

Management of Neuroblastoma in Childhood and Infancy

Thesis

Submitted for the Partial Fulfillment of MD in Radiation Oncology & Nuclear
Medicine

By

Manal Moawad Abdel Wahab

M. B. B., Ch., M. Sc.

Supervised By

Prof. Dr. Laila Faris Matta

Professor and Head of Radiation Oncology & Nuclear Medicine Department
Ain Shams University

Prof. Dr. Ahmed Samy Khalifa

Professor of Pediatrics
Ain Shams University

Prof. Dr. Ali Khalifa

Professor of Biochemistry and head of Tumor Marker Unit
Ain Shams University

Dr. Alaa Fayez

Lecturer of Pediatric Surgery
Ain Shams University

Faculty of Medicine
Ain Shams University

1994

بسم الله الرحمن الرحيم

To my dear mother

&

to my precious family

Acknowledgment

I would like to express my supreme gratitude and thanks to Prof. Dr. Laila Faris, Professor and Head of Radiation Oncology and Nuclear Medicine, Faculty of Medicine, Ain Shams University, who guided me sincerely throughout this work. Her continuous encouragement and advice helped me a great deal to accomplish this work.

I am also deeply indebted to Prof. Dr. Ahmed Samy Khalifa, Professor of Pediatric, Faculty of Medicine, Ain Shams University, for his generous help, scrupulous supervision and for devoting much of his precious time, attention and advice.

I extend my warmest and special thanks to Prof. Dr. Ali Khalifa, Professor and Head of Tumor Marker Unit, Faculty of Medicine, Ain Shams University, for his total adoption of this thesis. His positive attitude and generosity were the corner stones in the completion of this work.

I wish to extend my thanks to Dr. Alaa Fayed, Lecturer of Pediatric Surgery, Faculty of Medicine, Ain Shams University, for his assistance and guidance.

I wish to extend my thanks to Dr. Amin El Sayed Amin, Lecturer of Physics in Radiation Oncology and Nuclear Medicine Department, Ain Shams University, for his assistance and guidance.

I extend my thanks to Prof. Dr. Enass El-Attar, the professor of Biostatistic in NEMROC, for carrying on the statistical analysis of this work.

Finally, I thank all my colleagues at the Radiation Oncology and Nuclear Medicine Department, Ain Shams University.

Manal Moawad

Contents

Introduction and Aim of the Work.....	1
Introduction.....	1
Aim of the Work.....	2
The Supra Renal Glands	3
Gross Anatomy	3
Blood Supply	3
Nerve Supply	4
The Lymphatic	4
Chromaffin Cells.....	4
Embryology of Supra Renal Gland.....	6
Physiology of the Sympathochromaffin System	6
The Sympathetic System	9
Epidemiology and Genetics	10
Incidence.....	10
Race and Geographical Distribution.....	10
Sex	10
Age	10
Molecular Genetics	11
Genetic and Molecular Biology.....	12
Biology.....	14
Immunology.....	16
Pathology.....	17
Gross and Microscopic Findings	17
Histopathological Differentiation of Neuroblastoma	20
Terminology and Criteria of Neuroblastic Tumors	21
Pathologic Criteria for Various Types of Neuroblastic Tumors	21
Recent Modification of Terminology of Neuroblastoma Tumors	22
Spread and Distant Metastasis of the Tumor	29
Clinical Presentation.....	32
Abdominal Neuroblastoma	33
Thoracic Neuroblastoma.....	33
Cervical Neuroblastoma.....	34
Paraspinal Tumors	35
Pelvic Neuroblastoma	35
Metastatic Presentation of Neuroblastoma	35
Non Specific Presentation of NB.....	36
Unusual Presentation of NB.....	37
Diagnosis.....	42
I. Hematological Studies	42

II. Bone Marrow Aspiration.....	42
III. Biochemical Studies	43
IV. Radiological Studies	54
V. Nuclear Studies	63
Staging	76
Prognostic Factors and Survival	82
1. Age.....	82
2. The Site of Origin.....	82
3. Stage of the Disease	83
4. Genetic Factors.....	83
5. Gangliosides.....	86
6. Serum Ferritin.....	87
7. Serum Neuron-Specific Enolase (NSE).....	87
8. Carcino Embryonic Antigen (CEA)	88
9. Lactic Dehydrogenase (LDH)	88
