ACKNOWLEDGMENT

ACKNOWLEDGMENT

The author would like to express his deepest thanks and gratitude to Prof. Dr. Dr.Ibrahim A. Khalil Professor of Animal Physiology Department of Animal Production, Faculty of Agriculture, Zagazig University, Benha Branch for his great help and close supervision which made this study possible. Further more, for his encouragement and consoling in the research phases of this thesis, as well as for the many valuable suggestions in the manuscript preparation.

It is great pleasure to express my sincere appreciation to Dr.G.M.El-Gendi Professor of poultry management, Department of Animal Production, Faculty of Agriculture, Zagazig University, Benha Branch for his direct supervision and his proper planning and guidance which he has given me during all stages of the work. No words can express my gratitude towards the great help and endless effort given by him.

Appreciation is also extended to Dr. Ahmed M. El-Kaiaty Professor of poultry Physiology, Department of Animal Production, Faculty of Agriculture, Cairo University for his supervision, counsel, assistance and continuous advice.

My deepest thanks to my parents and my wife and my son's who supported me with love and care.

The author wishes to express his gratitude to all staff members of Department of Animal Production, Faculty of Agriculture, Zagazig University (Benha Branch) for their helps.
