

APPROVAL SHEET

hereby on 19 January 1997 recommended that the thesis

PRESENTED BY

GHADA AHMED ABD EL FATAAH WASSIF

M.B., B. CH., M.SC.

ANATOMY

FACULTY OF MEDICINE

AIN SHAMS UNIVERSITY

IN TITLED

STUDIES ON THE SPIRAL GANGLION

UNDER SUPERVISIONS OF

Prof. Dr. Kariman Abdel Fattah El-Gohary
Professor of Anatomy,
Faculty of Medicine,
Ain-Shams University.

Prof. Dr. Mohamed Abdel Azim El-Beghermy
Professor of Otolaryngology,
Faculty of Medicine,
Ain-Shams University.

Prof. Dr. Mohamed Kamal Tawfik
Asst. Professor of Anatomy,
Faculty of Medicine,
Ain-Shams University.

Prof. Dr. Safwa Saad Lashin
Asst. Professor of Anatomy,
Faculty of Medicine,
Ain-Shams University.

be accepted for Partial Fulfillment of the M.D. Degree "Anatomy"

EXAMINERS

Prof. Dr. Fotna Gobran Eskander, Prof. of Anatomy
Faculty of Medicine, Tanta University.

Prof. Dr. Kariman Abdel Fattah El-Gohary, Prof. of Anatomy
Faculty of Medicine, Ain Shams University.

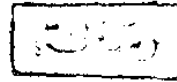

Prof. Dr. Ibtisam A. Bahei El Din, Prof. of Anatomy
Faculty of Medicine, Ain Shams University.

STUDIES ON THE SPIRAL GANGLION

THESIS

SUBMITTED FOR PARTIAL FULFILLMENT
OF THE M.D. DEGREE
"ANATOMY"

PRESENTED BY
GHADA AHMED ABDEL-FATAAH WASSIF
M.B., B.CH., M.SC.
ANATOMY

SUPERVISORS

Prof. Dr. Kariman Abdel Fattah El-Gohary
Professor of Anatomy,
Faculty of Medicine,
Ain-Shams University.

Prof. Dr. Mohamed Abdel Azim El-Begerny
Professor of Otolaryngology,
Faculty of Medicine,
Ain-Shams University.

Prof. Dr. Mohamed Kamal Tawfik
Professor of Anatomy,
Faculty of Medicine,
Ain-Shams University.

Prof. Dr. Salwa Saad Lashin
Professor of Anatomy,
Faculty of Medicine,
Ain-Shams University.

FACULTY OF MEDICINE
AIN-SHAMS UNIVERSITY
1997

To the soul of my ***Father***
&
to my ***Mother***,
who suffered a lot
during the preparation of this work

Acknowledgment

*First and most of all, thanks to **GOD**, greatest of all, for completing this work.*

*I would like to express my deepest thanks to **Prof. Dr. Sawsan Ahmed Abdel-Rahman**, Professor of Anatomy, Faculty of Medicine, Ain-Shams University, who suggested the topic for this investigation and supervised most of this work. Her helpful discussion, criticism and encouragement assisted me throughout the work.*

*I wish to thank heartily **Prof. Dr. Kariman Abdel-Fattah El-Gohary**, Professor of Anatomy, Faculty of Medicine, Ain-Shams University, for her kind supervision, sincere help, valuable advice and continuous encouragement, and immense knowledge to produce this work in its present form.*

*I would like to express my deepest thanks to **Prof. Dr. Mohamed Abdel-Azim El-Beghermy**, Professor of Otolaryngology, Faculty of Medicine, Ain-Shams University, for his continuous supervision, generous effort and unlimited assistance throughout the whole work. Without his expert assistance and valuable efforts, it would have been difficult to complete the present investigation in a satisfactory way.*

*I am also indebted to **Prof. Dr. Mohamed Kamal Tawfik**, Assistant Professor of Anatomy, Faculty of Medicine, Ain-Shams University, for his supervision, encouragement and support.*

*I would like to express my sincere gratitude and cordial thanks to **Prof. Dr. Salwa Saad Lashin**, Assistant Professor of Anatomy, Faculty of Medicine, Ain-Shams University, for her great encouragement and valuable guidance since the beginning of setting the idea of this thesis and for her continuous enthusiasm and patience throughout the whole work. To her, I will be always grateful.*

*I wish also to express my gratitude and thanks to **Prof. Dr. Elham Seif**, Professor of Pathology, Faculty of Medicine, Ain-Shams University, for her cordial support, sincere help and continuous encouragement.*

*Lastly, my sincerest appreciation to **all members of my family** for their endless help and support.*

LIST OF DIAGRAMS, PLATES, FIGURES AND TABLES

Diagram 1: Schematic diagram of the axial section of the human cochlea page 6

Table 1 : The number of pregnant female guinea pigs sacrificed at different periods of gestation and the number of extracted embryos. page 44

Table 2 : The number of guinea pigs at different postnatal age groups. page 46

Figures :

- 1-7** : Light Microscopy of the spiral ganglion in guinea pigs at 31 days prenatal age groups page 57-60
- 8-12** : Electron Microscopy of the spiral ganglion in guinea pigs at 31 days prenatal age groups page 63-65
- 13-15** : Light Microscopy of the spiral ganglion in guinea pigs at 55 days prenatal age groups page 68-69
- 16-17** : Electron Microscopy of the spiral ganglion in guinea pigs at 55 days prenatal age groups. page 71
- 18-20** : Light Microscopy of the spiral ganglion in guinea pigs at 62 days prenatal age groups. page 73-74
- 21-23** : Electron Microscopy of the spiral ganglion in guinea pigs at 62 days prenatal age groups. page 76- 77
- 24-27** : Light Microscopy of the spiral ganglion in guinea pigs at the first days of the postnatal age groups page 81-82
