ACKNOWLEDGEMENT

I am deeply thankful to ALLAH by the grace of whom this work was possible.

I would like to express my deepest gratitude and sincerest appreciation to professor Dr. HASHEM MOHAMED RASHWAN, Professor and Chairman of Urology department, Faculty of Medicine, Suez Canal University for his continuous encouragement and guidance, which gave me the greatest help. He gave much of his time and effort to supervise this work.

Words can never express my hearty thanks To Dr. MOUSSA ABD EL-HAMID, Assistant Professor of Orthopedics, Faculty of Medicine, Suez Canal University for his constant support and expert guidance throughout the conduction of this study.

My sincere appreciation is extended to Dr. ZEINAB ABD EL-HALIM, Assistant Professor of Psychiatric Nursing, Faculty of Nursing, Cairo University, for her intensive support, continuous encouragement, and advice for the fulfillment of this thesis.

I would like to express my deepest gratitude and sincerest appreciation to Dr. AHMED IBRAHIM EL-SAKKA,

lecture of urology Suez Canal University for his constant support and expert guidance throughout the conduction of this study.

I wish to express my indebtedness and great appreciation my husband my children, my family who paved my way through their tolerance and support.

Last but not least, I would like to thank every body who helped me to finish this work.

The Candidate
