**THERMAL, PHOTOCHEMICAL AND SPECTROSCOPIC
PROPERTIES OF
CERTAIN TRANSITION AND NON-TRANSITION
METAL COMPLEXES OF BIOLOGICALLY ACTIVE
THIOSEMICARBAZONES**

A THESIS

**Presented to the Faculty of Science
Assiut University, Assiut**

for

**the Degree of Doctor of Philosophy of Science (Ph. D.)
in Chemistry (Inorganic Chemistry)**

By

Kamal Saleh Taqi AL-Jadabi

B. Sc. in Chemistry, Faculty of Science, San'a University, Yemen

M. Sc. in Chemistry, Faculty of Science, Assiut University, Egypt

Supervised by

Prof. Dr. Aref Ahmed Mohamed Aly

Prof. of Inorganic Chemistry

Faculty of Science

Assiut University

Prof. Dr. Amna Sayd Ahmed Zidan* *Prof. Dr. Ahmed Hassan Osman

Prof. of Inorganic Chemistry

Faculty of Science

Assiut University

Prof. of Inorganic Chemistry

APPROVAL SHEET

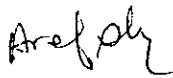

Name: Kamal Saleh Taqi AL- Jadabi

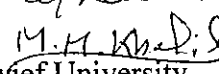

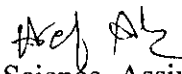

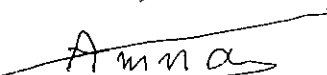

Thesis Title :

"THERMAL, PHOTOCHEMICAL AND SPECTROSCOPIC
PROPERTIES OF
CERTAIN TRANSITION AND NON-TRANSITION METAL
COMPLEXES OF BIOLOGICALLY ACTIVE
THIOSEMICARBAZONES"

Supervisors

- 1- Prof. Dr. Aref Ahmed Mohamed Aly 
Prof. of Inorganic Chemistry, Faculty of Science, Assiut University
- 2- Prof. Dr. Amna Said Ahmed Zidan 
Prof. of Inorganic Chemistry, Faculty of Science, Assiut University
- 3- Prof. Dr. Ahmed Hassan Osman 
Prof. of Inorganic Chemistry, Faculty of Science, Assiut University

Examination Committee :

- 1- Prof. Dr. Ahmed Mohammed Mohammed Hassan El-Roudi
Prof. of Inorganic Chemistry, Faculty of Science, Minia University 
- 1- Prof. Dr. Mohammed Magdy Khalil Mahmoud 
Prof. of Analytical Chemistry, Faculty of Science, Bani-Suef University
- 3- Prof. Dr. Aref Ahmed Mohamed Aly 
Prof. of Inorganic Chemistry, Faculty of Science, Assiut University
- 4- Prof. Dr. Amna Sayd Ahmed Zidan 
Prof. of Inorganic Chemistry, Faculty of Science, Assiut University
- 5- Prof. Dr. Ahmed Hassan Osman 
Prof. of Inorganic Chemistry, Faculty of Science, Assiut University

Vice Dean for Post Graduate Studies and Research affairs
Prof. Dr. Hassan M. El-Hawary

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

ACKNOWLEDGEMENT

In the name of *ALLAH*, gracious, the merciful we all thank our *God* for his gifts and his helping that enables me to make more progress.

I wish to express my great thanks and deep appreciation to **Prof. Dr. Aref Ahmed Mohamed Aly**, professor of inorganic chemistry Faculty of Science, Assiut University, **Prof. Dr. Amna Sayd Ahmed Zidan**, professor of inorganic chemistry Faculty of Science, Assiut University and **Prof. Dr. Ahmad Hassan Osman**, professor of inorganic chemistry Faculty of Science, Assiut University, for suggesting and planning the point of research, supervision, valuable guidance, helpful comments, constructive advice, significant encouragement, valuable discussion of the work, endless efforts during finishing and recasting this thesis and for human understanding.

