## *Abstract*

For years, there have been large investments in information and communication technology (ICT) within the health sector. One of the main areas of interest has been electronic medical record (EMR) systems, large benefits expected availability are gained for the nurses, clinicians and the organization as a whole. **The aim** of this study was to assess the factors affecting the application of electronic medical records by nurses in a health insurance hospital through: Assessing socio-demographic characteristics of nurses, determining administrative factors affecting the application of electronic medical records, and comparing among different areas in relation to the factors affecting the application of electronic medical records. The study was conducted at eight units in Misr Children's Hospital of the Health Insurance Organization. **Sample:** The study sample was 50% (70) staff nurses of the total number of staff nurses (140). Tool of the study included, a self administered questionnaire sheet .it consists of two parts. The first part was concerned with socio-demographic data about the subjects; the second part was concerned with the administrative factors in addition to the technical factors affecting the application of EMRs. **Results:** the organizational structure related factors, financial related factors, manpower related factors, training related factors, emotional related factors, time related factors, and controlling related factors were highest affect factors regarding to the administrative factors. Regarding to the technical factors, the computer related factors and computer maintenance related factors were the highest affect factors. There was a significant difference between the administrative factors in relation to planning related factors. There was significant difference in technical factors relation to computer management related factors. Also there was significant difference in the technical factors in relation to computer maintenance related factors. There was no statistically significant difference between the administrative factors and all socio-demographic characteristics while there was statistically significant difference between the technical factors and gender.

**Conclusion:** the organizational structure related factors was the highest affect factor regarding to the administrative factors and computer related factors and computer maintenance related factors were highly affect factor regarding to the technical factors. **Recommendations:** Providing computer labs in the nursing schools and the technical institutes for applying computer science practically. Staff development programs (theoretical and practical) should be designed

---

**Key words:**

Electronic medical records, Electronic health records.

# Acknowledgement

*First and foremost grateful to **ALLAH** the most kind and merciful for helping me to achieve this work.*

I would like to express my profound gratitude and respect to **Prof. Dr. Samia Adam**, Professor and Head of Nursing Administration Department, Faculty of Nursing, Ain Shams University, for her motherly care, constructive criticism and continuous encouragement throughout the whole work.

I would like to express my deepest thanks and gratitude to **Dr. Galila Abdel Ghaffar** Lecturer of Nursing Administration, Faculty of nursing, Ain Shams University, for her valuable assistance and kind supervision in conveying her experience to complete this work.

Special thanks are also extended to all the participants in this study who gave their time and cooperation during data collection.

**Marwa Mohamed Aly**

## **Dedication**

This work is dedicated to:

The soul of my father ....

My mother .....

My husband .....

My sisters .....

And

My children.....

Their continuous help and support

Were crucial for its accomplishment

اسم الطالبة : مروة محمد محمد محمد على  
اسم الدرجة : ماجستير إدارة التمريض  
القسم التابع له : إدارة التمريض  
اسم الكلية : كلية التمريض  
الجامعة : جامعة عين شمس  
سنة التخرج : 1997  
سنة المنح : 2014

## شكر وتقدير

أتقدم بخالص الشكر والتقدير للسادة الأساتذة الذين قاموا  
بالإشراف وهم

أ.د./ سامية محمد عبد الله آدم

أستاذ ورئيس قسم إدارة التمريض

كلية التمريض

جامعة عين شمس

د./ جليلة عبد الغفار

مدرس إدارة التمريض
