Effect of 25 Hz Repetitive Transcranial Magnetic Stimulation on Motor Performance and Cortical Excitability on Patients with Parkinson's disease; Neurophysiological and Laboratory study

Thesis

Submitted in partial fulfillment of the requirement
for the Doctorate Degree in Neurology

By

Ahmed Hamdy Youssef

Assistant lecturer of Neurology
Faculty of Medicine, Assiut University

Supervised by

Professor/Eman Mohamad Hussein Khedr

Professor of Neurology
Faculty of Medicine, Assiut University

Professor/ John Rothwell

Professor of Clinical Neurophysiology
Head of Sobell Research Department of Motor Neuroscience and
Movement Disorders, the National Hospital for Neurology and
Neurosurgery, London, UK

Dr. Ola Ahmed Shawky Farghaly

Assistant Professor of Neurology
Faculty of Medicine, Assiut University

ACKNOWLEDGMENTS

Acknowledgements

First of all, all gratitude is due to God the almighty that guided and aided me in bringing this thesis to light which would have never been crowned by success without blessing of **Allah** to whom my faithful loyalty will remain however beyond any compromises

It is of great pleasure to acknowledge my deepest thanks to **Dr. Eman Mohamad Khedr**, Professor of Neurology, Faculty of Medicine, Assiut University, for her keen supervision, kind advice, close observation, her encouragement all the time, constructive suggestions, excellent guidance, giving me unlimited time and eminent supervision which tided me over difficulties I met with throughout this work, which I would never be able to put in black and white or ever requite.

I would like to express my deepest gratitude and sincere thanks to **Dr. John Rothwell**, Professor of Clinical Neurophysiology, Sobell Research Department of Motor Neuroscience and Movement Disorders, the National Hospital for Neurology and Neurosurgery, London, UK , for his valuable instruction, kind support, continuous help and effort for very close supervision throughout this work.

I would like to express my indebtedness towards **Dr. Ola Ahmad Shawky**, Assistant Professor of Neurology, Faculty of Medicine, Assiut University, for her genuine and resourceful guidance through supervising this thesis.

I would like to express my indebtedness towards **Dr. Neveen Abdelmonhem**, Professor of Clinical Pathology, Faculty of Medicine, Assiut University, **Dr. Maged Salaah Mahmoud**, Assistant Professor of Clinical Pathology, Faculty of Medicine, Assiut University, for their extraordinary effort to perform the laboratory part of this work

I would like to express my indebtedness towards **Dr. Nageh F. Kamel** lecturer of Neurology, Faculty of Medicine, Assiut University, for his continuous help in the clinical part and follow up of the patients and **Dr. Mohamad Abdel-Rahman**, lecturer of Neurology, Faculty of Medicine, Assiut University, for his great efforts in assessment of cortical excitability of the patients.

Many thank, to all staff members in Neurology and Psychiatry Department, Faculty of Medicine, Assiut University for their kind advice sincere encouragement and constrictive criticism in supervising every part of this work.

Many thanks to my colleagues in Neurology and Psychiatry Department, for their expert advice and kind help.

Many thanks for my patients and their relatives for their helpful information and adequate cooperation during the study.

Finally, I would like to extend my great appreciation to my family for their continuous help and encouragement during performing this work.
