ACKNOWLEDGMENT

I would like to thank **Professor Dr. Mahmoud Ahmed El-Banhawy**, Professor of Cell Biology and ex-Chairman of the Department of Zoology, Faculty of Science, Ain Shams University, for supervising my research and his continuous help, advice, support and encouragement as well as his critical reading of the manuscript.

I also wish to express my deepest thanks to **Professor Dr. Nahed Hussein Ahmed Riad**, Professor of Cell Biology in the Zoology Department in the Faculty of Science, Ain Shams University for planning the work, her supervision, encouragement, advice and effort in teaching me the histochemical and the ultrastructural procedures.

My sincere thanks are also due to **Dr. Nagui Hassan Fares**, Associate Professor of Zoology, Faculty of Science, Ain Shams University, for his great advice in the histochemical, ultrastructural and the morphometric work.

The help extended to me from **Professor Dr. Elham Seif, Dr. Lareasa, Dr. Enas** and to all people at the Electron Microscope Unit at Ain Shams Specialist Hospital is highly acknowledged.

Faithful indebtedness go to **Mr. Mohammed Mostafa Hegazi** for his assistance in computer work. Thanks, also are due to **Mrs. Hanaa Hamed El-Naggar** in the Centre of Agricultural Researches in Cairo for animal supply

Finally, my deep gratitude goes to **my husband, my family and my friends and colleagues** in Egypt and Saudi Arabia for their support, encouragement, devotion and love.
