The thesis is supervised by:

Dr. ALEYA S. MARZOUK

Ass. Prof. in Zoology, Faculty of
Science, Ain Shams University

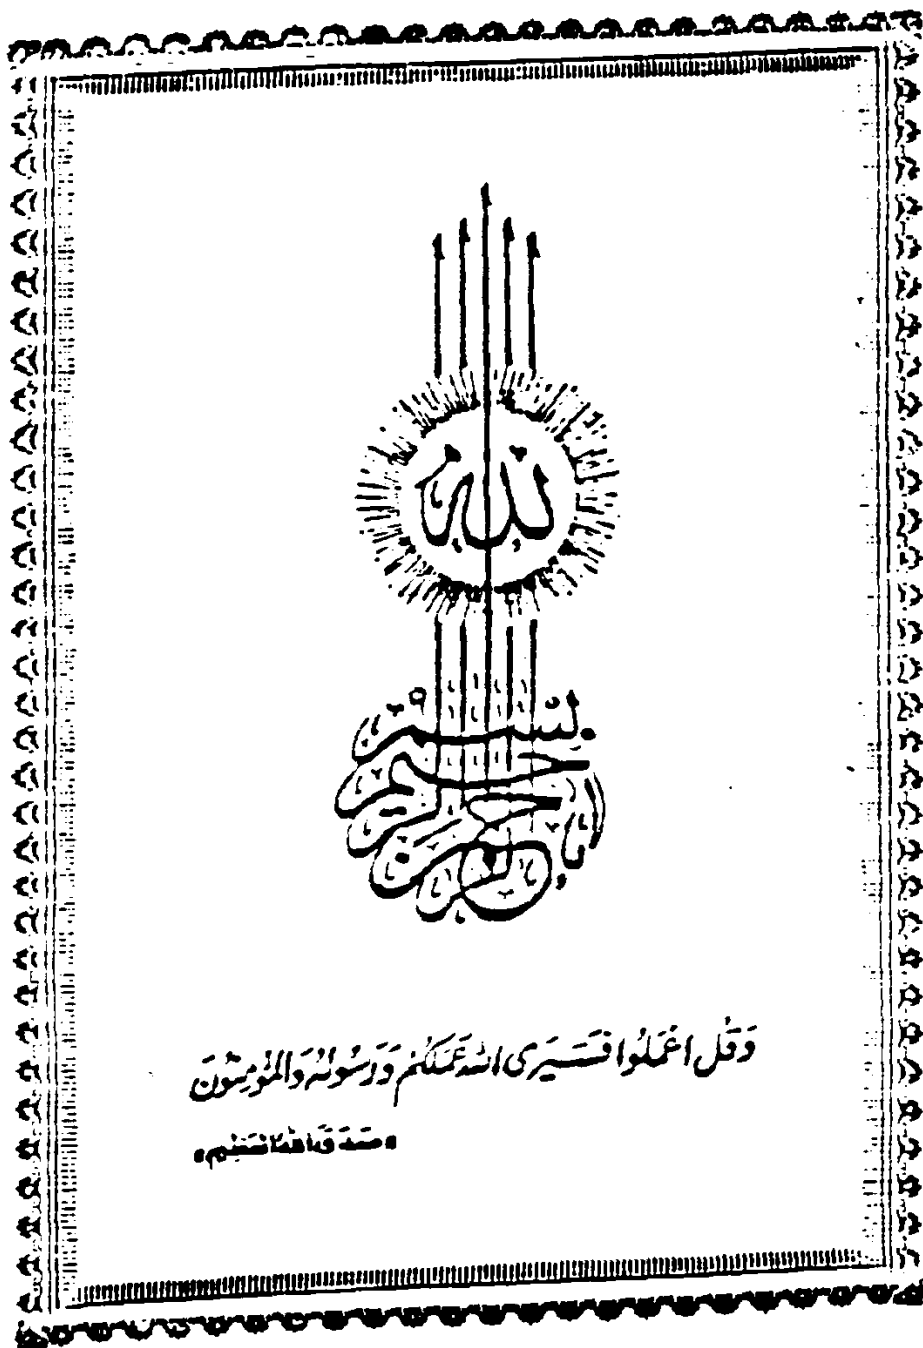

Dr. SOHAIL S. SOLIMAN

Ass. Prof. in Zoology, Faculty of
Science, Ain Shams University

Prof. ANDREW J. MAIN

Ex-Head of Medical Zoology Division,
NAMRU-3

BIOGRAPHY

Name : Ashraf Ahmed M. E. Montasser.
Date and place of birth : 1966, Cairo.
Degree awarded : B.Sc., Zoology, 1987.
Present position : Demonstrator, Department of
Zoology, Faculty of Science,
Ain Shams University.
Date of registration : March 26, 1990.

Besides the present work in this thesis, the candidate has attended and passed successfully postgraduate courses for the partial fulfillment of the requirements of the degree of Master of Science in Zoology during the academic year 1989:

1. Acarology.
2. Taxonomy.
3. Biological relationships.
4. Parasitology.
5. English language.

To My Family

ACKNOWLEDGEMENTS

The author wishes to express his sincere thanks and appreciations to Dr. Aleya S. Marzouk, Zoology Department, Faculty of Science, Ain Shams University, for her helpful guidance, constructive criticism, and supervision of this work.

Deep appreciation are also due to Dr. Sohail S. Soliman, Ass. Prof. of Mammal Ecology and Taxonomy in the same Department for his invaluable help and advice, kind assistance in the field, and supervision of this work.

Deep gratefulness and appreciation are due to Professor Andrew J. Main, Ex-Head of Medical Zoology Division, U. S. Naval Medical Research Unit No. 3 (NAMRU-3), for his supervision, encouragement, and sincere help during the performance of this work.

Thanks are also due to the Naval Medical Research Unit No. 3 in Cairo for providing facilities in the field at the Epidemiology Center in Bilbeis and in their laboratories.

