

# **COMPARATIVE STUDY OF DILAPAN VERSUS MISOPROSTOL IN FIRST AND SECOND TRIMESTERIC ABORTION**

Thesis Submitted For The Partial Fulfillment  
Of Master Degree in Obstetrics and Gynaecology

By

**MOHAMED MOHAMED SAEED**

M.B., B.Ch. (Ain Shams University)

Resident in Obstetrics and Gynaecology Maternity

Hospital Ain Shams University

Supervisors

***Professor Hamdi M. El-Kabarity***

Professor of Obstetrics and Gynaecology

Faculty of Medicine, Ain Shams University

***Dr. Essam M. Ammar***

Assistant Professor of Obstetrics and Gynaecology

Faculty of Medicine, Ain Shams University

**Faculty of Medicine  
Ain Shams University  
1997**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ  
﴿سُنُرِيهِمْ ءَايَاتِنَا فِي الْأَفَاقِ  
وَفِي أَنْفُسِهِمْ حَتَّىٰ يَتَبَيَّنَ لَهُمْ أَنَّهُ الْحَقُّ  
أَوَلَمْ يَكْفِ بِرَبِّكَ  
أَنَّهُ عَلَىٰ كُلِّ شَيْءٍ شَهِيدٌ﴾

﴿سورة فصلت ، آية ٥٣﴾

## ***ACKNOWLEDGEMENT***

Before and above all, thanks to **ALLAH** to whom I always pray to bless my work.

I wish to express my deepest gratitude and appreciation to Professor ***Hamdi Mohamed El-Kabarity***, Professor of Obstetrics and Gynecology, Ain Shams University for his help, sincere guidance and support he offered throughout this work.

I would also like to express my endless appreciation to ***Dr. Essam Mohamed Ammar***, Assistant Professor of Obstetrics and Gynecology, Ain Shams University for his sincere guidance, meticulous supervision and valuable instructions and suggestions.

I am particularly grateful to colleagues and the patients who so willingly help me to achieve this work.

## CONTENTS

<b>Introduction.....</b>	<b>1</b>
<b>Aim of The Work.....</b>	<b>3</b>
<b>Review of Literature.....</b>	<b>5</b>
<b><i>I-The cervix.....</i></b>	<b>5</b>
-Anatomy.....	5
-Cervical changes during pregnancy.....	10
-Cervical changes of prelabor and labor.....	11
-Cervical changes during puerperium.....	14
-Histology of the human cervix.....	15
-Metabolism of cervical connective tissue.....	19
<b><i>II-Cervical ripening.....</i></b>	<b>20</b>
A-Mechanism of cervical ripening.....	20
1-Cytokines.....	22
2-Prostaglandins.....	23
3-Hormonal control.....	26
B-Evaluation of cervical ripeness.....	29
C-Standardization of cervical assessment.....	34
D-Evaluation of the scoring system.....	41
<b><i>III-Methods of cervical ripening.....</i></b>	<b>45</b>
1-Surgical amniotomy.....	49
2-Membrane stripping.....	50
3-Nipple stimulation.....	52
4-Mechanical methods of cervical ripening.....	52
5-Hormonal methods of cervical ripening.....	56
6-Prostaglandins.....	64
7-Prostaglandin analogues.....	70
8-Antiprogestins.....	72

<b><i>IV-Osmotic cervical dilators</i></b> .....	73
A-Laminaria tents.....	75
B-Synthetic osmotic dilators.....	76
1-Dilapan.....	76
2-Lamicel.....	78
<b><i>V-Prostaglandins</i></b> .....	80
A-Prostaglandins.....	80
1-Prostaglandin biochemistry and biosynthesis .....	83
2-Prostaglandins and their role in spontaneous or induced abortion and labor.....	94
3-Prostaglandins and their role in cervical ripening...	100
B-Prostaglandin analogues.....	103
-Therapeutic uses of PG analogues.....	105
C-Misoprostol.....	118
1-Development, therapeutic application and safety...	118
2-Misoprostol in pregnancy.....	119
<b>Patients and Methods</b> .....	129
<b>Results</b> .....	141
<b>Discussion</b> .....	165
<b>Summary</b> .....	185
<b>Conclusions and Recommendations</b> .....	187

## LIST OF TABLES

1-The Bishop Scoring (1964) or Pelvic Scoring system.....	35
2-Field's Scoring Index (1966).....	36
3-The Burnett's Scoring Index (1966).....	37
4-Inducibility rating (Calder et al., 1974).....	39
5-Inducibility rating (Wingerup, 1979).....	39
6-Lange's Scoring system (1982).....	40
7-Dhall's Scoring system (1986).....	40
8-The results of different studies which show the effect of membrane stripping on onset of labor.....	51
9-Comparison between group Ia (Cytotec group) and group Ib (Dilapan group) regarding data studied.....	142
10- Comparison between pre- and post-treatment cervical canal diameter in group Ia (Cytotec group) and group Ib (Dilapan group).....	143
11-Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding data studied.....	146
12- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding total pelvic scores and ther components.....	152
13- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding induction-expulsion and treatment-expulsion times, Pethidine and Syntocinon requirements.....	155
14-Different studies done for second trimester abortion, using Dilapan or Misoprostol with the success rate and mean induction time.....	171

## LIST OF FIGURES

1-Hypothetical prostanoid acid skeleton.....	81
2-A simplified schematic representation of the enzymatic pathways of arachidonic acid metabolism.....	85
3-A simplified outline of the pathways of arachidonic acid metabolism.....	86
4-The cyclo-oxygenase pathway leads to the prostaglandins.....	88
5-Thromboxane and prostacyclin.....	90
6-Prostaglandins inhibition.....	94
7-Comparison between group Ia (Cytotec group) and group Ib (Dilapan group) regarding effect on cervical canal diameter.....	145
8- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding pelvic score after 4 hours (score 1).....	148
9- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding pelvic score after 8 hours (score 2).....	149
10- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding final pelvic score (final score).....	150
11- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding the change in pelvic score.....	153
12- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding induction-expulsion time.....	156
13- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding treatment-expulsion time.....	157
14- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding cumulative percent of abortion.....	159

15- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding total dose of syntocinon used.....	161
16- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding use of Pethidine (as analgesic).....	162
17- Comparison between group IIa (Cytotec group) and group IIb (Dilapan group) regarding type of abortion.....	164
