THE INTERACTION OF TWO ABUSED DRUGS AND STRESS ON THE GASTRIC MUCOSA

A THESIS

Submitted For The Partial Fulfillment
Of The Master Degree in
Clinical Toxicology

Presented By

HEBA MOHAMMED HALAWA
M.B.,B.Ch., (1991)

Under The Supervision of

PROF. DR. MOSTAFA ABD EL-LATIF KAMEL
Prof. of Forensic Medicine and Clinical Toxicology
Ain Shams University

DR. MONA EL-KOTB MOUSA
Lecturer of Forensic Medicine and Clinical Toxicology
Ain Shams University

DR. NADIA GALAL EL-HEFNAWY
Lecturer of Pathology
Ain Shams University

Ain Shams University

1997

To My Family

ACKNOWLEDGMENT

I am deeply grateful to **Prof. Dr. Mostafa Abd El-Latif Kamel**, Professor of Forensic Medicine and Clinical Toxicology, Faculty of Medicine, Ain Shams University, for suggesting the title of the thesis and establishing the protocol for this work and the experimental design. Also, I would like to thank him for his continued assistance during the writing of this study.

It is my pleasure to acknowledge with gratitude **Prof. Dr. Ahmed Kamel Mashhour** Head of Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine, Ain Shams University for his valuable help during this work.

I am very much obliged as well to **Dr. Mona El-Koth Mousa**, Lecturer of Forensic Medicine and Clinical Toxicology, Faculty of Medicine, Ain Shams University, who gave me great help and assistance during the production of this study.

I am deeply grateful to **Dr. Nadia Galal El-Hefnawy**, Lecturer of Pathology, Faculty of Medicine, Ain Shams University, who shared in the supervision of the work and supplied every possible facility during the work.

Many thanks to **Dr. Asmaa Ahmed Fawzy**, Lecturer of Forensic Medicine and Clinical Toxicology, Faculty of Medicine, Ain Shams University, for her assistance during the practical part of this work.

Finally, I would like to thank all my professors, my colleagues and everyone who gave me help during this work.

List of Plates

	<u>Page</u>
Plate 1 : The objective activity evaluation device (O.A.E.D) with the cover in place.	26
Plate 2 : The interior of the O.A.E.D.	27
Plate 3 : Rat stomach (Control) showing intact mucosa	46
Plate 4A : Rat stomach of the isolated stress group	47
Plate 4B : A photomicrograph of rat stomach of the isolated stress group.	48
Plate 5A : Rat stomach of the ephedrine group	49
Plate 5B : Photomicrograph of rat stomach of the ephedrine group.	50
Plate 6A : Rat stomach of chlorpromazine groups (after and without subjection to stress).	51
Plate 6B : A photomicrograph of rat stomach of chlorpromazine group after stress.	52
Plate 7A : Rat stomach of the ephedrine and chlorpromazine group.	53
Plate 7B : Photomicrograph of the ephedrine and chlorpromazine group.	54
Plate 8 : Stomach section of rats of ephedrine group only	55
Plate 9 : Stomach section of rats of group VII.	56

List of Tables & Histograms

	<u>Page</u>
Table 1 : Statistical analysis of activity of rats	57
Table 2 : Statistical analysis of gastric ulcers in rats of stress group compared with other groups.	58
Table 3 : Statistical analysis of gastric ulcers in rats of different groups compared with the negative control group.	59
Table 4 : The number of gastric ulcers in rats of stress groups compared with the other groups.	60
Histogram 1 : Ephedrine potential on activity of rats versus chlorpromazine compared to control groups.	61
Histogram 2 : The number of stress gastric ulcers in the stress groups.	62
Pie Chart : The percentage of ulcers in the treated groups.	45