My thanks are also due to Professor Fawzy I. Amer, Head of Zoology Department, Faculty of Science, Ain Shams University, for his supportive interest in the work.

Deep gratitude are due to Dr. Stanton E. Cope, Present Head of Medical Zoology Division, NAMRU-3, for his valuable assistance and advice. Sincere thanks are extended to all members of the Medical Zoology Division in NAMRU-3 for their outstanding help during the performance of this work.

I would like to thank particularly Dr. F. Dusbabaek, D.Sc., Head of Medical Acarology Department, Institute of Parasitology, Czechoslovak Academy of Sciences, Czechoslovakia, for confirming identification of ectoparasitic mites.

CONTENTS

	Page
1. Introduction	1
1.1. General account	1
1.2. Aim of the work	5
1.3. Historical review	6
1.3.1. Mites	6
1.3.2. Fleas	12
1.3.3. Lice	17
2. The study area	21
3. Materials and methods	27
3.1. Collection of rodents	27
3.2. Collection of ectoparasites	27
3.3. Examination of rodent hosts	30
3.4. Examination, preparation, and identification of ectoparasites	31
3.5. Keys for identification of ectoparasites	32
3.6. Statistical analysis	33
4. Results	36
4.1. Commensal rodents and ectoparasites in Bilbeis area	36
4.1.1. Commensal rodents	36
4.1.2. Ectoparasites	36
4.1.2.1. Ectoparasites on <u>Rattus rattus</u>	47
4.1.2.2. Ectoparasites on <u>Rattus</u> <u>norvegicus</u>	48
4.1.2.3. Ectoparasites on <u>Mus musculus</u>	49
4.2. Monthly collection data of rat hosts and ectoparasites	51
4.2.1. Rat hosts	51
4.2.2. Ectoparasites on <u>Rattus rattus</u>	54
4.2.2.1. Infestation rates and general indices	54
4.2.2.2. Specific indices and percentages	59
4.2.3. Ectoparasites on <u>Rattus norvegicus</u>	60
4.2.3.1. Infestation rates and general indices	60
4.2.3.2. Specific indices and percentages	64
