

**Study Of The Incidence Of Cardiovascular Sources
Of Emboli In Patients With Cerebral Stroke Or
Transient Ischemic Attacks By Transesophageal
Echocardiography**

Thesis

Submitted In Partial Fulfillment Of

The Master Degree in Cardiology

676.1207543
M. H

By

Mohamed Helmy Mohamed

M.B, B.Ch .

Under Supervision of

Prof . Dr. Wagdy Galal

Professor of Cardiology

Ain Shams University

Dr . Alaa - El Din Medhat

Consultant of Cardiology

National Heart Institute

Dr. Osama El Refaai

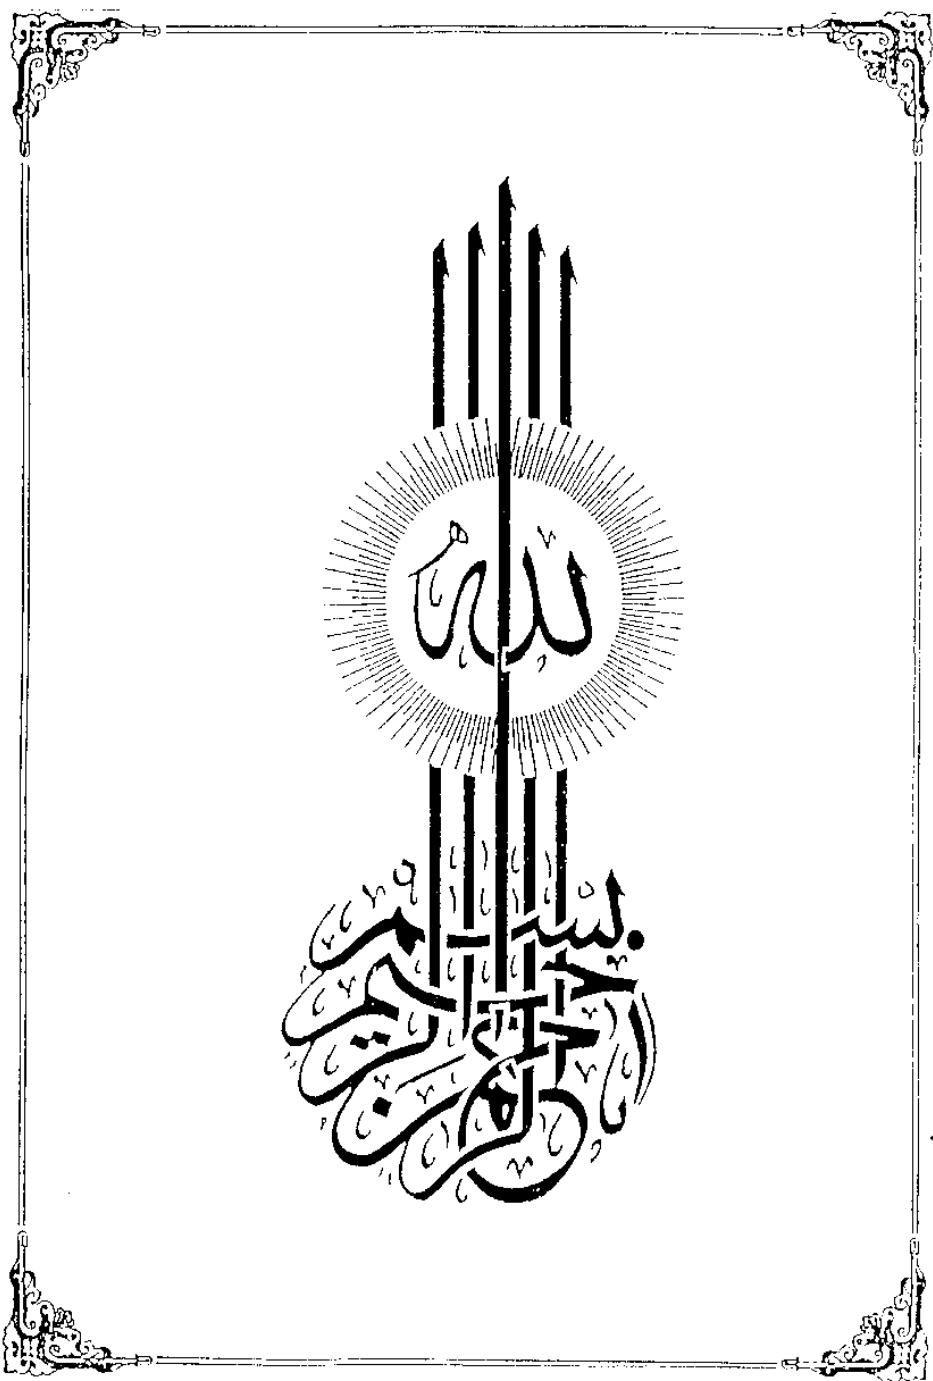

Lecturer of Cardiology

Ain Shams University

Faculty of Medicine

Ain Shams University

1996

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

I would like to thank **Prof Dr. Wagdy Galal** professor of Cardiology- Ain shams university- for his continuous encouragement and the valuable advice he offered me to achieve this work .

