

Comparative and molecular studies on capsular formation of *Klebsiella pneumoniae* from Egyptian and Libyan isolates.

Protocol submitted for the Degree of Ph.D. in science
(Microbiology)

By

Aisha Mohamed Abd Al-Salam Shahlol

M.Sc. Microbiology

Faculty of Engineering & Technology-Sabha University

Supervisors

Prof. Hala Mohamed Abu Shady

Professor of Microbiology

Faculty of Science - Ain Shams University

Prof. Ahmed Ali Mohamed Aljanga

Professor of Molecular biology & Genetics Engineering

Faculty of Science - Sabha University

Dr. Madeha Othman Ibrahim Ghobashy

Lecturer of Microbiology

Faculty of Science - Ain Shams University

Dr. Samar Saad Rashad

Lecturer of Clinical Phathology

Faculty of Medicine - Ain Shams University

Department of Microbiology

Faculty of Science

Ain Shams University

2013

APPROVAL SHEET

Title of thesis: Comparative and molecular studies on capsular formation of *klebsiella pneumoniae* from Egyptian and Libyan isolates.

Degree: Ph.D. in Microbiology

Name of student Aisha Mohamed Abd Al-salam Shahlol

This thesis submitted for Ph.D. Degree has been approved by:

Supervisors

Prof. Hala Mohamed Abu Shady.....

Professor of Microbiology Faculty of Science-Ain Shams University.

Prof. Ahmed Ali Mohamed Aljanga.....

Professor of Molecular biology & Genetics Engineering Faculty of Science-Sabha University.

Dr. Madeha Othman Ibrahim Ghobashy.....

Lecturer of Microbiology Faculty of Science-Ain Shams University.

Dr. Samar Saad Rashad.....

Lecturer of Clinical Phathology Faculty of Medicine-Ain Shams University.

كما أتقدم بشكري للجهات والمستشفيات التي تعاونت معي للظهور بهذا
البحث وهي:

- مستشفى عين شمس التخصصي
 - مستشفى الدمرداش
 - مستشفى مركز سبها الطبي
 - المركز القومي للبحوث
 - هيئة المصل واللقاح
 - وحدة أبحاث البحرية الامريكية (النمرو)
- كما أتقدم بخالص شكري لكل الأساتذة والزملاء الذين ساعدوني خلال
هذه الدراسة

