Comparative Analysis of Saphenous Vein Conduit Harvesting Techniques for Coronary Artery Bypass Grafting – Endoscopic Technique versus the Open Technique

Essay

Submitted for Partial Fulfillment of Master Degree in Cardiothoracic Surgery

Presented by

Hail Abdel Hamed Ramadan Hassan Badawy M.B.B.Ch

Under Supervision of

Prof. Dr. Mohamed Mohamed El Feky

Professor of Cardiothoracic Surgery Faculty of Medicine- Ain Shams University

Prof. Dr. Osama Abbas Abd Elhamed

Assistant Professor of Cardiothoracic Surgery Faculty of Medicine- Ain Shams University

Dr. Ihab Abdelrazek Ali

Lecturer of Cardiothoracic Surgery
Faculty of Medicine- Ain Shams University

Faculty of Medicine
Ain Shams University
2016

First and foremost, thanks are due to **ALLAH** the most gracious and merciful, to whom I relate my success in achieving any work in my life.

I am deeply grateful to **Prof. Dr. Mohamed Mohamed El Feky,** Professor of Cardiothoracic Surgery,
Faculty of Medicine, Ain Shams University, for his
guidance, help and precious comments that enlightened
my way through out this work.

I would like to express my sincere gratitude and deepest appreciation to Ass. Prof. Dr. Osama Abbas Abd Elhamed, Professor of Cardiothoracic Surgery, Faculty of Medicine, Ain Shams University, for his patience, kindness, continuous encouragement and guidance throughout the preparation of this work.

I would like also to thank **Dr. Ihab Abdelrazek Ali,** Lecturer of Cardiothoracic Surgery, Faculty of Medicine, Ain Shams University, for suggestions and cooperation to achieve this work.

I wish to express my appreciation to all who shared their thought and comments with me to get this work done.

Finally, I would like to extend my deepest thanks to my family for their supports and providing happiness.

Arabic Summary	

List of Abbreviations

Abbreviations	Full term
ACs	Arterial conduits
APACVS	Association of physician assistants in cardiovascular surgery
ASVs	Accessory saphenousveins
bFGF	Basic Fibroblastic Growth Factor
ВМІ	Body massindex
CABG	Coronary artery bypassesgrafting
CAD	Coronary arterydisease
СРВ	Cardiopulmonarybypass
CT-ESVH	Closed tunnel—endoscopic saphenous vein harvesting
CVD	Conventional vein harvesting technique
ECG	Electrocardiogram
EF	Ejectionfraction
EVH	Endoscopic veinharvesting
FDA	Federal association of food and drugs administration USA
GEA	Gastroepiploic artery
GSV	Great saphenous vein
ICU	Intensive careunit
IMA	Internal mammaryartery
ITA	Internal thoracic artery
LAD	Left anterior descending coronaryartery
LCX/CX	Circumflex artery
LIMA	Left internal mammaryartery
LM	Left main
LSV	Long saphenousvein

Abbreviations	Full term			
MACE	Major adverse cardiac events			
MI	Myocardial infarction			
MIVHt	Minimal invasive vein harvesting technique			
MR	Mitral regurgitation			
OCSVH	Open conventional saphenous vein harvesting			
OT-ESVH	Open tunnel—endoscopic saphenous vein harvesting			
OVH	Open veinharvesting			
PCI	Percutaneous coronary intervention			
PDA	Posterior descending artery			
PTCA	Percutaneous transluminal coronary angioplasty			
PVD	Peripheral vascular disease			
RA	Radial artery			
RAPCO	Radial artery patency and clinical outcomes			
RCA	Right coronary artery			
RGEA	Right gastroepiploic artery			
SBT	Standard bridging technique			
STEMI	ST segment elevation myocardial infarction			
SV	Saphenous vein			
VD	Vessel disease			
VSD	Ventricular septal defect			

List of Figures

Figure	Title	Page
1	LSV used to bypass blockage.	9
2	LSV and its tributaries.	38
3	Microscopic picture of SV	42
4	Leg incision over the vein.	44
5	Position of the LL for LSV harvesting.	45
6	Conventional harvesting technique.	46
7	Identification & Dissection of LSV	47
8	Tributaries ligation	48
9	Control of the avulsed tributaries.	50
10	Blood Loss during LSV Harvesting	55
11	Components of Endoscopic system	56
12	Skin incision in EVH.	58
13	Identification of GSV during EVH	59
14	Dissection of the vein by Endoscope	60
15	The Tunnel during EVH	61
16	Branch Cauterization & Division	62
17	Measuring harvested vein	65
18	Advential constriction.	68
	None healed leg wound.	75
19	Post-operative LSV Harvesting site	87
20	Haematoxylin–eosin staining of the CT-ESVH	100
21	Haematoxylin–eosin staining of the OT-ESVH	101

Figure	Title	Page
22	Haematoxylin–eosin staining of the OCSVH	102
23	Bar chart representing endothelial viability	102
24	Bar chart representing CD31 staining	103
25	CD31 staining of the OT-ESVH	104
26	CD31 staining of the CT-ESVH	104
27	CD31 staining of the OCVH	105

Introduction

Aim of Work
