**STUDY ON SOME COUMARIN  
AND THIOCOUMARIN  
DERIVATIVES**

***A THESIS SUBMITTED***

***TO***

**FACULTY OF SCIENCE  
AIN SHAMS UNIVERSITY**

**FOR**

**THE DEGREE OF DOCTOR  
OF PHILOSOPHY [Ph.D.]  
(IN CHEMISTRY)**

***PRESENTED***

**BY**

***ALAA EL-DIN MOHAMED FATHY GALAL***

***(M.Sc.)***

B 1497

**2001**

## APPROVAL SHEET FOR SUBMISSION

### ***Title of Thesis:***

STUDY ON SOME COUMARIN AND  
THIOCOUMARIN DERIVATIVES

### ***Name of the Candidate:***

Alaa El-Din Mohamed Fathy Galal

This thesis has been approved for submission by the supervisors:

1- Prof. Dr. Mohamed Mohamed Habashi

Signature: M. Habushi

2- Prof. Dr. Effat Abdel-Hamid Abu-Mustafa

Signature: Effat Abdel Hamid Abu-Mustafa

3- Prof. Dr. Omaila Mohamed Abdel-Hafez

Signature: Omaila Mohamed Abdel Hafez

Head of Chemistry Department

M. A. A.

Prof. Dr. M. A. A. El-Kasaby

## ***ACKNOWLEDGEMENT***

The author wishes to express his sincere gratitude to ***Prof. Dr. Mohamed Habashi***, Professor of Organic Chemistry, Chemistry Department, Faculty of Science, Ain-Shams University, for his supervision, continuous help and kind encouragement.

I am deeply indebted to ***Prof. Dr. Effat Abu-Mustafa***, Professor of Natural Products Chemistry, Chemistry of Natural and Microbial Products Department, National Research Centre, for her supervision kind encouragement, generous help and kind support.

I would like to express my thanks and deep gratitude to ***Prof. Dr. Omaima Abdel-Hafez***, Professor of Natural Products Chemistry, Chemistry of Natural and Microbial Products Department, National Research Centre, for suggesting the subject, continuous supervision, kind help, following the progress of the work with keen interest and for her kind support.

Sincere thanks and appreciations are due to ***Prof. Dr. Ezz El-din El-Khrisy***, Professor of Natural Products Chemistry, Chemistry of Natural and Microbial Products Department, National Research Centre, for his supervision, fatherly attitude, guidance, valuable discussion and for his kind support during the course of the present investigation.

Many thanks to ***Prof. Dr. Farid Badria***, Professor of Pharmacology Pharmacognosy, Department, Faculty of Pharmacy, Mansoura University, ***Prof. Dr. Ahmed El-diwany***, Professor of Biochemistry, Chemistry of Natural and Microbial products Department, National Research

Centre and *Dr. Hisham El-Anshasy*, Researcher, Genetic Engineering and Biotechnology Research Institute, Mobark City of Scientific Research and Technology Application for their help in the study of the biological activities.

My thanks to *Dr. Esmat M. El-Khouly*, Researcher, X-Ray Crystallography Laboratory, Physics Department, National Research Centre, for her help and carrying out X-Ray structure analysis.

Many thanks are due to all my Colleagues at Natural and Microbial Products Department, National Research Centre, for their encouragement during this work..

# CONTENTS

	<i>Page</i>
<b><i>AIM AND SUMMARY</i></b> .....	i
<b><i>GENERAL PART</i></b> .....	1
<b>1. Coumarins</b> .....	1
1.1. Introduction .....	1
1.2. Biological activities of coumarins .....	2
<b>2. 4-Hydroxycoumarins</b> .....	3
2.1. Naturally occurring 4-hydroxycoumarins .....	3
2.2. Biological activities of 4-hydroxycoumarins .....	5
2.2.1. Anticoagulant activity .....	5
2.2.2. Antimicrobial activity .....	10
2.2.3. 4-Hydroxycoumarin derivatives as antibiotics .....	15
2.2.4. Analgesic, antipyretic and sedative action of 4-hydroxycoumarins .....	17
2.2.5. Antiallergic activity.....	18
2.2.6. Insecticidal activity .....	18
2.2.7. Anthelmintic activity. ....	19
2.2.8. Antitumor and immunostimulant activity .....	19
2.2.9. Respiratory response to 4-hydroxycoumarins .....	19
2.3. Chemistry of 4-hydroxycoumarins .....	20
2.3.1. Introduction .....	20
2.3.2. Synthesis of 4-hydroxycoumarins .....	21
2.3.3. Reactions of 4-hydroxycoumarins.....	25

2.3.3.1. Alkylation reactions .....	25
2.3.3.2. Acylation and arylation reactions .....	35
2.3.3.3. With carbonyl compounds .....	39
2.3.3.4. With nitrogen containing compounds .....	47
2.3.3.5. With isocyanates and isothiocyanates .....	58
2.3.3.6. Miscellaneous reactions .....	61
<b>SPECIAL PART.....</b>	<b>74</b>
1. Synthesis of some new thiazolidinone and oxadiazoline coumarin derivatives.....	76
Synthesis of ethyl (coumarin-4-oxy) acetate (1) .....	78
Synthesis of coumarin-4-oxyacetic hydrazide (2) .....	85
Synthesis of some arylidene and alkylidene hydrazones (Schiff's bases) (3-20) .....	88
Synthesis of some thiazolidin-4-one derivatives (21-26).....	99
Synthesis of some 1, 3, 4-oxadiazoline derivatives (27-33)....	104
2. Synthesis of some new 5-substituted thiadiazole and oxadiazole coumarin and thiocoumarin derivatives .....	109
Synthesis of 2-[(coumarin-4-oxy) methyl]-5-mercapto-1,3,4- thiadiazole, 2-[(thiocoumarin-4-oxy) methyl]-5-mercapto- 1,3,4-thiadiazole and some of their alkylated products (34-40)	111
Synthesis of 2-[(coumarin-4-oxy) methyl]-5-mecapto-1,3,4- oxa-diazole, some of its alkylated products and some of its Mannich bases (41- 46).....	124

Synthesis of 2-[(coumarin-4-oxy) methyl]-5-aryl-1,3,4-oxadiazoles and 2-[(thiocoumarin-4-oxy) methyl]-5-aryl-1,3,4-thiadiazoles (47-53).....	135
Synthesis of 2-[(coumarin-4-oxy) methyl]-5-amino-1,3,4-oxadiazole (54).....	144
3. Synthesis of some new heterocyclic coumarin derivatives .....	147
Synthesis of some coumarin thiosemicarbazide derivatives and some of their cyclized products (55-66).....	149
Synthesis of some coumarin pyrazole and pyrazolone derivatives (67, 68).....	165
Synthesis of some coumarin pyrrole and indole derivatives (69-72).....	169
<b>BIOLOGICAL PART</b> .....	174
1. Antiviral and cytotoxic activities of some new prepared compounds .....	174
2. Structure-activity relationship (SAR) of some new prepared compounds towards different groups of microorganisms .....	180
<b>EXPERIMENTAL PART</b> .....	186
<b>REFERENCES</b> .....	216
<b>ARABIC SUMMARY</b> .....
