List of Figures	vi
CHAPTER I: INTRODUCTION	1
Seismic Refraction	2
Seismic Reflection	3
Seismic Tomography	3
Seismo-Technical Parameters of Foundation Materials	3
Location and Geology of Studied Areas	4
1- El-Obour New City	7
2- Anshas area	7
3- El-Minya New City	10
4- Aswan New City	10
CHAPTER II : SEISMIC DATA ACQUISITION	14
II. 1. Introduction	14
II. 2. Types of Seismic Arrays	15
A) In-Line Spreads.	16
B) Detailed Spread	16
C) Cross Spread	18
D) Fan Spread	19
E) Broad-Side Spread	20
II. 3. Generation of Seismic Waves	21
II. 3. 1. P-wave Energy Sources.	22
II. 3. 1. 1. Sledgehammer	22
II. 3. 1. 2. Pneumatic Horn	23
II. 3. 2. S-wave Energy Sources.	26
II. 4. Detection of Seismic Waves	27
II. 4. 1. Recording Instrument	30
CHAPTER III : REFRACTION SEISMIC INTERPRETATION PROCEDURES	32
III. 1. Introduction	32
III. 2. Principles of Seismic Refraction	33
III. 3. Time Intercept Method (TIM)	36
III. 3. 1. Two Layer Case	36
III. 3. 2. Multilayer Case	40
III. 3. 3. Two Layer Case With Dipping Interface	46
III. 3. 4. Multiple Dipping Refractors	50

Central Library - Ain Shams University

Contents

	Page No.
III. 4. Delay Time and Ray-Tracing Method	52
III. 5. Generalized Reciprocal Method (GRM)	63
III. 5. 1. Velocity Analysis Function	64
III. 5. 2. Generalized Time-Depth	65
III. 5. 3. Depth Conversion Factor	66
III. 5. 4. The Optimum XY Value	67
III. 5. 5. The Average Velocity	69
III. 5. 6. Undetected (Blind) Layer	70
CHAPTER IV: DATA ACQUISITION AND INTERPRETATION	74
IV. 1 .Introduction.	74
IV. 2. Data Analysis and Results.	76
IV. 2. 1. Construction of T-X Curves.	76
IV. 2. 2. Construction of Velocity analysis curves for GRM	77
IV. 2. 3. Determination of the Optimum XY Value.	77
IV. 2. 4. Construction of Time-Depth Function curves for GRM	78
IV. 3. Interpretation of the Seismic Profiles.	79
IV. 3.1. Al-Obour First Zone.	79
IV. 3.2. Ain Shams University "Al-Obour area".	115
IV. 3.3. Anshas area	163
IV. 3.4. El Minya New City.	183
IV. 3.5. Aswan New City	215
CHAPTER V: SEISMIC TOMPOGRAPHY	229
V. 1. Introduction	229
V. 2. Types of seismic Tomography	231
V. 2. 1. Seismic Imaging Using Transmission Tomography	231
V. 2. 2. Seismic Imaging Using Refraction Tomography	233
V. 3. Algebric Reconstruction Technique (ART)	234
V. 4. Conjugate Gradient Method	236
V. 5. Field Project In Tomography	237
