# List of Figures

Fig. No.	Title	Page No.
1	Formation of the Primitive Four Chambered Heart.	6
2	Formation of the Primitive Four Chambered Heart.	7
3	Formation of the Atrial Septum.	11
4	Ventricular Septation.	13
5	Septation of the Bulbus Cordis	14
6	Development of the Major Arteries	17
7	Superior and Inferior Vena Cava.	19
8	Inferior Caval System.	20
9	Bulbus Cordis Defects (Truncus Arteriosus)	23
10	Transposition of the great vessels	24
11	Transposition of the great vessels	24
12	Incomplete Transposition of the great vessels	25
13	Subvalvular aortic stenosis	26
14	Tetralogy of Fallot	28
15	Double aortic arch	30
16	Aortic arch with mirror image	31
17	Right aortic arch with aberrant left subclavian artery.	32
18	Double superior vena cava	33

19-37	Normal CT Appearance of the Thoracic Vessels.	34-41
38	Truncus arteriosus.	58
39	Right hemitruncus.	61
40	Patent ductus arteriosus.	63
41	Patent ductus arteriosus.	64
42	Dextro-transposition of the great arteries.	67
43	Levo-transposition of the great arteries.	68
44	Double aortic arch.	71
45	Double aortic arch.	72
46	Right aortic arch with aberrant left subclavian artery.	74
47	Aortic coarctation.	77
48	Endovascular stent for aortic coarctation treatment.	78
49	Pseudocoarctation.	80
50	Interrupted aortic arch.	82
51	Cervical aortic arch.	84
52	Idiopathic dilatation of the pulmonary artery trunk.	86
53	Absence of the left main pulmonary artery.	88
54	Supravalvular pulmonic stenosis.	90
55	Pulmonary artery sling.	93
56	Right upper lobe and middle lobe PAPVR.	96
57	Left upper lobe PAPVR.	97

58	Right lower lobe PAPVR.	98
59	TAPVR.	100
60	Hereditary hemorrhagic telangiectasia with PAVMs.	103
61	Persistent LSVC.	106
62	Azygous continuation of the IVC.	108
63	Hemiazygous continuation of left IVC.	109
64	Intralobar sequestration.	111
65	Scout view thoracic helical scan.	124
66	Echocardiography findings.	131
67	Comparison between CT and echocardiography findings.	142
Case 1	Fig. 68	149
Case 2	Fig. 69	150
Case 3	Fig. 70	151
Case 4	Fig. 71	152
Case 5	Fig. 72	153
Case 6	Fig. 73	154
Case 7	Fig. 74	155
Case 8	Fig. 75	156
Case 9	Fig. 76	157
Case 10	Fig. 77	158
Case 11	Fig. 78	159
Case 12	Fig. 79	160
Case 13	Fig. 80	161
Case 14	Fig. 81	162

Case 15	Fig. 82	163
Case 16	Fig. 83	164
Case 17	Fig. 84	165
Case 18	Fig. 85	166
Case 19	Fig. 86	167
Case 20	Fig. 87	168
Case 21	Fig. 88	169
Case 22	Fig. 89	170

# List of Tables

Table No.	Title	Page No.
1	Formation of the Primitive Four Chambered Heart.	8
2	Development of the Major Arteries	16
3	Development of the Major Veins	18
4	Inferior Caval System	19
5	Classification & types of cong thoracic anomalies.	56
6	Angiocatheter size and suggested rates of administration for pediatric CT angiography.	116
7	Patients monitored according to the severity of the reaction.	117
8	Management of acute Reactions.	118
9	Distribution of the studied group as regard general data.	128
10	Distribution of the studied group as regard clinical data.	129
11	Distribution of the studied group as regard echocardiography findings.	130
12	Distribution of the studied group as regard chest x-ray findings.	132
13	Distribution of the studied group as regard CT scan findings.	134
14	Distribution of the studied group as regard operative findings	135

15	Distribution of the studied of main groups as regard CT scan findings.	138
16	Distribution of the studied of systemic arterial anomalies group as regard CT scan findings.	139
17	Distribution of the studied of thoracic venous anomalies group as regard CT scan findings.	140
18	Comparison between Echo findings versus CT findings.	142