عا ئشة

AKNOWLEDGEMENT

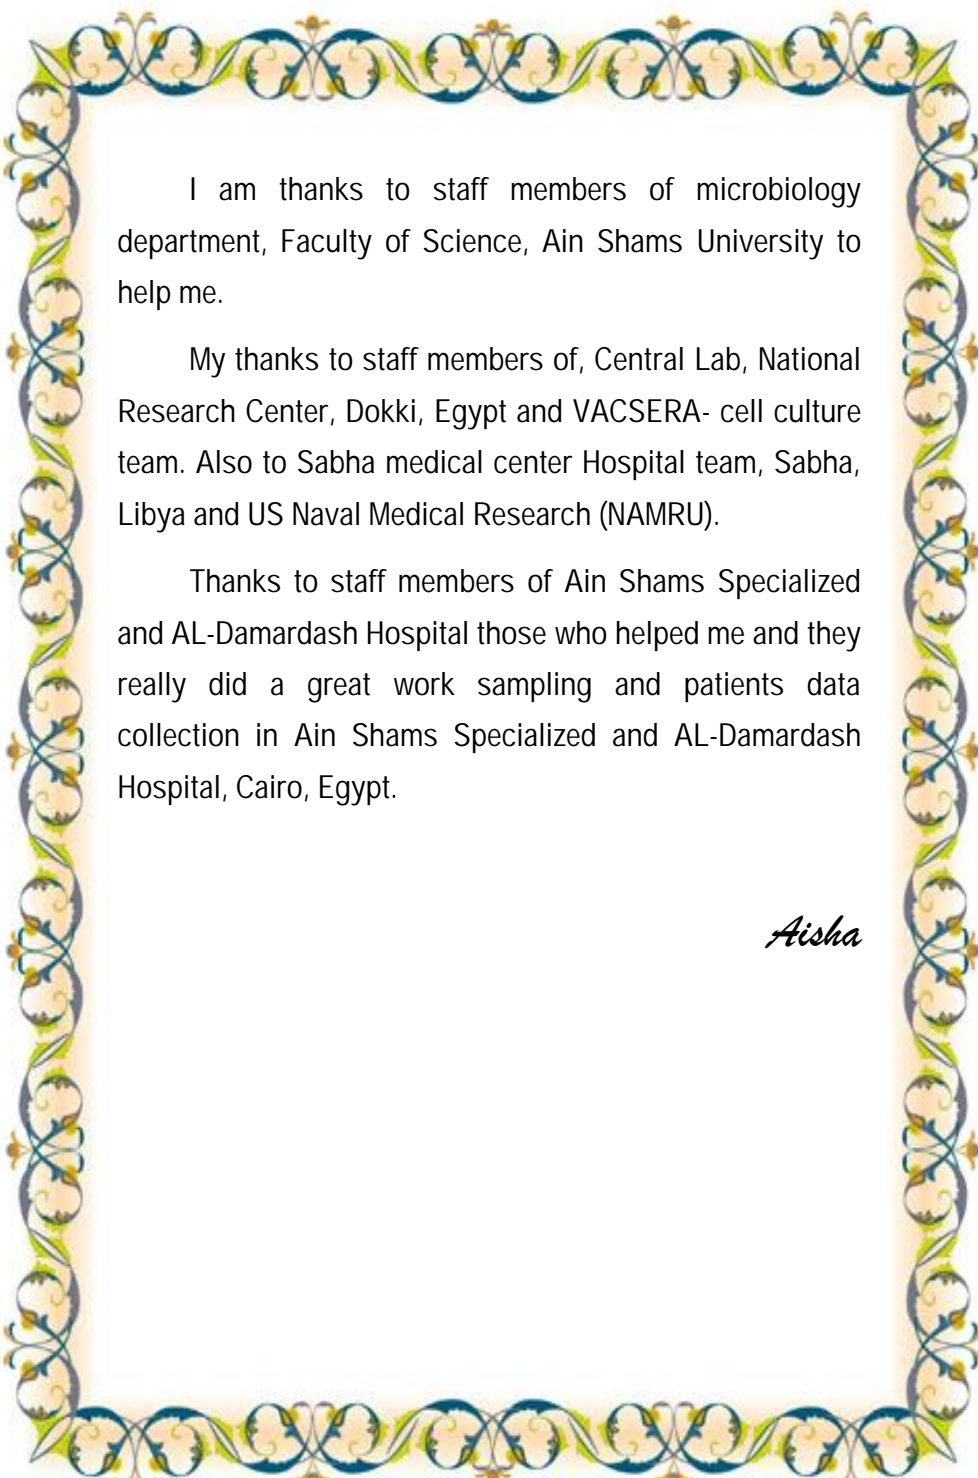

I am deeply thankful to **ALLAH** by the grace of his almighty this work was possible.

I am deeply thankful to **big my mother Libya** by growth of her resources and earth.

I am deeply thankful to **my parent** and **my brother Osama**.

I wish to express my sincere gratitude to the **Prof. Hala Mohammed Abu Shady**, Professor of microbiology department Faculty of Science for her honest supervision during this study. She supported me, encouraged me so much during all my study time.

My profound thanks are offered to **Dr. Madeha Gobashy**, Lecturer of Microbiology department, Faculty of Science and **Dr. Samar Saade** Lecture of clinical pathology, Faculty of Medicine, Ain Shams University also to **Prof. Ahmed Aljanga** professor of molecular biology and Genetics Engineering, Faculty of Science, Sabha University for them effective help and consistent supervision during the my study.

I am thanks to staff members of microbiology department, Faculty of Science, Ain Shams University to help me.

My thanks to staff members of, Central Lab, National Research Center, Dokki, Egypt and VACSERA- cell culture team. Also to Sabha medical center Hospital team, Sabha, Libya and US Naval Medical Research (NAMRU).

Thanks to staff members of Ain Shams Specialized and AL-Damardash Hospital those who helped me and they really did a great work sampling and patients data collection in Ain Shams Specialized and AL-Damardash Hospital, Cairo, Egypt.

Aisha

DEDICATION

TO

MY PARENTS, SISTERS AND BROTHERS

MY GRANDFATHER AND GRANDMOTHER

I am confirm my special thanks to my brother Osama who tired with me in traveled during war under bomb in Libyan revolution and the hard which exposure in Egyptian revolution. Also deep my thanks to my uncle Hassan and his wife who supported my during my study and my strong incident which happen to me in laboratory of Microbiology, Ain Sham University.

My thank to my frinds Hameda, Karema, Gazalla, Souad, Aieada who help me during my strong incident.

My thanks also to the Rose of Egypt Dina, Asma, Amal, Nidya, Noha, Heam, Mae, and Neven to supported my during my study and strong incident.

ANSHA
