

**Synthesis, Characterization and evaluation of Biological
activity of some new pyridopyrimidines and as light
stabilizing agents for poly(vinyl chloride)**

By

Reham Akram Abdel-monem Mohamed

B . Sc. In Chemistry(2007)

A Thesis Submitted for the M. Sc. Degree in Chemistry

To

Chemistry Department

Faculty of science,

Ain Shams University

2013

Synthesis, Characterization and evaluation of Biological activity of some new pyridopyrimidines and as light stabilizing agents for poly(vinyl chloride)

For

M. Sc. Degree in Chemistry

To

Chemistry Department, Faculty of Science,

Ain Shams University

By

Reham Akram Abdelmenem Mohamed

B . Sc. In Chemistry(2007)

Under the supervision of

Prof. Dr. Ahmed Ismail Hashem

Prof. of Organic Chemistry, Faculty of Science, Ain Shams University.

Prof. Dr. Samira Taha Rabie

Prof. of Photochemistry, National Research Center.

Prof. Dr. Afaf Ali Nada

Prof. of Photochemistry, National Research Center.

Prof. Dr. Maged Shafik Antonious Nakhla

Abstract	
Summary	
1.Introduction	1
1.1.Synthesis of pyrimidine derivatives.....	1
1.2. Reactions of pyrimidines	3
1.3. Synthesis of five membered fused pyrimidines	5
1.3.1. Synthesis of pyrrolopyrimidine derivatives.....	5
1.3.2. Synthesis of pyrazolopyrimidine derivatives	6
1.4. Synthesis of six membered fused pyrimidines.....	8
1.4.1. Synthesis of pyridopyrimidine derivatives.....	8
1.4.2. Synthesis of pyranopyrimidine derivatives.....	21
1.4.3. Synthesis of pyrazolopyridopyrimidine derivatives.....	22
1.4.4. Synthesis of pyrazolopyranopyrimidine derivatives.....	27
1.4.5. Synthesis of pyranopyridopyrimidine derivatives.....	27

1.5. Bioactivity.....	32
1.6. Bioactivity and photostability of poly(vinyl chloride).....	35
2. Experimental.....	42
2.1. Synthesis of 4a-e and 7a-e	42
2.2. Synthesis of 5a-e and 8a- e.....	47
2.3. Synthesis of 11a-d	51
2.4. Synthesis of 13a-f.....	54
2.5. Synthesis of 15a-d	56
2.6. Synthesis of 16a-d and 17a-d.....	58
2.7. Biological activity study.....	63
2.7.1. Antimicrobial activity.....	63
2.7.1.1. Preparation of microbial suspensions.....	63
2.7.1.1.1. Determination of antimicrobial activity by Disk-diffusion method.....	63
2.7.1.1.2. Determination of Minimum Inhibitory Concentration (MIC)....	64
2.7.2. Antitumor activity.....	65
2.7.2.1. Cytotoxic effect on human cell lines (HEPG 2 and MCF 7).....	65
2.7.3.Pyridopyrimidines as Photostabilizers for rigid poly(vinyl chloride). 67	

2.7.3.1. Preparation of PVC films.....	67
2.7.3.2. Photodegradation process and light source.....	67
2.7.4. Method of evaluation of the stabilizing efficiency.....	68
2.7.4.1. Weight loss and Gel content measurements.....	68
2.7.4.2. Intrinsic viscosity measurements.....	69
2.7.4.2. Intrinsic viscosity measurements.....	70
3. Results and Discussion.....	71
3.1. Synthesis of pyridopyrimidine derivatives.....	71
3.2. Biological activity.....	85
3.2.1. Antimicrobial activity.....	85
3.2.2. Antitumor activity.....	89
3.3. Some pyridopyrimidine derivatives as photostabilizers for rigid PVC.....	94
3.3.1. Weight loss and gel content as criteria for the photostabilizing efficiency of the investigated materials.....	94
3.3.2. Intrinsic viscosity measurements as criterion for photostabilizing efficiency.....	101
3.4. Antimicrobial activity of PVC/ pyridopyrimidines blend.....	110
4. References	113

Arabic Summary

List of tables

Table (1) : derivatives of compound 86	25
Table (2) : derivatives of compound 88.....	26
Table (3): The ADDT Antimicrobial activity of the tested compounds against bacterial and fungal strains isolated from animal origin.....	86
Table (4): The MIC Antimicrobial activity of the tested compounds against bacterial and fungal strains isolated from animal origin	87
Table (5): Cytotoxic activity of some new pyridopyrimidine derivatives against HEPG2 and MCF7	90
Table (6): Measurements of weight loss %, gel content %, and intrinsic viscosity $[\eta]$ for rigid PVC in absence and in presence of some pyridopyrimidine derivatives as photostabilizers compared with the reference UV absorber, phenyl salicylate.....	96
Table (7): Antimicrobial activity of PVC in presence of some pyridopyrimidinederivatives	112

List of figures

Figure (1): Cytotoxic activity of compound (17b) against HEPG2.....	92
Figure (2): Cytotoxic activity of compound (17a) against HEPG2.....	92
Figure (3): Cytotoxic activity of compound (11a) against MCF7	93
Figure (4): Cytotoxic activity of compound (15b) against MCF7.....	93
Figure (5): Variation of weight loss % of PVC stabilized with 2% by weight of pyridopyrimidine derivatives.....	97
Figure (6): Variation of gel content % of PVC stabilized with 2% by weight of pyridopyrimidine derivatives	99
Figure (7): Variation of intrinsic viscosity of PVC stabilized with 2% by weight of pyridopyrimidine derivatives	102
Figure (8): Changes in discoloration of PVC stabilized with 2% by weight of pyridopyrimidine derivatives	104
Figure (9): IR spectra of a): the pyridopyrimidine derivative (7b),and b): Of PVC/7b, after 8h UV irradiation	106
