> FACULITY OF MEDICINE AIN-SHAMS UNIVERSITY 1999

ACKNOWLEDGMENT

To begin with, I would like to humbly offer my heart felt gratitude to God for help on making this work a successful accomplishment

I wish to express my deep gratitude, thankfulness and deepest appreciation to the eminent Prof. Dr Adel Fahem Ain-Shoka professor of General surgery Ain Shams University for giving me the honor of supervising this mark and for his utmost support and encouragement.

To **Prof. Dr** Abd-Allah Al-Said Ragab professor of General surgery Ain-Shams University. I wish to express many great thanks and deep appreciation to his huge effort and continuous supervision. His valuable experience was behind this thesis.

To **Prof. Dr. Said Abd-AlBaki** professor of General surgery Ain Shams University. I would like to express my sincere appreciation and gratitude for his kind support and valuable suggestion and guidance throughout this thesis.

I must also acknowledge **Prof. Dr. Ahmed Kamel Al-Dorry** professor of Radiology. Ain **Shams University** for his kind support and valuable experience.

I never can miss out on saying "thank you" to my collogues and nurses who helped me greatly and to the persons who stayed restless typing this work.
