Acknowledgement

*I would like to express my sincere gratitude and cordial appreciation to **Prof. Dr. Mohamed Nabil Khalifa** professor of orthopaedic surgery, Faculty of medicine, Ain Shams University, for his valuable supervision, constructive guidance, continuous encouragement and generous help during preparation of this work.*

*I am especially grateful to **Prof. Dr. Ahmed Kamel Mohamed**, Assistant professor of orthopaedic surgery, Faculty of medicine, Ain Shams University, as his supervision, meticulous advice and fruitful suggestions were of utmost help throughout the work.*

*Sincere thanks and appreciation are due to **Prof. Dr. Mohamed Abd Elsalam Wafa**, Assistant professor of orthopaedic surgery, Faculty of medicine, Ain Shams University, for his helpful directions and valuable advices and supervision.*

I would like to extend my deep thankfulness to all colleagues in our department and different members of staff who have participated in one way or another in the planning, execution and presentation of this study in its final form.

Contents

Part I:- Review of literature

* Introduction	1
* Normal anatomy of the foot	2
* Historical review	24
* Pathological anatomy	26
* Aetiology	44
* Diagnosis :-	
- Clinical diagnosis	50
- Radiological diagnosis	59
* Treatment:	73
-Non operative treatment	76
- Operative treatment	84
• <i>Soft tissue release</i>	87
• <i>Tendon transfer</i>	104
• <i>Bony operations</i>	108

Part II:-

* Material and methods	117
* Results	164
* Case presentation	196
* Complications	222
* Discussion	229
* Summary	242
* References	245

List of figures

No.	Figure	Page
1.	Left talus from medial and lateral sides.	4
2.	Blood supply of the talus.	6
3.	Right calcaneus superior and medial surfaces	7
4.	Left talus and calcaneus.	9
5.	Synovial tendon sheaths of ankle.	12
6.	Ligaments of ankle and tarsal joints.	17
7.	Talonavicular and subtalar articulations.	19
8.	Socket-talocalcaneonavicular joint.	20
9.	Dorsiflexion movement.	23
10.	Plantar flexion movement.	23
11.	Abnormal tarsal relationship.	29
12.	Right talus (Declination angle).	29
13.	Calcaneus in clubfoot.	31
14.	Calcaneus in clubfoot, rear view.	32
15.	Posterior soft tissue contractures	36
16.	Medial plantar soft tissue contractures.	36
17.	Subtalar contractures.	39
18.	Plantar contractures.	39
19.	Clinical appearance of bilateral clubfoot	52
20.	Dorsolateral aspect appearance of clubfoot	52
21.	Passive dorsiflexion of clubfoot.	53
22.	Triad of congenital clubfoot	53
23.	Classification of clubfoot deformities.	54
24.	The position of the foot during radiogram.	62
25.	Radiographic measurements with normal values.	64
26.	Talocalcaneal divergence.	65

No.	Figure	Page
27.	Anteroposterior view in normal foot.	67
28.	Anteroposterior view in clubfoot.	67
