ASSESSMENT OF PHOTOTHERAPY INDUCED HYPOCALCEMIA

THESIS

Submitted in Partial Fulfillment for the Master Degree in
Pediatrics

By

MEDHAT FOUAD BAYOMI

M.B.B.CH.

Supervised by

Prof. Dr. ZEINAB MOHAMED HAMED

Professor of Pediatrics,

Faculty of Medicine, Cairo University.

Dr. OLA EL-SISI

Assistant Professor of Chemical Pathology,

Faculty of Medicine, Cairo University.

Dr. IMAN KHALED EYADA

Lecturer of Pediatrics,

Faculty of Medicine, Cairo University.

Faculty of Medicine,

Cairo University.

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

” قَالُوا سُبْحٰنَكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِیْمُ الْحَكِیْمُ ”

صدق الله العظيم

ACKNOWLEDGEMENT

First GOD the most kind and the most merciful.

I wish to express my deep thanks and sincere gratitude to **Prof. Dr ZEINAB MOHAMED HAMED**, Professor of Pediatrics, Faculty of Medicine, Cairo University, for the time she devoted for planning and supervising this study and for her continuous help, patience and guidance throughout this work.

I would like to express my sincere and deep appreciation to **Dr. OLA EL-SISI**, Assistant Prof. of Chemical Pathology, Faculty of Medicine, Cairo University, for the time and effort she devoted for the supervision of this thesis, for her kindness and parental attitude which can not be expressed in words.

Special thanks must be delivered to **Dr IMAN KHALED EYADA**, Lecturer of Pediatrics, Faculty of Medicine, Cairo University, for her kind supervision, viable criticism and encouragement throughout the course of this work.

Finally, my great appreciation is due to my **Wife and my Kids**, who suffered a lot to help me.

To my Parents,

To my Wife and Kids,

***Who suffered a lot to
make our dream come
true.***

LIST OF TABLES

No.		Page
1	Normal values of serum bilirubin.....	10
2	Incidence of N.J. in mature infants weighting 2500g or more in different countries	11
3	The principal causes of unconjugated hyperbilirubinemia in the neonatal period.....	14
4	The principal causes of conjugated hyperbilirubinemia in the neonatal period.	16
5	The causes of clinically apparent jaundice according to the day of appearance.	17
6	The causes of persistent jaundice in the first month of life...	18
7	Possible mechanisms involved in physiologic jaundice in newborn infants.	21
8	Guidelines for maximal permissible total serum bilirubin concentration.	42
9	Approach to indirect hyperbilirubinemia in healthy term infants without hemolysis.....	43
10	Drugs that cause significant displacement of bilirubin from albumin in vitro.	44
11	Distribution in (mmol/L) of calcium in normal human plasma.	90
12	Normal calcium blood levels.	92
13	Recommended daily dietary allowances of calcium source....	93
14	Clinical data of full term infants (20 cases).....	118
15	Laboratory data of full term infant (20 cases).....	119
