ACKNOWLEDGEMENTS

First of all, I am greatly indebted to our Merciful ALLAH for all he gave me.

It is my great pleasure to express my sincere gratitude to Dr. **MOHAMED A. AKEILA**, Professor of Microbiology and Dean of Faculty of Veterinary Medicine, Alexandria University, for suggesting the problem, supervising the work and revising the manuscript. His continuous encouragement and guidance are deeply and heartily appreciated.

I wish to express my sincere appreciation and heartily thanks to Dr. **HELMY A. TURKI**, Professor of Microbiology and head of Microbiology Department, Faculty of Veterinary Medicine Alexandria University and Dr. **ALI A. AL-OBEIDY**, Professor of Microbiology and Head of Animal Health Research Institute for their continuous help; guidance and supervision. Besides their valuable instructions for accomplishment of this work.

I would like to express my sincere gratitude to Dr. **MOUSTAFA Y. EL-NAGGAR**, Lecturer of Microbiology, Faculty of Science, Alexandria University, for his enthusiastic supervision, sincere advice and unlimited help throughout the practical work. His creative comments and critical revision during the preparation of the manuscript made the completion of this work possible.

Also my thanks and deepest gratitude are due to all members of Department of Microbiology of Fac. of Vet. Med, Department of Microbiology Faculty of Science Alexandria University and to all staff members, Damanhour Provincial Diagnostic Laboratory for their help during the practical work.

Cordial thanks to my father for his continuous encouragement, husband and my children for their patience and sacrifice.
