

Nanoleakage of Self Adhesive Resin Composite

Thesis

**Submitted to the Faculty of Oral and Dental Medicine
Cairo University**

**In partial fulfillment of the requirements for the
Master degree in Operative Dentistry**

By

Haytham Elsayed Ahmad Abu-Elazayem Behery

B.D.S. (2006)

Misr University for Science and Technology

Cairo University

2011G - 1432H

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

(وَأَنْزَلُ ٱللَّهَ عَلَيْكَ ٱلْكِتَآبَ
وَٱلْحِكْمَةَ وَعَلَّمَكَ مَا لَمْ
تَكُن تَعْلَمُ وَكَانَ فَضْلُ ٱللَّهِ
عَلَيْكَ عَظِيمًا)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

سورة النساء

جزء من الآية ١١٣

Supervisors

Dr. Mona Ismail Riad

***Professor of Operative Dentistry
Faculty of Oral and Dental Medicine
Cairo University
(Main supervisor)***

Dr. Amal Khairy Sakr

***Assistant Professor of Operative Dentistry
College of Oral and Dental Surgery
Misr University for Science & Technology***

Dr. Asmaa Aly Mohamed Yassen

***Lecturer of Operative Dentistry
Faculty of Oral and Dental Medicine
Cairo University***

Dedication

*To my parents who gave
me the deep and the true
love.....that made me
who I am.*

Acknowledgments

First grace and foremost thanks to **Allah** for blessing this work until it has reached its end, as a little of his generous help throughout our life.

I would like to express my highest appreciation and deepest gratitude with all the feelings of love to **Dr. Mona Ismail Riad**, Professor of Operative Dentistry, Faculty of Oral and Dental Medicine, Cairo University, for her valuable supervision, continuous guidance, encouragement and for facilitating all the difficulties that faced me throughout this study. No words can express my sincere feelings and deep gratitude.

My deepest gratitude is extended to **Dr. Amal Khairy Sakr**, Assistant Professor of Operative Dentistry, College of Oral and Dental Surgery, Misr University for Science and Technology, for her valuable guidance, generous support and supervision.

Special thanks and heartfelt appreciation to **Dr. Asmaa Aly Mohamed Yassen**, Lecturer of Operative Dentistry, Faculty of Oral and Dental Medicine, Cairo University, for her constructive comments, generous help in rendering every possible service to me during every step in my work.

I would like to express my great appreciation to all the staff members of Operative Dentistry Department, Faculty of Oral and Dental Medicine, Cairo University, and College of Oral and Dental Surgery, Misr University for Science and Technology for their cooperation, support and continuous advice.

List of contents

	page
List of Tables.....	I
List of Figures.....	III
Introduction.....	1
Review of literature.....	3
I- Self Adhesive Flowable Resin Composite.....	3
II- Flowable Resin Composite.....	5
III- Nanoleakage evaluation.....	8
IV- Effect of thermocycling on nanoleakage.....	16
V- Effect of storage periods on nanoleakage.....	18
Aim of the study.....	24
Materials and Methods.....	25
I-Materials.....	25
II-Methods.....	27
Results.....	35
I- Quantitative nanoleakage results.....	35
II- ESEM Micromorphological Study (Qualitative analysis).....	63
Discussion.....	75
Summary and Conclusion.....	93
