ACKNOWLEDGEMENT

Firstly I would like to express my sincere thanking to my advisor Prof. siham Mahmoud Mohamed Salem, Professor of Solid State Physics, Electron Microscope and Thin Films Department, Physics Division, National Research Centre (NRC) for the continuous support of my Ph.D study and related research, for the patience, motivation and immense knowledge, My deepest appreciation to Prof. Dr Hamdia Abd- Elhamid Ibrahim Zayed Prof. of Solid State Physics, Physics Department, University Collage of Women for Arts, Science and Education, Ain Shams University for her extraordinary support in this thesis. Also I would like to express my special thanks to prof. Abdelrahman Mohamed salem Professor of Solid State Physics, Electron Microscope and Thin Films Department, Physics Division, National Research Centre (NRC) for his guidance which helped me in all the time of research and writing of thesis. I would also like to thank professor Gamal Bakr saker professor of Solid State physics Faculty of Education Ain Shams University for his support.

Last but not the least; I would like to thank my family, my parents, my husband and my brother and sisters for supporting me spiritually throughout writing this thesis and in my life in general.
