Asmaa Salah El Din Mohamed

THESIS ADVISORS

APPROVAL

1- Professor Dr. Maher A. Mahmoud

Professor of Organic Chemistry (*D.Sc.*)
Faculty of Science, Ain Shams University

2- Professor Dr. Laila A. Refahy

Professor of Medicinal Chemistry
Theodor Bilharz Research Institute

3- Professor Dr. Samir M. El Amin

Professor of Medicinal Chemistry
Theodor Bilharz Research Institute

Head of Chemistry Department

ACKNOWLEDGEMENT

First of all, thanks to ALLAH to whom I relate my success achieving in any work in my life.

My deep thanks and everlasting gratitude goes to *prof. Dr. Maher Abdel Aziz El-Hashash*, Professor of Organic Chemistry (D.Sc.), Faculty of Science, Ain Shams University, for his interest, encouragement, and advice during the progress of the work as well as revision of the thesis at all.

I would like also to thank *prof. Dr. Laila Abd El-Ghany Refahy*, professor of Medicinal Chemistry, Department of Medicinal chemistry and biochemistry, Theodor Bilharz Institute, for his continuous and valuable supervision, patience guidance, expert labors advice which are altogether beyond what I could expect.

Also my deep thanks and gratitude to *prof. Dr. Samir El- Amin* professor of Medicinal Chemistry for his encouragement.

My warm thanks are expressed to *Dr. Amal Mohamed Saad*, Lecturer of Medicinal Chemistry, Department of Medicinal chemistry and biochemistry, Theodor Bilharz Institute, for great help and facilities provided for producing this work.

Greatful thanks are to *Dr. Alia A. Mahmoud*, Lecturer of Medicinal Chemistry, Department of Medicinal chemistry and biochemistry, Theodor Bilharz Institute, for her valuable support.

My heartfelt thanks are extended to my colleagues in Medicinal Chemistry Department, *Dr. Mosad A.Ghareeb* and *Dr. Maha El Shazly* for their friendly cooperation.

Finally, my deep thanks and gratitude to my family especially my parents for encouragement and loving me that much.

LIST OF TABLES

LIST OF TABLES

Table No	Title	Page
Table 1	Radical and non – radical oxygen metabolites.	8
Table 2	The most frequently encountered natural antioxidants in plants	10
Table 3	Phytoconstituents isolated from <i>T. Arjuna</i> and their pharmacological activity	49-58
Table 4	Elution systems of polyamide CC. of n-BuOH extract of <i>T. A.</i>	82
Table 5	¹ H-NMR and ¹³ C-NMR spectral data of compound (1)	85
Table 6	¹ H-NMR and ¹³ C-NMR spectral data of compound (2)	91
Table 7	¹ H-NMR and ¹³ C-NMR spectral data of compound (3)	96
Table 8	Elution systems of Silica gel CC. of petroleum ether extract of <i>T. A.</i>	99
Table 9	Percentage composition of leaves essential oil of <i>Terminalia arjuna</i> .(fraction 1)	101-102
Table 10	Percentage composition of leaves essential oil of <i>Terminalia arjuna</i> .(fraction 2)	104-105
Table 11	¹ H-NMR and ¹³ C-NMR spectral data of compound (4)	109
Table 12	Elution systems of polyamide CC. of n-BuOH extract of <i>T. B.</i>	115
Table 13	¹ H-NMR and ¹³ C-NMR spectral data of compound (5)	119-120
Table 14	¹ H-NMR and ¹³ C-NMR spectral data of compound (7)	106
Table 15	Total phenolic content (TPC) of the different extracts of <i>Terminalia Arjuna</i>	136

Table 16	Total phenolic content (TPC) of the different extracts of <i>Terminalia Bellerica</i>	137
Table 17	Total Flavonoids content (TFC) of the different extracts of <i>Terminalia Arjuna</i>	138
Table 18	Total Flavonoids content (TFC) of the different extracts of <i>Terminalia Bellerica</i>	139
Table 19	Free radical scavenging potential (DPPH) of the different extracts of <i>Terminalia Arjuna</i>	142
Table 20	Free radical scavenging potential (DPPH) of the different extracts of <i>Terminalia Bellerica</i>	143
Table 21	The total antioxidant capacity of the different extracts of <i>Terminalia Arjuna</i> and <i>Terminalia Bellerica</i>	145
Table 22	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of 70% methanol extract of <i>T.A.</i>	147
Table 23	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of 70% acetone extract of <i>T.A.</i>	148
Table 24	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of diethyl ether extract of <i>T.A.</i>	149
Table 25	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of petroleum ether extract of <i>T.A.</i>	150
Table 26	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of methylene chloride extract of <i>T.A.</i>	151

Table 27	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of ethyl acetate extract of <i>T.A.</i>	152
Table 28	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of butanol extract of <i>T.A.</i>	153
Table 29	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of 70% methanol extract of <i>T.B.</i>	154
Table 30	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of diethyl ether extract of <i>T.B.</i>	155
Table 31	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of Petroleum ether extract of <i>T.B.</i>	156
Table 32	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of methylene chloride extract of <i>T.B.</i>	157
Table 33	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of ethyl acetate extract of <i>T.B.</i>	158
Table 34	Mortality of Brine Shrimp larvae after 24 hrs of exposure to different concentrations of butanol extract of <i>T.B.</i>	159
Table 35	Cytotoxic activity of different extracts of <i>Terminalia Arjuna.</i>	160
Table 36	Cytotoxic activity of different extracts of <i>Terminalia bellerica.</i>	160
