

IMAGING IN THE STAGING OF BRONCHOGENIC CARINOMA

ESSAY

Submitted in partial fulfillment of the
Master Dgree of **Radiodiagnosis**

BY 

Osama Mohamed A. El Hamed Hetta
M.B.,B.CH

Supervised by

Prof. Dr. Abd Elzahir Hassaan

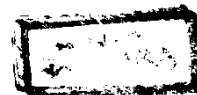

*Professor of Radiodiagnosis
Faculty of Medicine
Ain Shams University*

Dr. Mahmoud Mohamed Osman

*Lecturer of radiodiagnosis
Faculty of Medicine
Ain Shams University*

**Faculty of Medicine
Ain Shams University
1994**

TO : MY PARENTS

ACKNOWLEDGMENT

I would like to express my deepest gratitude and extreme appreciation to Prof. Dr. Abd Elzahir Hassaan, Professor of Radiodiagnosis, Faculty of Medicine, Ain Shams University, for his kind supervision, valuable advice, constructive encouragement, generous help and guidance through the whole work which could not be a fact, without his guidance and kind help.

Also, I would like to express my great thanks to Dr. Mahimoud Mohamed Osman, Lecturer of Radiodiagnosis, Faculty of Medicine, Ain Shams University, for his kind advice and continuous help through the whole work.

I would like to express my exteme gratitude to all my professors, members of staff and colleagues in the radiodiagnosis department, Ain Shams University for the support and kind help.

Arabic Summary	

List of Figures

Fig No.	Tittle	Page
	Gross anatomy of the lung	
1	Medial surface of left lung	9
2	Medial surface of right lung.	9
3	The mediastinum; right larteral aspect	11
4	The mediastinum; right larteral aspect	11
5	Normal P.A. film.	14
6	Normal lateral film.	14
7	Diagram illustrating the anatomy of the main bronchi and segmental divisions.	16
8	Diagrams illustrating the approximate positions of pulmonary segments.	18
	Cross sectional anatomy	
9	CT - level of brachiocephalic artery.	22
10	CT - level of left brachiocephalic vein.	22
11	CT - level of aortic arch.	22
12	CT - level of aortopulmonary window.	25
13	CT - level of left pulmonary artery	25
14	CT - level of main and right pulmonary artery.	27
15	CT - level of aortic root.	27
16	CT - level of carina and apical bronchus	30
17	CT - level of upper lobe bronchus .	30
18	Level of bronchus intermedius	30
19	Level of right middle lobe bronchus	32
20	Level of basal right lower lobe bronchi.	32
21	Level of left apical posterior segmental bronchus.	32
22	Level of left upper lobe bronchus.	34
23	Level of lingular bronchus.	34
24	Level of left basal lower lobe bronchus	35
25	Schematic drawings of segmental lung anatomy at representative levels.	37
26	Cross sectional MR anatomy.	39
27	Mediastinal anatomy coronal MR images.	40
28	Mediastinal anatomy, parasagittal MR images	41
	Pathology	
29	Primary tumour (T) in lung cancer according to TNM system.	54
30	Nodal involvement N in lung cancer according to TNM system.	56

31	Stage I lung cancer.	58
32	Stage II lung cancer	58
33	Stage IIIa lung cancer	59
34	Stage IIIb lung cancer .	59
35	Stage IV lung cancer.	59

Radiological manifestations

36	Bronchial carcinoma in left lower lobe	70
37	Conventional tomogram of primary adenocarcinoma	70
38	Small cell carcinoma (A : P-A chest film, B; CT scan).	72
39	Primary mediastinal bronchogenic carcinoma (A) P-A and (B) lateral chest films.	75
40	Collapse of a lobe around a central mass (P-A and lateral chest films)	75
41	T ₄ stage III B large cell bronchogenic carcinoma - CT scan.	81
42	Rib invasion and destruction - P-A chest film.	84
43	Stage 3B bronchogenic carcinoma ; mediastinal invasion - CT scan.	90
44	Stage 3B disease : encasement of the carina : contralateral mediastinal adenopathy. - P-A chest film and CT scan	90
45	Stage 3B : mediastinal and chest wall invasion - CT scan.	91
46	Stage 3B : invasion of thoracic spine	91
47	Diagram showing regional nodal stations	94
48	Hilar and mediastinal lymphadenopathy in 54 year old man with large cell carcinoma	98
49	Chest wall invasion - MRI	106
50	Stage 3A : pancoast's tumour - MRI.	107
51	Mediastinal invasion CT and MRI.	108
52	Stage 3B disease : mediastinal invasion MRI.	110
53	Lymph node metastases - CT and MRI	112
54	Stage 3B disease mediastinal adenopathy - coronal MR images.	113
55	Adrenal metastases - CT and MRI.	114

Representative cases

56	CT - peripheral type of bronchogenic carcinoma.	132
57	CT - central bronchogenic carcinoma with distal collapse	134
58	CT - Central bronchogenic carcinoma with metastatic liver disease	136
59	CT - Pancoast's tumor	138
60	CT - Pancoast's tumor with chest wall invasion and destruction of vertebral body	140
61	CT - Peripheral bronchogenic carcinoma with adenopathy, chest wall invasion and vertebral destruction	142
