

**Study of leptin in breast fed infants versus
artificially fed infants**

Thesis

Submitted in partial fulfillment of the
Master Degree in Pediatrics

Presented By

Amany Abd El-Rady Ahmed

M.B , B.CH

Under Supervision of Prof. DR

Mohamed Fathalla Mostafa

Professor of Pediatrics

Faculty of Medicine

Ain Shams University

Dr. Hussein El-Orabi

Assist.Prof.of Medicine

Faculty of Medicine

Ain Shams University

Dr. Nashwa Ahmed El-Badawi

Assist.Prof.of Clinical Pathology.

ACKNOWLEDGMENT

I am profoundly indebted to prof. Dr. Mohmed Fathalla Mostafa Professor of pediatrics , Ain Shams University , I wish to express my deep appreciation and gratitude for his continuous , valuable and meticulous supervision and for supporting me all throughout the work .

My deepest respect and sincere gratitude are presented to Prof. Dr. Hussein El-Orabi Assistant Professor of general medicine , Ain Shams University for his kind continuous cooperation and kind effort to achieve this work .

I wish to express my deep appreciation to Prof . Dr. Nashwa Ahmed El-Badawi , Assistant Professor of Clinical Pathology , Ain Shams University for her great impeccable effort and moral encouragement during performing and reviewing this work .

INDEX

Part	Subject	Page
I	Introduction and Aim of the work-----	1
II	Review of Literature	
	What is leptin ? -----	3
	Leptin receptors-----	3
	History of leptin-----	4
	Leptin structure-----	5
	Factors that affect leptin concentration ----	8
	Mechanism of leptin resistance in human obesity-----	8
	Effect of infection on leptin-----	10
	Leptin and pregnancy-----	11
	Relationship between serum leptin in children with obesity to gender and development -----	11
	Human obese gene expression-----	12
	Relation between leptin and juvenile obesity -----	13
	Role of leptin in human physiology-----	16
	Effect of fasting on serum in normal human subject-----	16
	Leptin and insulin-----	17
	Congenital leptin deficiency-----	17
	Breast feeding-----	19
	Artificial feeding -----	28
	Pediatric obesity-----	32
III	Subjects and Methods-----	35
IV	Results-----	40
V	Discussion-----	53

VI	Summary and conclusion-----	56
VII	Recommendations-----	58
VIII	References -----	59
IX	Appendices -----	74
X	Arabic summary	

LIST OF TABLES

No	Title	Page
1	Comparison between group I and group II regarding all studied parameters	41
2	Comparison between males and females in group I regarding all parameters	42
3	Comparison between males and females in group II regarding all parameters	43
4	Comparison between non obese and obese among group I	44
5	Comparison between non obese and obese among group II	45

LIST OF FIGURES

No	Title	Page
1	Comparison between group I and group II regarding serum leptin	46
2	Comparison between males and females among all studied groups regarding serum leptin	47
3	Comparison between non obese and obese among all studied groups regarding serum leptin	48
4	Correlation between leptin and BMI among group I	49
5	Correlation between leptin and BMI among group II	50
6	Correlation between leptin and weight among group I	51
7	Correlation between leptin and weight among group II	52

LIST OF ABBREVIATIONS

a.a	amino acid
ATG	Adenine, Thymine, Guanine
β	Beta
BMI	Body Mass Index
Ca	Calcium
CNS	Central nervous system
CRH	Corticotropin hormone
CSF	Cerebro-spinal fluid
DIP	Diphtheria toxoid
Hib	Hemophilus influenza virus type b
IL I	Interleukin I
m²	Square meter
ng/ml	nanogram/ mililitre
NPY	Neuropeptide Y
Ob	Obesity gene
OPV	Oral polio virus
P	Phosphorus
RIA	Radio immune assay
TFN	Tumour necrotizing factor
WHO	World Health Organization
