**Assessment of photodynamic treatment versus medical
treatment of *Helicobacter pylori* using PCR**

Thesis

Submitted to National Institute of Laser Enhanced Sciences

Cairo University

٢٠١٩

For Fulfillment to the Ph.D. in

Medical and Biological Applications of Laser Science

By

Rehab Mohamed Hassan

B.Sc.

Diploma in Medical and Biological Applications of Laser Science

Master Degree in Medical and Biological Applications of Laser Science

National Institute of Laser Enhanced Science

Cairo University

2005

Supervisors

Prof.Dr. Mohamed Helmy El-Batanouny

Prof. of General & Vascular Surgery

Faculty of Medicine

NILES

Cairo University

Prof.Dr. Mohamed Said Salama

Prof. of molecular biology

Faculty of Science

Ain Shams

Prof.Dr. Mazen Ibrahim Naga

Prof. of General Medicine

Faculty of Medicine

Cairo University

Approval sheet

Assessment of photodynamic treatment versus medical treatment of *Helicobacter pylori* using PCR

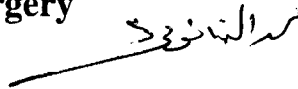

Name of the candidate

Rehab Mohamed Hassan

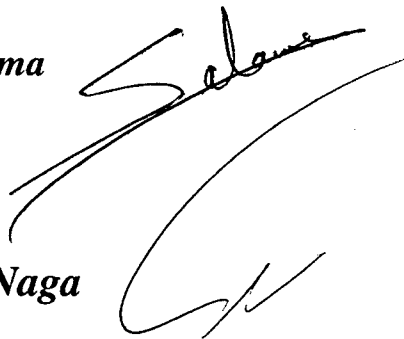

Submitted to National Institute of
Laser Enhanced Science

Supervision committee

Prof.Dr. Mohamed Helmy El-Batanouny
Prof. of General & Vascular Surgery
Faculty of Medicine
Cairo University

Prof.Dr. Mohamed Saïd Salama
Prof. of molecular biology
Faculty of Science
Ain Shams

Prof.Dr. Mazen Ibrahim Naga
Prof. of General Medicine
Faculty of Medicine
Cairo University

Acknowledgement

*F*irst of all I thank Allah, who helped me and gave me strength and patience to complete this work.

*W*ords could never express my appreciation to *Prof.Dr. Mohamed Helmy El-Batanouny*, Prof. of General & Vascular Surgery, Faculty of Medicine, who freely gave his time and experience for guiding and teaching me through this work.

*D*eep thanks to *Prof.Dr. Mohamed Said Salama*, Prof. of molecular biology, Faculty of Science, for his direct supervision, valuable advice and continuous support through this work..

I would like to express my infinite gratitude and deepest thanks to *Prof.Dr. Mazen Ibrahim Naga*, Prof. of General Medicine, Faculty of Medicine, for his powerful support and great help in collecting gastric biopsies which was used in this study.

*O*ne can never deny the favor of *Dr. El Gohary Said El Gohary*, Lecturer of Molecular biology, Faculty of Science, who was the guide to me

for the practical work of this study. Many thanks are sent to him for continuous assistance, patience and encouragement.

At the last, I would like to give special thanks to all members of National Institute of Laser Enhanced Science for their kind help and fruitful cooperation.

Dedication

To my husband for his
unlimited support and help.

Contents

i. Introduction	1
ii. Aim of the work	2
iii. Review of the literature	3
1. Laser physics		
2. Laser tissue interaction		
2.1 Heat		
2.2 Luminescence		
2.3 Photoablation		
2.4 Plasma formation		
2.5 Ionization		
2.6 Photochemistry		
3. Photodynamic therapy		
3.1 PDT photochemistry		
3.2 photosensitizers		
3.3 Laser light		
3.4 PDT of bacteria		
4. <i>Helicobacter pylori</i>		
4.1 Epidemiology of <i>H.pylori</i>		
4.2 Morphology & biochemical activity		
4.3 Cultural character of <i>H.pylori</i>		
4.4 Antimicrobial		

susceptibility of

H.pylori

4.5 Bacteriology &
pathogeneses

4.6 Diagnosis of *H.pylori*

4.7 Treatment of *H.pylori*

4.7.1 Medical treatment

4.7.2 Photodynamic
treatment

5. Molecular studies on *H.pylori*

iv.	Material and methods	37
	1. Patient		
	2. . Collection of biopsy samples		
	3. Isolation of the organism		
	4. Identification of <i>H.pylori</i>		
	5. PDT of <i>H.pylori</i> .		
	6. Antibiotic susceptibility of <i>H.pylori</i> Study design		
	7. Study design		
	8. Molecular studies		
	8.1 Preparation of the samples		
	8.2 Extraction of genomic DNA		

8.3 Estimation of DNA

concentration

8.4 RAPD primers

8.5 RAPD-PCR

amplification

8.6 RAPD-PCR program

8.7 Electrophoresis of the
RAPD-PCR products

9. Statistical analysis

9.1 Similarity index

9.2 Commonalty or
sharing band ratio

v. Results **47**

Identification of *Helicobacter pylori*.

Laser effect on photosensitized

Helicobacter pylori.

Antibiotic effect on *Helicobacter*

pylori.

RAPD fingerprint profile

vi. Discussion **82**

vii. Summary	93
viii. References	96
ix. Arabic summary
