

# **Implementing and Validating Transcutaneous Bilirubinometry for Neonates**

*Thesis*

Submitted for partial fulfillment of the  
Master Degree in Pediatrics

By

***Hany Salah El-Din Ali Salim***

*M.B.B.CH, 2006*

*FACULTY OF MEDICINE – AIN SHAMS UNIVERSITY*

*Under supervision of*

***Prof. Dr. Zenab Anwar El-Kabany***

PROFESSOR OF PEDIATRICS

FACULTY OF MEDICINE

AIN SHAMS UNIVERSITY

***Dr. Ahmed Mohamed Shedid***

LECTURER OF PEDIATRICS

FACULTY OF MEDICINE

# تطبيق و تحقق من فاعلية جهاز قياس نسبة البيليروبين عبر الجلد فى الأطفال حديثي الولادة

رسالة مقدمة من

الطبيب/ هانى صلاح الدين على سالم

بكالوريوس الطب والجراحة

كلية الطب – جامعة عين شمس

توطئة للحصول على درجة الماجستير فى طب الأطفال

تحت إشراف

أ.د/ زينب أنور القباني

أستاذ طب الأطفال

كلية الطب

جامعة عين شمس

د/ أحمد محمد شديد

مدرس طب الأطفال

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا  
عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَظِيمُ

سورة البقرة الآية ٢٢

ACKNOWLEDGEMENT

*First and foremost, thanks to "Allah" for granting me the power to accomplish this work.*

*I am extremely grateful to **Prof. Dr. Zenab Anwar El-Kabany**, Professor of Pediatrics, Ain Shams University for her keen guidance, kind supervision, valuable advice and continuous encouragement through my work.*

*Also I would like to express my thanks and great appreciation to **Dr. Ahmed Mohamed Shedin**, lecturer of Pediatrics, Ain Shams University, for his valuable efforts, close observation and follow up of this work.*

*Last but not least, I would like to thank my family, my great mother, father and each member had a hand in the production of this modest piece of work.*

*Hany Salah El-Din*

# *List of Figures*

<b>Figure No.</b>	<b>Subject</b>	<b>Page</b>
1	Structure of bilirubin.....	3
2	Enterohepatic circulation of bilirubin.....	6
3	Bhutani et al 2002 percentile charts for serum bilirubin at different postnatal ages for direct Coomb's negative healthy term and near-term newborn infants.....	13
4	Kramer's Rule.....	17
5	Algorithm for the management of jaundice in the newborn nursery.....	21
6	Guidelines for phototherapy in hospitalized infants of 35 or more weeks' gestation.....	25
7	Guidelines for exchange transfusion in infants 35 or more weeks' gestation.....	26
8	Phototherapy guidelines in neonates.....	37
9	Exchange transfusion in neonates.....	41
10	Exchange transfusion guidelines in neonates.....	44

11	Nomograms of transcutaneous bilirubin from healthy newborns.....	53
12	Measurement of transcutaneous bilirubin via forehead and sternum.....	54
13	Some instruments used for measurement of transcutaneous bilirubin (bilirubinometers).....	55
14	Measurement principle of Konica Minolta/Air Shields JM 103, Jaundice Meter (JM103).....	57
15	Measurement principle of BiliChek.....	58
16	Konica Minolta/Air Shields JM 103, Jaundice Meter (JM103).....	65
17	a Correlation and regression equation between TSB and TCBf in group of IHB.....	73
	b Correlation and regression equation between TSB and TCBf in group of DHB.....	73
18	a Correlation and regression equation between TSB and TCBs in group of IHB.....	74
	b Correlation and regression equation between TSB and TCBs in group of DHB.....	74
19	a Bland-Altman plot of differences between TSB and	

	TCBf in group of IHB.....	75
	b Bland-Altman plot of differences between TSB and TCBf in group of DHB.....	75
20	a Correlation and regression equation between TSB and TCBf in group of white skin color.....	78
	b Correlation and regression equation between TSB and TCBf in group of brown skin color.....	78
21	a Correlation and regression equation between TSB and TCBs in group of white skin color.....	79
	b Correlation and regression equation between TSB and TCBs in group of brown skin color.....	79
22	a Bland-Altman plot of differences between TSB and TCBf in group of white skin color.....	80
	b Bland-Altman plot of differences between TSB and TCBf in group of brown skin color.....	80
23	a Bland-Altman plot of differences between TSB and TCBs in group of white skin color.....	81
	b Bland-Altman plot of differences between TSB and TCBs in group of brown skin color.....	81
24	a Correlation and regression equation between TSB and	

	TCBf in group of preterm cases.....	84
	b Correlation and regression equation between TSB and TCBf in group of Full-term cases.....	84
25	a Correlation and regression equation between TSB and TCBs in group of preterm cases.....	85
	b Correlation and regression equation between TSB and TCBs in group of full-term cases.....	85
26	a Bland-Altman plot of differences between TSB and TCBf in group of preterm cases.....	86
	b Bland-Altman plot of differences between TSB and TCBf in group of full-term cases.....	86
27	a Bland-Altman interactive graphs of the mean difference between TSB and TCBs in group of preterm cases.....	87
	b Bland-Altman plot of differences between TSB and TCBs in group of full-term cases.....	87
28	a Correlation and regression equation between TSB and TCBf in cases of bodyweight $\leq 2$ Kg.....	90
	b Correlation and regression equation between TSB and TCBf in cases of bodyweight $>2$ Kg.....	90