I would also like to express my profound gratitude to **Prof Dr.. Osama El Refaai** Lecturer of Cardiology, Ain shams university- for his guidance and suggestions .

I am greatly indebted to **Dr. Alaa El Din Medhat**, Fellow of Cardiology for his valuable assistance , encouragement , close supervision and all the efforts that he exerted to achieve this work .

LIST OF ABBREVIATIONS

AF	Atrial Fibrillation.
ASA	Atrial Septal Aneurysm.
CVS	Cerebro Vascular Stroke
CSOE	Cardio Vascular Source of Embolism
IE	Infective Endocarditis.
LA	Left Atrium.
LAA	Left Atrial Appendage Thrombus.
LAT	Left Atrial Thrombus.
LV	Left Ventricle.
LVT	Left Ventricular Thrombus.
MAC	Mitral Annulus Calcification
MVP	Mitral Valve Prolapse.
NBTE	Non Bacterial Thrombotic Endocarditis.
PFO	Patent Foramen Ovale.
SSS	Sick Sinus Syndrome.
TIA's	Transient Ischemic Attacks
TTE	Trans Thoracic Echocardiography
TEE	Trans Eosophageal Echocardiography

LIST OF CONTENTS	PAGE
* INTRODUCTION	1
* AIM OF THE WORK	2
* REVIEW OF LITERATURE	3
<i>Cerebrovascular disease</i>	3
<i>Cardiac dysrrhythmias and cerebral embolism</i>	17
Atrial fibrillation	18
Sick sinus syndrome	22
<i>Role of TEE in detecting cardiac sources of embolism</i>	25
<u>A)Direct cardiac sources</u>	25
* Left ventricular thrombus	25
* Left atrial thrombus.	38
*Primary tumors of the heart.	43
*Prosthetic cardiac valve thrombosis.	49
*Infective endocarditis.	56
<u>B)Potential cardiac sources:-</u>	65
*Spontaneous echo contrast .	65
*Protruding atheroma of the aorta	76
*Atrial septal aneurysm	89
*Patent foramen ovale	96
*Mirtal valve prolapse	102

LIST OF CONTENTS (Cont.)	PAGE
* PATIENTS AND METHODS	109
* RESULTS	112
* DISCUSSION	138
* SUMMARY	150
* CONCLUSION	152
* REFERENCES	153
* ARABIC SUMMARY	---

LIST OF TABLES	PAGE
Table (I) Comparison of Age of Patients in Group I and Group II	128
Table (II) Risk Factors in All Patients with CVS/TIA	129
Table (III) Incidence Of Cardiac Sources Of Emboli In All Patients	130
Table (IV) Comparison of Sources of embolization in Group I and II as determined by transesophageal echocardiography	131
Table (V) Comparison between TTE & TEE in detecting CSOE in all patients .	132
Table (VI) Cardiac Sources of Embolism by TTE and TEE in Pa- tients with Cardiac Disease (Group I) .	133
Table (VII) Cardiac Sources of Emboli by TTE and TEE in Patients with TIA / CVS without Clinical Cardiac Disease .	134
Table (VIII) Direct Cardiac Sources of Emboli as determined by Trans esophageal echocardiography .	135
Table (IX) Potential Cardiac Sources of Emboli as determined by TEE	136
Table (X) Direct Cardiac Sources of Emboli as detected by TTE	137
Table (XI) Potential Cardiac Sources of Emboli as detected by TTE.	138

LIST OF FIGURES	PAGE
<u>FIGURE (I)</u> Risk factors in all patients with CVS/TIA.	139
<u>FIGURE (II)</u> Incidence of CSOE in cardiac & non cardiac patients.	140
<u>FIGURE (III)</u> TTE versus TEE in detecting CSOE in all patients.	141
<u>FIGURE (IV)</u> TTE versus TEE in detecting direct CSOE in all patients.	142
<u>FIGURE (V)</u> TTE versus TEE in detecting CSOE in all patients.	143

Introduction
