DEDICATION

Acknowledgment

It is a great honor to express my deep gratitude and appreciation to Prof. Dr. Laila El- Sayed Soliman Prof. Of Microbiology and Immunology Faculty of medicine Ain Shams University, for her continuous guidance and meticulous supervision. She scarified a lot of her precious time to revise each and every step of this thesis. It is difficult for me to find the appropriate words that would do her favours. I know that she is never waiting for a word of thanks, and her ultimate satisfaction is the success and progress of her candidates.

I was fortuneted to carry out this work under the guidance of Dr. Sanaa Mohamed Ibrahim, lecturer of Microbiology and Immunology- Faculty of medicine- Ain Shams University. I am sincerely grateful for her kind support and sweet patience to accomplish this work.

I would like to express my special thanks to Dr. Ahmed Rami Mohamed Rami Assistant Prof. of obstetrics and Gynaecology- Faculty of medicine- Ain Shams University for his encouragement and constant advice during this study.

My greatest thanks to Dr. Magdy Abbas Abd El.Aziz fellow of Biochemistry Ain Shams University Hospitals for his efforts in this thesis.

Thanks are also due to the members of Geriatric Department- Faculty of medicine- Ain Shams University for their help during achievement of this work.

Last but not least, greatest thanks and best regards to my colleagues in the Department of Microbiology and Immunology, hoping them the best in their research work

Abeer Abd El- Fattah
