THE ROLE OF CERTAIN ANIMALS IN SEWAGE QUALITY TREATMENT

A Thesis Submitted In The Partial Fulfilment Of
The
Requirments For (M.Sc.) Degree In Zoology

By

Ramadan Mohamed Mohamed Abd-Rabou
(B.Sc., 1983)
Department of Zoology
Faculty of Science, Al-Azhar University

To

DEPARTMENT OF ZOOLOGY
FACULTY OF SCIENCE
AIN-SHAMS UNIVERSITY
1998

AKNOWLEDGMENT

Praise be to God, the cherisher and sustainer of the worlds. It is He who brought us forth from the wombs of our mothers when we knew nothing; and He gave us hearing and sight and intelligence and affections, so my great thanks to God for His mercey and reconcillation to us in this work.

My deep thanks to Dr. Gamal Abu-Sinna, professor of animal physiology, faculty of Science, Ain-Shams University. For his great efforts generously offered throughout this long work, which have been continued for more than ten years; and due to his continuous help and criticism which, did not interrupt during this period. My appreciation is also due to him for solving the problems that faced this work, where he was and still the only one that suffered the responsibility of solving these problems.

The auther wishes to express his sincere thanks to Dr.Nadia F. Ramadan, Assistant Professor of parasitology , Faculty of Science, Ain-Shams University, for her help at the beginning and the ending and during her journey.

My big grateful to Dr. Mostafa El-Hossani, Microbiology Assistant Professor, Biogas Department, Agriculture Research Center, the kind man who offered everything he could i needed during this work.

I can't forget Dr. Mansour Galal, Assistant Professor of Protozology, Faculty of Science, El-Monoufiya University, who has the big favour to produse this work.

I am also grateful to everybody who gave me his hands in and/or outside Cairo, especially all the staff and personnel of Zenein WWTP Laboratory; Biogas Lab. staff, ARC; Protozology Lab. F. of Science El-Monoufiya University.
