Main Supervisor
A. Bassiouni

**STUDIES ON THE PROBLEM OF PASTEURELOSIS
IN DUCKS IN KAFR EL - SHEIKH PROVINCE**

*Thesis
Presented by*

FARES FARAG AWAAD EL-KHAYAT .
*(B.V.Sc, Zagazig University, Benha Branch)
(1991)*

Under Supervision

Of

Prof. Dr. A.A. Bassiouni
*Prof. Of Poultry Diseases
Cairo University*

Prof. Dr. EL- S.M. Fattouh.
*Dean of Faculty of Vet. Medicine
Kafar El.Sheikh, Tanta University*

Dr. A.A. El-Gohary.
*Ass. Prof. Of Poultry & Rabbit Diseases
And Head of Poultry & Fish Department
Kafr El-Sheikh, Tanta University.*

To
Department of Poultry And Fish .
*Faculty of Vet Medicine (Kafr El-sheikh)
Tanta University*

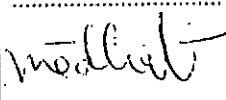

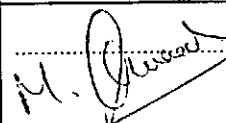

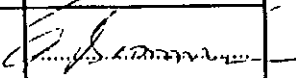

For
Master Degree
(Poultry and Rabbit Disease)
Fac. of Vet. Med. Tanta University.

(1999)

Approval Sheet

This is to approve that the dissertation presented by Demonstrator Fares Farag Awaad El-Khyate to Tanta University entitled (Studies on the problem of pasteurellosis in ducks in Kafr El-Sheikh province) for the degree of master Vet. Med. Science (Poultry and Rabbit diseases) has been approved by the examining committee:

Examining committee	Signature
Prof. Dr. Medhat Abd-Elhady Mohamed Professor of Poultry diseases Fac. of Vet. Med. Cairo University	
Prof Dr. Mohamed Hussin Awaad Professor and Head of department of Poultry and Rabbit diseases , Fac. Vet. Med.Cairo University	
Prof. Dr. Ahmed Abd-El-Hamid Bassiouni (Supervisor) Professor of Poultry diseases Fac. of Vet. Med. Cairo University	
Prof. Dr. El sayed Mohamed Fattouh (Supervisor) Dean of , Fac. Vet. Med. Kafr El-Sheikh Tanta University	
Dr. Abd-El- Galil A. El-Gohary (Supervisor) Assistant Professor and Head of Department of Poultry and Fish Tanta University (Kafr El-Sheikh)	

Date : 5 / 4 / 1999

ACKNOWLEDGMENT

ACKNOWLEDGMENT

I wish to express my deepest gratitude to Prof. Dr. A.A. Bassiuni Prof. of Poultry Diseases, Faculty of Veterinary Medicine, Cairo University under whose supervision this work was carried out and for his continuous support during my work in this thesis .

My cardial thanks are due to Prof. Dr. E.M. Fattouh Dean of Faculty of Vet. Med. Kafr El-Sheikh, Tanta University for his generous help , advice and support which was very valuable for this work .

My greatest appreciation is due to Dr. A.A. El-Gohary Ass. Prof. of Poultry and Rabbit Diseases and Head of Poultry and Fish Departement, Faculty of Veterinary Medicine , Kafr El-Sheikh , Tanta University who taught me how to carry out a scientific research and gave me the greatest support during my work in this thesis.

I am deeply indebted to Dr. H. Sultan lecturer of poultry and rabbit diseases, Fac. of Vet. Med. Kafr El-Sheikh ,Tanta University for his great enormous help.

I am indebted to all the staff members of Poultry and Fish Department, Fac. of Vet. Med., Kafr El- Sheikh, Tanta University for their great cooperation .

DEDICATION

I dedicate this work

to.....

the spirit of my father,

my mother,

my brothers and sisters

my wife

my daughter Gehad

my son Mostafa.

LIST OF TABLES

Tables	Pages
Table 1 : Samples collected from ducks of different ages and breed in Kafr El-Sheikh province.	42
Table 2 : The different antibacterial discs used in the in-vitro sensitivity test.	47
Table 3 : Rate of isolation of suspected <i>Pasteurellae</i> cultures isolated from ducks.	58
Table 4 : Biochemical identification of the isolated <i>Pasteuella</i> from ducks.	59
Table 5 : Serotyping of suspected <i>Pasteurellae</i> isolates from ducks.	60
Table 6 : Incidence of isolation of <i>P. multocida</i> and <i>P. anatipestifer</i> from ducks	61
Table 7 : The results of recovery rate of <i>Pasteurellae</i> from different collected samples.	62
Table 8 : The results of pathogenicity of the isolated <i>Pasteurellae</i> to mice	63
Table 9 : Results of in-vitro sensitivity of isolated <i>Pasteurellae</i> from ducks against different antibacterial agents.	69
Table 10 : Results of comparison between the in-vitro sensitivity of <i>P. multocida</i> and <i>P. anatipestifer</i> isolates to different antibacterial agents.	70
Table 11 : The results of the pathogenicity of <i>P. multocida</i> (D:2) to 21 days old ducklings.	74
Table 12 : The results of the pathogenicity of <i>P. anatipestifer</i> (O:1) to 21 days old ducklings.	75
Table 13 : Chemotherapeutic treatment of experimental infections with <i>P. multocida</i> and <i>P. anatipestifer</i> to 1 month old ducklings.	77
