PSYCHOPHYSICAL MEASURES IN PATIENTS WITH AUDITORY NEUROPATHY

Thesis

Submitted in Partial Fulfillment of
The Master Degree in
Audiology

By

El-Shahat Ibrahim Ismail
M. B., B. Ch.

Supervised By

Prof. Dr. Salah M. Soliman
*Professor of Audiology
E.N.T. Department
Ain Shams University*

Dr. Nagwa M. Hazzaa
*Assistant Prof. of Audiology
E.N.T. Department
Ain Shams University*

Dr. Amani Ahmed Shalaby
*Assistant Prof. of Audiology
E.N.T. Department
Ain Shams University*

**Faculty of Medicine
Ain shams University
(2001)**

Acknowledgement

This a word of appreciation and gratitude to the veterans of audiology in Egypt. They have paved the way for the novices and early newcomers to follow their steps in this fledgling branch of science.

I have the greatest pleasure to express my gratitude to **Prof. Dr. Salah Soliman**, Professor of Audiology, Ain Shams University for his helpful and kind supervision. His fruitful criticism and guidance were the reason for enriching this work.

I truly can't find the suitable word that express my deep gratitude and great thanks to **Dr. Nagwa Hazzaa**, Assistant Professor of Audiology, Ain Shams University, who, in addition to her whole hearted assistance and supervision, has provided me with a great deal of support, encouragement, and knowledge. Her vast experience truly enriched this work.

I would like to express my deep gratitude and appreciation to **Dr. Amani Shalaby**, Assistant Professor of Audiology, Ain Shams University, for her careful supervision and meticulous revision. This work truly carries her fingerprints.

Finally, I am deeply grateful to the constructive support and valuable encouragement of my professors and colleagues at both Ain Shams and Mansoura Universities, Audiology Units, they have lent me a helpful hand to fulfill my aim, complete my thesis and finish this research.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text outlines various methods for organizing and storing records, including digital databases and physical filing systems. It also mentions the need for regular audits and reviews to ensure the integrity of the data.

2. The second part of the document focuses on the role of communication in achieving organizational goals. It highlights the importance of clear and concise communication, both internally and externally. The text provides guidelines for effective communication, such as using appropriate language, listening actively, and providing feedback. It also discusses the benefits of open communication, including improved collaboration and decision-making.

3. The third part of the document addresses the issue of risk management. It defines risk as the potential for loss or damage and explains how to identify, assess, and mitigate risks. The text provides a framework for risk management, including the identification of risks, the assessment of their likelihood and impact, and the implementation of control measures. It also discusses the importance of monitoring and reviewing risks over time.

4. The fourth part of the document discusses the importance of training and development. It emphasizes that ongoing training and development are essential for maintaining a skilled and motivated workforce. The text outlines various training methods, including classroom instruction, on-the-job training, and self-directed learning. It also discusses the importance of setting learning objectives and evaluating the effectiveness of training programs.

5. The fifth part of the document discusses the importance of innovation and creativity. It emphasizes that innovation and creativity are essential for staying competitive in a rapidly changing market. The text provides guidelines for fostering innovation and creativity, such as encouraging open-mindedness, providing resources, and creating a supportive environment. It also discusses the importance of protecting intellectual property and managing innovation projects.

6. The sixth part of the document discusses the importance of sustainability. It defines sustainability as the ability to meet the needs of the present without compromising the ability of future generations to meet their own needs. The text outlines various strategies for achieving sustainability, including reducing environmental impact, promoting social responsibility, and ensuring economic viability. It also discusses the importance of measuring and reporting on sustainability performance.

7. The seventh part of the document discusses the importance of ethics and integrity. It emphasizes that ethics and integrity are essential for building trust and maintaining a positive reputation. The text provides guidelines for ethical behavior, such as being honest, fair, and respectful. It also discusses the importance of establishing a code of ethics and providing training on ethical issues.

8. The eighth part of the document discusses the importance of leadership. It emphasizes that effective leadership is essential for inspiring and motivating a team to achieve its goals. The text outlines various leadership styles, including transformational, transactional, and servant leadership. It also discusses the importance of setting a vision, communicating effectively, and providing support and feedback.

9. The ninth part of the document discusses the importance of project management. It emphasizes that project management is essential for ensuring that projects are completed on time, within budget, and to the satisfaction of stakeholders. The text outlines various project management processes, including planning, execution, monitoring, and closure. It also discusses the importance of using project management tools and techniques.

10. The tenth part of the document discusses the importance of continuous improvement. It emphasizes that continuous improvement is essential for staying competitive and achieving long-term success. The text outlines various methods for achieving continuous improvement, such as the PDCA cycle, Six Sigma, and Lean. It also discusses the importance of measuring and reporting on improvement efforts.

CONTENTS

	Page
Introduction and Rationale	1
Aim of the Work	4
Review of Literature	
<i>Psychophysics of the Auditory Pathway</i>	5
A) Physiological Correlates	5
1) Frequency coding	5
2) Intensity coding	11
3) Temporal resolution	15
B) Psychophysical measurements	18
a) Difference limen	20
b) Masking level difference	27
c) Auditory fusion tests	31
Clinical Application of psychophysical tests	34
<i>Auditory Neuropathy</i>	37
Clinical presentation	37
Possible site of lesion	39
Pathophysiology	41
Audiological finding	44
Non-audiological finding	49
Differential diagnosis	50
Material and Methods	53

LIST OF TABLES

No.	Title	Page
1	Age and gender distribution in the control and study group	62
2	Distribution of patients according to the history and basic audiometric data in the study group	63
3	Mean (x) standard deviation (\pm SD) and range of the hearing threshold levels (HTL) and speech discrimination scores (DS%) in right and left ears of the control group.	64
4	Mean (X) standard deviation (\pm SD) and range of hearing threshold level (HTL) and speech discrimination scores (DS%) in right and left ears of the study group.	64
5	Mean (X), standard deviation (SD) and range of the difference limen for frequency in the control group.	67
6	Mean (X), standard deviation (SD) and range of the difference limen for frequency in the study group	67

No.	Title	Page
7	Mean (X), standard deviation (SD) and range of the difference limen for intensity in the control group.	69
8	Mean (X), and standard deviation (SD) and range of the difference limen for intensity in the study group.	69
9	Mean (X), standard deviation (SD) and range of the masking level difference in the control group	71
10	Mean (X), standard deviation (SD) and range of the masking level difference of the study group	71
11	Mean(X),standard deviation(SD) and range of the auditory fusion test in the control group.	73
12	Mean (X), standard deviation (SD) and range of the auditory fusion test in the study group	73
13	Mean, standard deviation, and "t" test results for difference limen for frequency(DLF) in control and study groups.	75
14	Mean, standard deviation, and "t" test results for difference limen for intensity DLI in the control and study groups.	75

No.	Title	Page
15	Mean, standard deviation and "t" test results for masking level difference (MLD) in the control and study groups.	76
16	Mean, standard deviation "t" test results for auditory fusion test (AFT) in the control and study groups.	76
17	ANOVA test results showing the effect of variables on Difference Limen for Frequency in the study group.	78
18	ANOVA test results showing the effect of variables on Difference Limen for Intensity in the study group.	79
19	ANOVA test results showing the effect variables on Masking Level Difference in the study group.	80
20	ANOVA test results showing the effect of variables on Auditory Fusion Threshold in the study group.	81
