Acknowledgment

First and foremost grateful to **Allah** the most kind and merciful for helping me to achieve this work .

I am grateful to **Dr.K amelia Fouad** , Professor of Medical Surgical Nursing and vice dean of post graduate studies & research, Faculty of Nursing, Ain Shams University .for her continuous help , constructive criticism and careful supervision .

I would like to express my deep profound appreciation to **Dr Jaklein Fahim** , Lecturer of Medical Surgical Nursing, Faculty of Nursing, Ain Shams University for her scientific help and meticulous supervision.

Finally, I dedicate this work to all patients with epilepsy asking Allah to help them live better and cope with their illness.

Dawlat A hmed
