Acknowledgment

First of all, Praise be to Allah, God of all beings

I would like to express my deepest gratitude and profound thanks to the soul of **Prof. Dr. Nemat Hashem Nour El-Din,** Professor of Pediatrics and Human Genetics, Faculty of Medicine, Ain Shams University, for her kind advise, encouragement and continuous help.

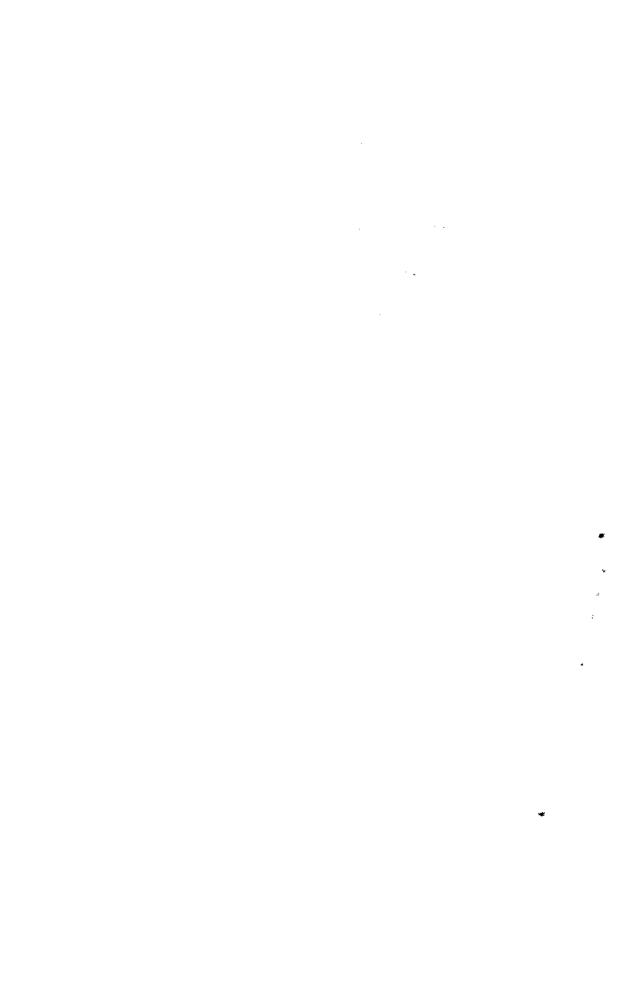

My deepest thanks and special regards are due to **Prof. Dr. Karam Mahmoud Abd El-Aleem,** Professor of Pediatrics and Human Genetics, Jaculty of Medicine, Ain Shams University for his generous help and continuous encouragement.

My sincere gratitude for all my **Colleagues of**Medical Genetics Center, Jaculty of Medicine,
Ain Shams University for their kind help and
support they offered.

Arabic	Summary

List of Tables

Table No.	Details	Page No.
1	Age distribution of 182 cases congenital hypothyroidism.	84
2	Sex distribution of 182 congenital hypothyroidism index cases.	8 6
3	Age and sex distribution of 182 congenital hypothyroidism index cases.	88
4	Parental birth origin of 182 congenital hypothyroidism index cases.	8 9
5	Index birth origin of 182 congenital hypothyroidism	9 0
6	Religion of 182 congenital hypothyroidism index cases.	9 1
7	Parental consanguinity profile of 182 hypothyroidism index cases.	94
8	Parental relatives among 33 index families of 182 total congenital hypothyroidism registered at (ASUMGC).	96
9	Clinical presentation of total congenital hypothyroidism.	98
10	Associated errors expressed among 63 index cases of 182 total hypothyroidism cases registered at (ASUMGC).	100
11	Seventy four associated errors expressed among 63 index cases of 182 congenital hypothyroidism cases registered at (ASUMGC).	102

12	Multiple mutant genomic errors defined	105
	among 72 relatives of 182 congenital hypo-	
	thyroidism index families registered at	!
	(ASUMGC).	
13	Twenty cases (10.99%) of total congenital	10.8
	hypothyroidism 182 cases in which mother	
	was exposed to teratogenic factors.	
14	Etiological classification of total congenital	109
	hypothyroidism	
15	Age distribution of 93 (athyreotic) congenital	110
<u> </u>	hypothyroidism cases.	
16	Sex distribution of 93 (athyreotic) congenital	112
	hypothyroidism cases.	
17	Age and sex distribution of 93 (athreotic)	113
<u> </u>	congenital hypothyroidism.	
18	The parental birth origin of 93 (athyreotic)	114
	congenital hypothyroidism.	
19	Index birth origin of 93 (athyreotic) congeni-	114
<u> </u>	tal hypothyroidism.	
20	Parental consanguinity profile of 93	116
	(atheyreotic) hypothyroidism.	<u> </u>
21	Parental relatives among 5 index families of	117
<u> </u>	93 (athyreotic) congenital hypothyroidism	1
	cases registered at (ASUMGC).	
22	Clinical presentation of 93 (athyreotic)	118
	congenital hypothyroidism cases.	
53	Associated errors expressed among 47 index	119
}	cases of 93 (athyreotic) hypothyroidism cases	}
	registered at (ASUMGC).	

24	Multiple mutant genomic errors defined	121
	among 47 relatives of 93 (athyreotic) congeni-	}
	tal hypothyroidism index families registered at	į
	(ASUMGC).
