

**MELATONIN: ANTIOXIDANT EFFECTS AND DRUG
INTERACTION IN CARDIOVASCULAR SYSTEM**

Thesis

SUBMITTED BY

Sawsan Abo-Elfetoh El-Said

M.B., B.Ch. (December, 1992, Ain Shams University)

Demonstrator in Pharmacology & Therapeutic Department

Faculty of Medicine, Ain Shams University

For

Partial Fulfillment of the Master Degree in Pharmacology

SUPERVISORS

Prof. Dr. Yousria Saad Wahba

*Professor of Pharmacology, Faculty of Medicine
Ain Shams University*

Professor Dr. Sonia Salib Georgy

*Professor of Pharmacology, Faculty of Medicine
Ain Shams University*

Dr. Mohamed Ahmed Abdel- Bary

*Assistant Professor of Pharmacology, Faculty of Medicine,
Ain Shams University*

**Faculty of Medicine
Ain Shams University
1998**

الآية : ١١

Shams University, for her help during performing some practical parts of the present study.

*I would like to thank very much **Dr. Ahmed Abdel-Baset** medical research center and Bilharzial research, Faculty of Medicine, Ain Shams University, for his kind cooperation and help.*

*I am also deeply grateful to **Dr. Awatef Abdel-hamid**, Medical research center and Bilharzial research Faculty of Medicine, Ain Shams University, for her help during performing some practical parts of the present study.*

*I wish to offer my cardial thanks to **M. Said Anbar and Ms. Manar**, Technicians of Pharmacology and Biochemistry respectively, Faculty of Medicine, Ain Shams University, for their help in some experiments in the present study.*

*Lastly, I am also wish to express my deep thanks to **M. Ragab Mansor**, Technicians of Pharmacology, Faculty of Medicine, Cairo University, for his generous help in some experiments in the present study.*
