مجلس

Weekly docetaxel versus every three weeks in advanced breast cancer.

(1)

Acknowledgement

I would like to express my gratitude and deepest appreciation to my eminent Professor Dr. Mohammed Bassam Hashem, Professor of Clinical Oncology, Kasr El Aini center of Radiation Oncology and Nuclear Medicine Cairo University for his great support, encouragement, help, kindness and advice throughout this work, it is a great honour to work under his guidance and supervision.

I am also grateful to Professor Dr. Ebtessam Saad El Dein, Assistant Professor of Clinical Oncology, Kasr El Aini center of Radiation Oncology and Nuclear Medicine, Cairo University for her valuable assistance, kind help and guidance. She kept enriching the ideas with great patience and devotion.

My utmost thanks and gratitude to Professor Dr. Lobna Sedky, Assistant Professor of Clinical Oncology, Kasr El Aini center of Radiation Oncology and Nuclear Medicine, Cairo University. She made all the scientific material available for me, provided me with all the recent scientific publications. I appreciate all her kindness and help throughout this work.

I am also deeply indebted and grateful to my sincere Professor Dr. Samir Motawy, FRCR, Professor of

clinical Oncology and General Manager of El Salam Oncology center who guided me through out the whole work with his meticulous revision, sincere advice and great support.

Also I would like to thank Prof.Dr.Mohammed Abdalla, Lecturer of Clinical Oncology, Kasr El Aini center of Radiation Oncology and Nuclear Medicine, Cairo University and Prof.Dr.Ahmed Shokry FRCS.ED, Surgical Oncology Consultant in El-Salam Oncology Center for their great help.

I can never forget the sincere encouragement with great devotion and kindness of my parents and my friends.

Rasha Fahmi Abdalla

List of abbreviations

A	Doxorubicin.
ABC	Advanced breast cancer.
AC	doxorubicin/cyclophosphamide.
ANC	Absolute neutrophil count.
ASCO	American Society of Clinical Oncology.
CEA	Carcino Embryonic Antigen
CR	Complete remission
CMF	Cyclophosphamide/Methotrexate/ 5-Fluorouracil.
CT	Computed tomography.
CTC	Common toxicity criteria.
D	Day
DCR	Dacryocystorhinostomy.
DI	Dose intensity.
DLT	Dose limiting toxicity.
DNA	Deoxy-ribonucleic acid
ECOG	Eastern Cooperative Oncology Group.
ER	Estrogen receptor.
FAC	5-Fluorouracil/Adriamycin/ Cyclophosphamide.

FEC	5-Fluorouracil/Epirubicin/ Cyclophosphamide.
FdUMP	5-fluoro-2 deoxyuridine monophosphate.
FdUTP	5-fluoro-2 deoxyuridine triphosphate.
G-CSF	Granulocyte colony stimulating factor.
GI	Gastrointestinal.
HSR	Hypersensitivity reaction.
HSV-tk	Herpes simplex virus-thymidine kinase.
IDC	Invasive duct carcinoma.
ILC	Invasive lobular carcinoma.
LVEF	Left ventricular ejection fraction.
IV	Intravenous.
MAPs	Microtubule associated proteins.
MBC	Metastatic breast cancer.
MMPs	Matrix metalloproteinases.
MTD	Maximum tolerated dose.
M/V	Methotrexate/Vinblastin.
N/A	Not available.
NCI	National cancer institute.
NEMROK	Kasr EL-Aini Center of Radiation Oncology and Nuclear Medicine Cairo University.
NR	No response.
