ACKNOWLEDGMENT

ACKNOWLEDGMENT

This work would never be crowned by success without the blessings of Allah to whom, my loyalty will remain forever beyond any compromise.

I'm greatly honored that I've worked under the supervision of Prof. Fawzy Mohamed Mostafa, Professor and Chairman of General Surgery Department, Faculty of Medicine, Assiut University. Without his help and guidance, the accomplishment of this work couldn't be fact. So, I am indeed grateful to him.

Words stand short when coming to express my deepest thanks and appreciation to Prof. Hassan Bakr El-Badawi, Professor and Chairman of Vascular Surgery Department, Faculty of Medicine, Assiut University for his great support, kind supervision and continuous encouragement. I will always remain grateful to him.

I'm greatly indebted to Dr. Mohamed Alaa El-Din Mubarak, Assistant Professor of Vascular Surgery who has been a real source of help, generous assistance and precious suggestions. He patiently spent time and effort in correcting and discussing the parts of this work.

I'd like to express my sincere thanks and deepest gratitude to Dr. Ahmed Fathy Ahmed El-Gebaly, Lecturer of Radiology, for his great help and comments that have been of great value in the course of this work.

Lastly, I'm grateful to the patients, colleagues, nursing staff and all who helped me in this work

Ashraf Gamal
