Factor V Leiden in Children With Ischemic Stroke

Thesis

Submitted for partial fulfillment of Master Degree (M.Sc.) in pediatrics

$\mathcal{B}y$

Naglaa Moustafa Kamal Mohammed Elbahy Diab M.B., B.Ch., Faculty of Medicine, Ain Shams University 2004

Under supervision of

Prof. Dr. Hamed Mahmoud Shatla

Professor of Pediatrics Faculty of Medicine Ain Shams University

Prof.Dr. Hoda Yahya Tomoum

Professor of Pediatrics Faculty of Medicine Ain Shams University

Prof. Dr. Solaf Mohamed Elsayed

Assistant Prof. of Genetics Faculty of Medicine Ain Shams University

Faculty of Medicine Ain Shams University 2012

العامل الخامس لايدن في الاطفال الذين يعانون من السكتات الدماغيه

توطئة للحصول على درجة الماجستير في طب الاطفال

مقدمة من

الطبيبة / نجلاء مصطفى كمال محمد البهى دياب بكالوريوس الطب والجراحة جامعة عين شمس ٢٠٠٤

تحت إشراف

أ.د/ حامد محمود شتلة

أستاذ طب الأطفال كلية الطب جامعة عين شمس

أ.د/ هدى يحيى طموم أستاذ طب ألاطفال كلية الطب جامعة عين شمس

أد/ سلاف محمد السيد

أستاذ مساعد أمراض الوراثة كلية الطب – جامعه عين شمس

كاية الطب جامعة عين شمس ٢٠١٢

First and Foremost all thanks to **ALLAH** the most kind and merciful for giving me the power and strength to carry out this work.

I would like to express my profound gratitude and respect to **Prof. Dr. Hamed Mahmoud Shatla,** Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for his valuable care, constructive criticism and continuous encouragement throughout the whole work. It was by his continuous guidance that this work has come to light.

I would like to express my deepest thanks and gratitude to **Prof. Dr. Hoda Yahia Tomoum,** Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for her valuable care and kind supervision in conveying her experience to complete this work.

I would like to express my deepest thanks and gratitude to **Dr.**Solaf Mohamed Elsayed, assistant Professor of Genetics, Faculty of

Medicine, Ain Shams University, for her valuable assistance and kind

supervision in conveying her experience to complete this work.

I would like to express my deepest thanks and gratitude to **Dr. Rania Hamed Shatla,** Lecture of Pediatrics, Faculty of Medicine, Ain Shams University, for her valuable assistance and kind supervision in conveying her experience to complete this work.

Finally, I would like to say special "thank you" to my father and my mother about supported me, encouraged me not only through this work but in every step in my life too.

Introduction and Aim of the Work

Ischemic Stroke

List of Abbreviations

AIS	Arterial ischemic stroke	
CNS	Central nervous system	
ECMO	Extracorporeal membrane oxygenation	
SCD	Sickle cell disease	
MELAS	Mitochondrial myopathy, encephalopathy, acidosis, stroke like episodes	lactic
MRI	Magnetic resonance imaging	
MRA	Magnetic resonance angiography	
MRV	Magnetic resonance venography	
BG	Basal ganglia	
CC	Cerebral cortex	
PLIC	Posterior limb of the internal capsule	
CT	Computed tomography	
CTA	CT angiography	
ICA	Internal carotid artery	
MCA	Middle cerebral artery	
ECG	Electrocardiogram	
ASA	Aminosalysilic acid	
TIA	Transient ischemic attack	
СВС	Complete blood count	
PCR	Polymerase chain reaction	
ACA	Anterior cerebral artery	
ATIII	Antithrombin III	
FVL	Factor V Leiden	
MTHFR	Methyl tetrahydrofolate reductase	
PT20210	Prothrombin 20210	

List of Figures

1.Cerebral angiogram	26			
2.Axial TT weighted MRI. Moyamoya disease28				
3.Major clinicoradiological patterns underlying childhood arteriopathic brain infarcts				
4. Cerebral angiography demonstrates narrowing of the ICA from a traumatic dissection	30			
5. Axial T2 weighted images acquired after neonatal onset and childhood onset	35			
6. Diagnostic evaluation of stroke in children	50			
7. Age distribution in studied patients	72			
8. Sex distribution in studied patients	73			
9. Risk factors in studied patients	73			
10. Clinical presentation in studied patients	74			
11. Site of lesion in MRI	75			
12. Vascular disorder in MRA and MRV	76			
13 Factor V Leiden mutation in studied natients	76