Grateful acknowledgement and deepest thanks to **Prof. Dr. Abuel-Magd Abdel-Wahab**, head of chemistry department, and all staff members of the chemistry department, Faculty of Science, Assiut University.

I would also to express my deep gratitude to **Prof. Dr. Hassan El-Hawary**, vice-dean of graduate studies and research, Faculty of Science, Assiut University.

Also, the great thanks and deep appreciation to **Prof. Dr. Ahmad Y. Abdel -Mallek**, dean of Faculty of Science, Assiut University.

I wish to express my deeply thanks to **Prof. D. Ezzat Abd Allah**, president of Assiut University.

Also I want truly to thank all my friends in Assiut for help and encouragements.

Finally, I wish to express may thanks to my **family** for their valuable help and encouragement to achieve this thesis.

Kamal Saleh Taqi Al-Jadabi

CONTENTS

	Page
Aim of the Work	VI
Summary	VII
1. Introduction	1
1.1. Binary complexes of thiosemicarbazone ligands.....	1
1.2. Mixed ligand complexes of thiosemicarbazones	21
1.3. Thermal analysis and thermal decomposition of thiosemicarbazones and their complexes.....	24
1.4. Photochemistry of thiosemicarbazones and their complexes.....	26
1.5. Biological activity of thiosemicarbazones and their complexes	32
2. Experimental	36
2.1. Preparation of compounds	36
2.1.1. Preparation of thiosemicarbazone ligands	36
2.1.2. Preparation of the binary complexes	36
2.1.3. Preparation of the mixed ligand complexes	37
2.2. Physical measurements	45
2.2.1. Elemental analyses	45
2.2.2. Infrared spectra	45
2.2.3. Ultraviolet-Visible spectra	45
2.2.4. Magnetic susceptibility measurements.....	45
2.2.5. Thermal studies	45
2.2.6. Photolysis Studies	46
2.2.7. Biological Activity	46
3. Results and discussion	47
3.1. Characterization of metal binary complexes of 2-acetylpyridine-, 4-aminoacetophenone- and 2-furaldehydethiosemicarbazones	47
3.1.1. IR spectra	48
3.1.2. Electronic spectra	52

3.1.3. Thermal analysis	61
3.1.3.1. Kinetic data of the complexes	62
3.1.3.1.1 Non-mechanistic equations	62
3.1.3.1.2 Mechanistic equations	64
3.1.3.3 Thermal decomposition of the binary complexes "in dynamic air"	68
3.1.3.3.1 Thermal decomposition of 2-acetylpyridinethiosemicarbazone binary complexes 1-7 "in dynamic air"	68
3.1.3.3.2 Thermal decomposition of 4-aminoacetophenone-thiosemicarbazone binary complexes 8-14 "in dynamic air"	99
3.1.3.3.3 Thermal decomposition of 2-furaldehydethiosemicarbazone binary complexes 15-21 "in dynamic air"	125
3.2. Characterization of mixed ligand complexes of Co(II), Ni(II), Cu(II), Zn(II), Cd(II), Al(III) and Pb(II) thiosemicarbazones with 2-aminothiazol, 2,2'-bipyridine, 1,10-o-phenanthroline and halo acids as secondary ligands	150
3.2.1 Mixed ligand complexes of Co(II), Ni(II), Cu(II), Zn(II), Cd(II), Al(III) and Pb(II) thiosemicarbazones with 2-aminothiazol.....	150
3.2.1.1 IR spectra.....	154
3.2.1.1.1 IR spectra of 2-acetylpyridinethiosemicarbazone and 2-aminothiazol mixed ligand complexes (22-28).....	154
3.2.1.1.2 IR spectra of 4-aminoacetophenonethiosemicarbazone and 2-aminothiazol mixed ligand complexes (29-35)	156
3.2.1.1.2 IR spectra of 2-furaldehydethiosemicarbazone and 2-aminothiazol mixed ligand complexes (36-42).....	156
3.2.1.2 Electronic spectra and magnetic behaviour.....	181