29	a	Correlation and regression equation between TSB and TCBs in cases of bodyweight $\leq 2$ Kg.....	91
	b	Correlation and regression equation between TSB and TCBs in cases of bodyweight $>2$ Kg.....	91
30	a	Bland-Altman plot of differences between TSB and TCBf in cases of bodyweight $\leq 2$ Kg.....	92
	b	Bland-Altman plot of differences between TSB and TCBf in cases of bodyweight $>2$ Kg.....	92
31	a	Bland-Altman plot of differences between TSB and TCBs in cases of bodyweight $\leq 2$ Kg.....	93
	b	Bland-Altman plot of differences between TSB and TCBs in cases of bodyweight $>2$ Kg.....	93
32	a	Correlation and regression equation between TSB and TCBf in cases with bilirubin measured at age of $\leq 3$ days.....	96
	b	Correlation and regression equation between TSB and TCBf in cases with bilirubin measured at age of 3 to 7 days.....	96
	c	Correlation and regression equation between TSB and TCBf in cases with bilirubin measured at age of $> 7$ days.....	97

33	a	Correlation and regression equation between TSB and TCBs in cases with bilirubin measured at age of 3 days.....	98
	b	Correlation and regression equation between TSB and TCBs in cases with bilirubin measured at age of 3 to 7 days.....	98
	c	Correlation and regression equation between TSB and TCBs in cases with bilirubin measured at age of > 7 days.....	99
34	a	Bland-Altman plot of differences between TSB and TCBf in cases with bilirubin measured at age of 3 days.....	100
	b	Bland-Altman plot of differences between TSB and TCBf in cases with bilirubin measured at age of 3 to 7 days.....	100
	c	Bland-Altman plot of differences between TSB and TCBf in cases with bilirubin measured at age of > 7 days.....	101
35	a	Bland-Altman plot of differences between TSB and TCBs in cases with bilirubin measured at age of 3 days.....	102
	b	Bland-Altman plot of differences between TSB and TCBs in cases with bilirubin measured at age of 3 to 7	

	days.....	102
c	Bland-Altman plot of differences between TSB and TCBs in cases with bilirubin measured at age of > 7 days.....	103
36	The % of mean difference between TSB and TCB (Forehead Vs. Sternum).....	107
37	The mean of % of differences between TSB and TCB using both sites of measurement (forehead and sternum).....	108

# *List of Tables*

<b>Table No.</b>	<b>Subject</b>	<b>Page</b>
1	Etiology and causes of hyperbilirubinemia.....	9
2	Criteria to Estimate Clinical Jaundice.....	12
3	Kramer's Rule.....	17
4	Management of Hyperbilirubinemia in the Healthy Term Newborn.....	22
5	Indications of phototherapy in the term infant with hemolytic disease of the newborn.....	25
6	Guidelines for exchange transfusion in neonates with hemolytic disease.....	26
7	Management of Neonatal Hyperbilirubinemia in Low Birth Weight Babies Based on Bilirubin Level.....	29
8	Phototherapy delivery.....	34
9	Comparison between group of IHB and group of DHB as regards sex, skin color, prematurity, mode of delivery and maternal illnesses; DM), HTN and (UTI).....	73
10	Comparison between group of IHB and group of DHB as regards % of mean difference between TSB and TCB	

	(forehead and sternum).....	76
11	Comparison between studied cases with white skin color and brown skin color as regards sex, prematurity, bodyweight, postnatal age, mode of delivery and maternal illness (DM, HTN and UTI).....	77
12	Comparison between cases of white skin color and brown skin color as regards percentage of difference between TSB and TCB (forehead and sternum).....	82
13	Comparison between full-term and preterm cases as regards sex, body weight, postnatal age, mode of delivery and maternal illnesses (DM, HTN and UTI).....	83
14	Comparison between preterm and full-term cases as regards the percentage of difference between TSB and TCB (forehead and sternum).....	88
15	Comparison between the two groups of studied bodyweight ( $\leq 2$ Kg and $> 2$ Kg) as regards sex, postnatal age, mode of delivery and maternal illnesses (DM, HTN and UTI).....	89
16	Comparison between the two groups of bodyweight ( $\leq 2$ Kg and $> 2$ Kg) as regards percentage of difference between TSB and TCB (forehead and sternum).....	94
17	between the three groups of postnatal ages ( $\leq 3$ days, 3 to 7 days and $> 7$ days) as regards sex, mode of delivery and maternal illnesses (DM, HTN and UTI).....	95

18	Comparison between the three groups of postnatal ages ( 3 days, 3 to 7 days, and > 7 days) as regards percentage of difference between TSB and TCB (forehead and sternum).....	104
19	Comparison between % of mean difference between TSB and TCB (forehead) & % of mean difference between TSB and TCB (sternum) after its classification into categories (less than 10%, 10-20% and more than 20%).....	105
20	Comparison between % of mean difference between TSB and TCB (forehead) & % of mean difference between TSB and TCB (sternum) using paired t-test.....	106
