* *To my parents
who offered me their lives*

* *To my Wife and Daughter
who gave a meaning to my life*

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

Praise be to ALLAH, lord of the worlds, by whose grace this work has been completed.

I wish to express my deepest gratitude to *Prof. Dr. Abdel-Khalek Hafez Ibrahim*, Vice Dean of the Faculty of Medicine, Professor of Orthopedic Surgery and Traumatology, Faculty of Medicine, Assiut University, for his supervision, suggesting the topic of this thesis, his interest in the work, valuable discussions, persistent help and deep sighted instructions. I am honoured to have his name presented on my thesis.

It is a pleasure for me to express my deepest gratitude to *Prof. Dr. Maged Mohamed Mostafa*, Professor of Orthopedic Surgery and Traumatology, Faculty of Medicine, Assiut University, for his kind help and valuable guidance. He taught me how to be patient and how to perfect my work.

I wish to express my great sense of gratitude to *Dr. Al-Moataz Abdel-Razik Al-Sabrout*, Assistant Professor of Orthopedic Surgery and Traumatology, Faculty of Medicine, Assiut University, for being so understanding and supportive throughout the period of my work. He taught me how to be self confident and how to manage obstacles.

I am greatly indebted to *Prof. Dr. Galal El-Din Zaki Said*, the founder of the Orthopedic Department in Assiut University. His way of thinking, working and behaving was the biggest motive for me to be an orthopedic surgeon. His endless support encouragement, fraternal advice and protection were always there for me and for my fellow residents as they have always been for the previous generations. This man has merited

the orthopedic department a great deal of its honour and glory. All the love and respect to the great surgeon, teacher and father.

I would like to express my sincere gratitude to *Prof. Dr. Karamallah Ramadan Ahmad*, Professor and Head of Orthopedic Surgery and Traumatology, Faculty of Medicine, Assiut University. He exerted a lot of effort and time to make conditions favourable for me and for every one to have his work well done. His vast experience in administration made every thing easier. He offered me a big deal of support throughout my work.

Special gratitude goes to *Prof. Dr. Essam El-Sherif*, Professor of Orthopedic Surgery and Traumatology, and *Prof. Dr. Maher Abdel-Salam El-Assal*, Professor of Orthopedic Surgery and Traumatology, Faculty of Medicine, Assiut University. Both taught me how to shoulder responsibilities. Their honesty in doing their job, the remarkable way they guide their units, their care for every detail and their noble manners have inspired me a lot and showed me a live model of how a surgeon should be.

I would also like to express my deep gratitude to *Prof. Dr. Kamal El-Gaafarie* and *Prof. Dr. Mohamed Anwar*, Professors of Orthopedic Surgery and Traumatology, Faculty of Medicine, Assiut University for their valuable advice and the previous time they spared to teach me and give me their experience.

Many thanks to *Dr. Hossam M. Ali*, *Dr. Mohamed Gamal Hassan*, *Dr. Tarek El-Gammal*, *Dr. Faisal Fahmi*, *Dr. Ahmad Abdel-Aal*, *Dr. Hesham El-Kadi* and *Dr. Osama Farouk*, for their help and support.
