appreciation and great indebtedness to Prof. Dr. A. Nassra, Prof. of Pharmacology and lata Dean of Faculty of Pharmacy, Tanta University, asking Good for mercy to his kind soul.

My sincere thanks are also expressed to Dr. Fatma Sonbol, Assoc. Prof. of Microbiology, Faculty of Pharmacy, Tanta University, for her kind supervision, valuable guidance and unlimited help throughout this work.

I am deeply thankful to all my professors colleagues at the Pharmacognosy Department, Faculty of Pharmacy, Tanta University, to my Faculty and all those who have helped in making this work possible.

I wish to thank the staff technicians and workers of the Dept. of Pharmacognosy who contributed in bringing this work to completion.

CONTENTS

INTRODUCTION	1
SCOPE OF WORK	3
REVIEW OF LITERATURE	4
MATERIALS AND METHODS	19
PART I	
- Chapter I : Antimutagenic Effects of the Drugs Under Investigation	32
- Brine Shrimp Eggs Bioassay	33
- <i>Agrobacterium tumefaciens</i> Bioassay	37
- Chapter II : Antiinflammatory Effects of the Drugs Under Investigation	45
- Chapter III : Antimicrobial Activities of the Drugs Under Investigation.	59
- Antibacterial Activities.	59
- Antifungal Activities.	62
PART II	
- Chapter I: Antimutagenic Effects of the Selected Drugs	65
- Brine Shrimp Eggs Bioassay	65
- <i>Agrobacterium tumefaciens</i> Bioassay	65
- Chapter II: Antiinflammatory Effects of the Selected Drugs	71
- Chapter III: Antimicrobial Activities of the Selected Drugs	81
- Antibacterial Activities.	81
- Antifungal Activities.	83
- Chapter IV: Antiulcer Activities of the Selected Drugs	90
- Chapter V : Antidiabetic effects of the selected drugs	96
- Chapter VI : Preliminary Phytochemical Screening of the Selected Drugs	100

PART III	
- Chapter I : Phytochemical Investigation of the Lipoidal Matter and Bitter Principles of <i>Ruta graveolens</i> L.	103
- Preparation of the Petroleum Ether Extract and Separation of Bitter Principles.	103
- Crystallization and Identification of the Crystalline Mass.	103
- Fractionation of Lipoidal Matter.	110
- TLC Investigation of the Unsaponifiable Matter.	110
- Gas Liquid Chromatography of Unsaponifiable Matter.	113
Chapter II : Investigation of Flavonoidal Constituents of <i>Ruta graveolens</i> L.	119
- Extraction and Fractionation of Flavonoids.	119
- Chromatographic Investigation of the Prepared Fractions.	121
- Isolation and Identification of the Flavonoidal Content of the Methanolic Extract of <i>Ruta graveolens</i> L.	123
- Identification of Compound II.	125
- Identification of Compound III.	131
- Identification of Compound IV.	137
- Identification of Compound V.	143
- Identification of Compound VI.	148
General Conclusion	157
