

Open Mesh Versus Laparoscopic Mesh Repair of Inguinal Hernia

Thesis

***Submitted for Partial Fulfillment
of M.D. degree in General Surgery***

By

OSAMA MOHAMED MOHAMED ELKOMY

M.B. B.Ch. M Sc of G.S.

Ain Shams University

Under Supervision of

Prof. Dr. ALI BAHGAT LASHEEN

Prof. of General Surgery

Faculty of Medicine - Ain Shams University

Prof. Dr. ASHRAF FAROUK

◉ABADEER

Prof. of General Surgery

Faculty of Medicine - Ain Shams University

Dr. KHALID HUSSEIN GAD

Lecturer of General Surgery

Faculty of Medicine

Ain Shams University

*For my mother, whose love and
Encouragement made the beginning
Possible, and
For my sisters, wife and daughter
Whose Support and affection make
everything else possible*

Osama El-Komy

Acknowledgement

I would like to express my deepest gratitude and sincere thanks to Prof. Dr. Ali Bahgat Lasheen for kindly accepting to supervise this work and for the valuable advice and encouragement he honestly offered throughout the course of this work.

Also, I would like to express my utmost gratitude and special grateful thanks and appreciation to Dr. Ashraf Farouk Abadeer, Dr. Khalid Hussein whose sincere continuous help, true advice, invaluable guidance, kind supervision and constant purposeful encouragement provided me all facilities during the conduction of this work.

Osama El-Komy

CONTENTS

I.	Introduction & Aim of Work	١
II.	Review of Literature:	
	• Anatomy of groin hernias	٥
	• Classification of inguinal hernias	٢٠
	• Diagnosis of inguinal hernias & preoperative assessment	٢٤
	• Open mesh repair of inguinal hernias	٥٢
	• Laparoscopic repair of inguinal hernias	٨٤
	• Percutaneous endoscopic external ring repair	١٣٢
III.	Patients & Methods	١٣٣
IV.	Results	١٤٣
V.	Discussion	١٥٧
VI.	Summary & Conclusion	١٦٤
VII.	References	١٦٩
VIII.	Arabic Summary	

LIST OF TABLES

- **TABLE 1:** Nyhus Classification of Groin Hernias.....٢٠
- **TABLE ٢:** Unified classification.....٢٢
- **TABLE ٣:** Inguinal hernia repair procedures.....٥٣
- **TABLE ٤:** causes of recurrence after laparoscopic inguinal hernia repair.....١١٨
- **TABLE ٥:** Types of inguinal hernia encountered in the study.....١٤
٤
- **TABLE ٦:** Duration of hospital stay in both techniques.....١٥٣

LIST OF FIGURES

- **Figure 1:** Anatomy of the inguinal region 5
- **Figure 2:** Hesselbach's triangle 6
- **Figure 3:** Route of an indirect hernia 7
- **Figure 4:** Route of a direct hernia 7
- **Figure 5:** Route of a femoral hernia..... 8
- **Figure 6:** Global anatomy of the pelvis and inguinal trigone..... 9
- **Figure 7:** laparoscopic anatomy of the inguinal region with peritoneal covering..... 11
- **Figure 8:** laparoscopic anatomy of the inguinal region without peritoneal covering..... 12
- **Figure 9:** actual view-TAPP repair RT side with triangle of doom demonstrated..... 17
- **Figure 10:** actual view-TAPP repair Lt sided indirect inguinal hernia..... 18
- **Figure 11:** actual view-TAPP repair Lt sided direct inguinal hernia..... 19
- **Figure 12:** actual view-TEP repair Lt side direct inguinal hernia..... 19
- **Figure 13:** sliding inguinal hernia..... 38
- **Figure 14:** Maydl's hernia strangulation..... 44
- **Figure 15:** Anti-mesenteric border only of the small intestine is incarcerated in the deep inguinal ring, therefore

intestinal obstruction may be absent, but gangrene of the bowel wall may occur..... ٤٥

- **Figure ١٦:** Gross specimen of Meckel's Diverticulum..... ٤٦
- **Figure ١٧:** external oblique aponeurosis exposed in a Lt inguinal hernia repair ٥٩
- **Figure ١٨:** dividing the external oblique aponeurosis in a Lt inguinal hernia repair ٥٩
- **Figure ١٩:** dissection of the sac in a Lt inguinal hernia repair for clarity the fascial coverings of cord structures are not shown in this diagram ٦٠
- **Figure ٢٠:** applying the mesh in a Lt inguinal hernia repair with overlapping the lateral tails of the mesh to surround the cord ٦١
- **Figure ٢١:** mesh completely fixed in a Rt inguinal hernia repair ٦٢

- **Figure ٤٥:** creating the pneumo-preperitoneum ١٢٢
- **Figure ٤٦:** central, Lt. and Rt. Lateral views in TEP repair..... ١٢٣
- **Figure ٤٧:** inguinal hernia identified during laparoscopy without peritoneal sac ١٣٠
- **Figure ٤٨:** repair of the defect identified through TAPP approach ١٣٠
- **Figure ٤٩:** position of the patient, surgeon, assistant and nurse in the TAPP technique ١٣٥
- **Figure ٥٠:** site of ports in case of TAPP repair for Lt. inguinal hernia ١٣٧
- **Figure ٥١:** upper and lower flaps created, cooper's ligament and triangle of Doom identified with the sac completely dissected in TAPP repair ١٣٨
- **Figure ٥٢:** mesh in place and fixed using Protack in TAPP repair ١٣٩
- **Figure ٥٣:** mesh fixed in place continuously with its two tails overlapping and fixed lateral to the internal ring in Lichtenstein repair ١٤٠

List of Charts

- **Chart 1:** Types of hernia according to No. of cases encountered in both types of repair in the study ١٤٥
- **Chart ٢:** No. of complicated cases (in the form of irreducibility) encountered during the study ١٤٦
- **Chart ٣:** No. of cases who had history of previous intra-abdominal operation and subjected to TAPP repair in relation to those who did not have any ١٤٧
- **Chart ٤:** Operative time ranges in Lichtenstein and TAPP repair ١٤٧
- **Chart ٥:** Rate of intra-operative complications in both procedures ١٤٩
- **Chart ٦:** Persistent neuralgia encountered in both techniques..... ١٥٠
- **Chart ٧:** Post-operative complications in both techniques..... ١٥٢
- **Chart ٨:** Percentage of discharged cases as recorded in both techniques..... ١٥٣

- **Chart 4:** No. of cases discharged in both techniques..... 104
- **Chart 5:** No. of cases and percentage of recurrence in both techniques..... 105
- **Chart 6:** Percentage of return to full activity in both techniques..... 106