3.2.2.2.1 Electronic spectra and magnetic behaviour of 2-acetylpyridinethiosemicarbazone and 2,2'-bipyridine mixed ligand complexes (43-49).....	255
3.2.2.2.2 Electronic spectra and magnetic behaviour of 4-aminoacetophenonethiosemicarbazone and 2,2'-bipyridine mixed ligand complexes (50-56).....	257
3.2.2.2.3 Electronic spectra and magnetic behaviour of 2-furaldehydethiosemicarbazone and 2,2'-bipyridine mixed ligand complexes (57-63).....	260
3.2.2.3. Thermal decomposition of thiosemicarbazones and 2,2'-bipyridine mixed ligand complexes.....	263
3.2.2.3.1 Thermal decomposition of mixed ligand complexes of 2-acetylpyridinethiosemicarbazone with 2,2'-bipyridine.....	263
3.2.2.3.2 Thermal decomposition of mixed ligand complexes of 4-aminoacetophenonethiosemicarbazone with 2,2'-bipyridine	271
3.2.2.3.3 Thermal decomposition of mixed ligand complexes of 2-furaldehydethiosemicarbazone with 2,2'-bipyridine.....	275
3.2.3 Mixed ligand complexes of Co(II), Cu(II) and Cd(II) 2-acetylpyridinethiosemicarbazones and halo acid.....	316
3.2.3.1 IR spectra	316
3.2.3.2 Electronic spectra and magnetic behaviour for the complexes (64-69).....	326
3.2.3. Thermal decomposition of the complexes "in dynamic air"	329
3.2.4 Ternary complexes of Co(II), Ni(II), Cu(II), Zn(II), Cd(II), Al(III) and Pb(II) 2-hydroxyacetophenone-thiosemicarbazones with 1,10-phenanthroline.....	342
3.2.4.1 R spectra of the complexes 70-76.....	344
3.2.4.2 Electronic spectra and magnetic behaviour of the complexes 70-76.....	353

3. 2.1.2.1 Electronic spectra and magnetic behaviour of 2-acetylpyridinethiosemicarbazone and 2-aminothiazol mixed ligand complexes (22-28).....	182
3.2.1.2.2 Electronic spectra and magnetic behaviour of 4-aminoacetophenonethiosemicarbazone and 2-aminothiazol mixed ligand complexes (29-35).....	182
3.2.1.2.3 Electronic spectra and magnetic behaviour of 2-furaldehydethiosemicarbazone and 2-aminothiazol mixed ligand complexes (36-42).....	185
3.2.1.3 Thermal decomposition of the thiosemicarbazones and 2-aminothiazol mixed ligand complexes.....	187
3.2.1. 3.1 Thermal decomposition of mixed ligand complexes of 2-acetylpyridinethiosemicarbazone with 2- aminothiazol	187
3.2.1.3.2 Thermal decomposition of mixed ligand complexes of 4-aminoacetophenonethiosemicarbazone with 2-aminothiazol.....	193
3.2.1.3.3 Thermal decomposition of mixed ligand complexes of 2-furaldehydethiosemicarbazone with 2- aminothiazol.....	200
3.2.1 Mixed ligand complexes of Co(II), Ni(II), Cu(II), Zn(II), Cd(II), Al(III) and Pb(II) thiosemicarbazones with 2,2'-bipyridine.....	228
3.2.2.1. IR spectra.....	232
3.2.2.1.1 IR spectra of 2-acetylpyridinethiosemicarbazone and 2,2'-bipyridine mixed ligand complexes (43-49).....	232
3.2.2.1.2 IR spectra of 4-aminoacetophenonethiosemicarbazone and 2,2'-bipyridine mixed ligand complexes (50-56).....	233
3.2.2.1.1 IR spectra of 2-furaldehydethiosemicarbazone and 2,2'-bipyridine mixed ligand complexes (57-63).....	237
3.2.2.2. Electronic spectra and magnetic behaviour.....	238
