# *Brain Death Detection Supported by New Techniques*

*Thesis submitted for partial fulfillment of the  
M.D. Degree in Neurology*

Presented by

**Salma Hamed Khalil**

*M.B., B.Ph., Ain Shams University &  
M.Sc. (Neuropsychiatry, Ain Shams University)*

Under the supervision of

**Prof. Dr. Mohamed Anwar El-Etribi**

*Professor of Neuropsychiatry, Chairman of Neurology and  
Neurocritical Unit, and President of Egyptian Society of  
Neurology, Psychiatry and Neurosurgery  
Faculty of Medicine - Ain Shams University*

**Prof. Dr. Amira Ahmed Zaki Dewidar**

*Professor of Neuropsychiatry  
Faculty of Medicine - Ains Shams University*

**Prof. Dr. Mohamed Yaser Metwaly**

*Assistant Professor of Neuropsychiatry  
Faculty of Medicine - Ain Shams University*

**Prof. Dr. Mahmoud Haroun Ibrahim**

*Assistant Professor of Neuropsychiatry  
Faculty of Medicine-Ain Shams University*

FACULTY OF MEDICINE-AIN SHAMS UNIVERSITY

## *Acknowledgment*

*I am more grateful than words can express to Prof. Dr. Mohamed Anwar El-Etribi, Chairman of Department of Neurology and Neurocritical Care, Ain Shams University, and President of Egyptian Society of Neurology, Psychiatry and Neurosurgery for his meticulous supervision, remarkable encouraging insightful opinion and scientific support.*

*I would like to express deepest appreciation to Dr., Amira Ahmed Zaki, Professor of Neuropsychiatry, Ain Shams University, for her help in choosing the subject, everlasting scientific support and her influential guide throughout the work.*

*I express my gratitude to Dr., Yasser Metwali, Assistant Professor of Neuropsychiatry, Ain Shams University for his kind help and support.*

*My sincere thanks to Dr. Mahmoud Haroun, Assistant Professor of Neuropsychiatry, Ain Shams University, for his enthusiastic support and helpful suggestion.*

*I would also like to thank Dr. Azza Abdel-Nasser, Lecturer of Neuropsychiatry, Ain Shams University, for her valuable and meticulous help and support in transcranial doppler monitoring.*

*My thanks also go to the nursing staff and workers in the Neurocritical Care Unit who helped me a lot.*

*To my family I owe much for their sympathy and compassionate help.*

*Salma Khalil*

*2001*

## *List of Figures*

	<i>Page No.</i>
<i>Figure (1): Normal SSEP recording.</i>	55
<i>Figure (2): Normal BAEP recording.</i>	59
<i>Figure (3): TCD MFV in MCA during progressive intracranial hypertension.</i>	68
<i>Figure (4): Somasensor</i>	72
<i>Figure (5): Brain stem reflex testing.</i>	87
<i>Figure (6A, B and C): TCD recordings in various situations.</i>	98
<i>Figure (7): Near infra-red spectroscopy.</i>	110
<i>Figure (8): BAEP monitoring.</i>	110
<i>Figure (9): TCD monitoring.</i>	111
<i>Figure (10): Cerebral oxygenation monitoring.</i>	111
<i>Figure (11): Groups of patients involved in the study.</i>	114
<i>Figure (12): Prognosis of coma outcome in the various groups involved in the study.</i>	114
<i>Figure (13): Relation of GCS to prognosis during the 1<sup>st</sup> and 2<sup>nd</sup> weeks of follow up.</i>	114
<i>Figure (14): Case 1, EEG, 1<sup>st</sup> week.</i>	151
<i>Figure (15): Case 1, SSEP, 1<sup>st</sup> week.</i>	151
