

**INTERLEUKIN-10 IN SYSTEMIC LUPUS
ERYTHEMATOSUS (SLE) AND JUVENILE RHEUMATOID
ARTHRITIS (JRA)**

Thesis

Submitted for partial fulfillment of
Master Degree In **Pediatrics**

By

Diaa El-Din Nagah Abbas Mohamed
M.B.,B.Ch. (1991)

Under Supervision of

Assist. Prof. Dr. Alyaa Amal Kotby

*Assistant Professor of Pediatrics
Faculty of Medicine, Ain Shams University*

Assist. Prof. Dr. Neveen Ramsis Wissa

*Assist. Prof. of Clinical Pathology
Faculty of Medicine, Suez Canal University*

Dr. Mona Moustafa El-Ganzoury

*Lecturer of Pediatrics
Faculty of Medicine, Ain Shams University*

**FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY
1997**

Acknowledgement

I am profoundly indebted to **Prof. Dr. Alyaa Amal Kotby**, Assistant Professor of Pediatrics. I wish to express my deep appreciation and gratitude for her continuous valuable and kind meticulous supervision and for supporting me all throughout the work.

My deepest respect and sincere gratitude are presented to **Prof. Dr. Neveen Ramses Wissa**, Assistant Professor of Clinical Pathology, for her kind continuous cooperation and impeccable effort without which the achievement of this work would be impossible.

I wish to express my appreciation to **Dr. Mona Mostafa El-Ganzoury**, Lecturer of Pediatrics, for her kind effort and moral encouragement during making and reviewing this work.

I am greatly thankful to **Dr. Mohamed Abd El-Hafeez Mansour**, Consultant of Rheumatology, Maadi Armed Forces Hospital for his kind help throughout this work.

Many thanks go to my **Parents** and my dear sister **Rehab** for their support and continuous encouragement to achieve this work.

Lastly, I wouldn't forget to express my endless gratitude to my dear patients who were the corner stone of this work, for all of whom I hope a rapid and complete recovery.

CONTENTS

	Page
1. Introduction	1
2. Aim of the work	3
3. Review of Literature	4
Systemic lupus erythematosus	4
• Introduction	4
• Epidemiology	5
• Etiology and pathogenesis	6
• Histopathology	11
• Diagnosis	14
Criteria for classification	15
Clinical manifestations	16
Laboratory examinations	23
• Management	31
• Prevention	43
• Course and prognosis	44
• Morbidity	44
• Neonatal lupus syndromes	46
Juvenile rheumatoid arthritis	50
• Epidemiology	50
• Etiology and pathogenesis	50
• Pathology	57
• Diagnosis	58
Classification criteria	58
Clinical manifestations	62
Exclusions for diagnosis	71
Laboratory examinations	73
Radiologic examinations	77
• Treatment	80
• Course of disease and prognosis	88

Cytokines	90
• Introduction	90
• Neuroendocrine immunologic network	93
• Concept of a cytokine cascade	94
• Interleukin-10	98
• Immunomodulation in autoimmune diseases	101
• Cytokines and autoimmunity	103
• Interleukin-10 and chronic joint diseases	105
• Potential clinical applications of IL-10	108
4. Patients and Methods	110
5. Results	120
6. Discussion	144
7. Summary and Conclusion	155
8. Recommendations	159
9. References	160
10. Arabic Summary	

LIST OF TABLES

Tab. No.	Title	Page
1	Etiology of SLE	7
2	Criteria for the classification of SLE	15
3	Clinical manifestations of SLE in childhood	16
4	Neuropsychiatric manifestations of SLE in children	21
5	Evaluation of CNS lupus	21
6	Evaluation of lupus nephritis	22
7	Antibodies to cellular antigens in connective tissue diseases	25
8	Systemic lupus erythematosus disease activity index (SLE-DAI)	32
9	Staging criteria for SLE	36
10	Approaches to the medical management of seriously ill children with life threatening SLE	40
11	Oral prednisolone treatment for patients with SLE	40
12	Preventive measures in lupus management	43
13	Morbidity in SLE	45
14	Types of neonatal lupus syndromes	46
15	HLA relationships in children	56
16	Criteria for the classification of JRA	59
17	Ancillary manifestations of JRA	59
18	Types of onset of JRA	60
19	Classification of juvenile chronic arthritis	62
20	Clinical features of rheumatoid vasculitis	71

21	Clinical associations of ANA's in children with JRA	76
22	Objectives of the conservative management of JRA	80
23	Management of juvenile rheumatoid arthritis	81
24	Drug therapy of JRA	82
25	Characteristics of major cytokines	92
26	Types of cytokines	93
27	Immunosuppressive properties of IL-10 in vitro	100
28	Immunostimulatory properties of IL-10 in vitro	100
29	The mean age and sex percentage among studied groups	121
30	Clinical data of SLE patients	122
31	Laboratory data and drug therapy of SLE patients	123
32	Clinical data of JRA patients	124
33	Laboratory data and drug therapy of JRA patient	125
34	Percentage of various clinical types of SLE	126
35	Percentage of various clinical types of JRA	128
36	Prevalence of pertinent data from routine laboratory investigations among SLE patients	131
37	Percentage of positive serologic tests among SLE patient	132
38	The mean IL-10 level among the three subtypes of SLE	132

39	Prevalence of pertinent data collected from the performed routine laboratory investigations among JRA patients	134
40	Percentage of positive serologic tests in JRA	134
41	The mean IL-10 level among the three subtypes of JRA	135
42	Comparison between the mean IL-10 level among the three groups	136

LIST OF FIGURES

Fig. No.	Title	Page
1	A scheme for the immunopathogenesis of RA	53
2	The neuroendocrine immunologic network	94
3	Cytokine cascade. Initial antigen phagocytic cell interaction	95
4	Cytokine cascade: polarization of the immune response	96
5	Allergic inflammation and IgE production	97
6	Mechanism of action of IL-10	99
7	IL-10, a key cytokine in the pathogenesis of SLE	106
8	Percentage of various clinical types of SLE	126
9	Various clinical manifestations of SLE	127
10	Percentage of various clinical types of JRA	128
11	Different clinical manifestations among JRA patients	129
12	The mean IL-10 level among subgroups of JRA	136
13	Comparison between the mean IL-10 level among the three groups	137
14	Relation between IL-10 levels and convulsions among SLE patient	138
15	Relation between IL-10 levels and morning stiffness among JRA patient	139
16	Relation between IL-10 levels and gender among SLE patient	140
17	Relation between IL-10 level and disease activity scoring among SLE patients	141

18	Relation between IL-10 level and duration of illness among JRA patients	142
19	Relation between IL-10 level and anti-DNA levels among SLE patients	143
20	Relation between IL-10 level and anti-Sm antibodies among SLE patients	143
